Crops and Prices in Europe.

The Mark Lane Express says the weather the past week has been mild. Rains, which at one time seemed hopeless, now show quite a crop.

In consequence of the absence of ice every European port keeps open, and shipments are hastened. Foreign arrivals and dampness of weather operate against an advance in the price of wheat.

The Body of a Woman Found.

Recently the almost nude body of Mary Leichet, a comely and educated young woman, was discovered in a dismal swamp close to the Buffalo, Corry and Pittsburgh Railroad, within a short distance of Corry.

A Singular Occurrence.

The Baltimore Gazette of Wednesday says: "A few days ago a store 12 miles on the Philadelphia road was robbed of a quantity of merchandises, and though every search was made in the neighborhood no clue to the robbery was found.

In New York, on Friday, a week,

George H. Mix, who was indicted for stealing \$4,100 worth of real lace from the store of H. B. Claflin & Co., and pleaded guilty, was brought up for sentence in the Court of General Sessions.

A Queer Business.

There is a man in New York who is amassing a handsome fortune by buying and selling pennies, two and three cent pieces, and five cent nickles. In many of the newspaper offices, news depots, ferry offices, retail houses where cheap goods are sold, bakeries, and other places the accumulation of small coin very often becomes so large as to be cumbersome.

Every day a man rides to the newspaper

and other offices in a buggy, and buys the coin which has been taken in from the newboys and the customers. For the pennies and two cent pieces he pays ninety seven cents a hundred, and for the three and five-cent nickles he gives ninety nine cents for a dollars worth.

A Panle in a Church.

At Montreal, on Monday a week, while the anniversary services were being held in the Roman Catholic parish church, the outer circle or partition separating the altar from the passage leading to the vestry room, caught fire from an explosion of gas.

The Typhoon in Japan.

Advices from Japan by steamer say that the general damage to property exceeds \$5,000,000. When the typhoon was raging, pirates fired the city in six places for spoil.

A Sensible Berks County Politician.

The Berks county Democrats intended at first to celebrate their victory, but their chairman says sober reflection has changed this idea, and adds: "Influenced by this feeling, I have initiated a project whereby a fund shall be raised to be used for charitable purposes in this community during the coming winter."

A Youthful Murderer.

Sallybury, November 9.—During an altercation yesterday between two lads, aged fifteen, named Couch and Cushon, the former was chased into his father's house and killed with a club by the latter.

Miscellaneous News Items.

St. Louis, November 11.—Joseph Wallace, son of a highly respected Baptist minister in Norway county, shot and killed William Brush on Friday.

It is said that Gov. Peck, of Vermont, will be liable to be sent to jail, if the bill making premises where liquor is sold a common nuisance passes, for he rents property to a well-known rumrunner at Burlington.

A Miss Paine met with a singular accident in Titusville on last Saturday.—While walking along the street, a large Newfoundland dog ran against her, knocking her down. In the fall one of her wrists was dislocated and one of the bones of the same arm broken.

Montgomery, November 6.—A negro named Diggs, was jailed to day by the United States marshal on a charge of shooting and killing a young son of Judge Kiels of Barbour county, on election day, and destroying ballot box at Spring Hill in the same county.

On Saturday a week an accident occurred in the saw mill of E. M. Long, in Fayetteville, Adams county, by which a young man named John Myers lost his life. While he was sawing lumber the saw caught a board and threw it around striking him on the head and crushing his skull. He died in a few minutes.

A few nights since two tramps put up in an unoccupied house near Newton Hamilton. There was a stove in the building and they bethought them to fire up.—They did not know there was several pounds of rock powder in the stove. It is presumed they found it out, however, as the stove was scattered about the country for a radius of half a mile.

Memphis, November 6.—Parties from Osceola, Arkansas, State that early yesterday morning Jack Phillipa, negro, outraged the wife of a planter near there. Philadelphia, November 10.—A tin-box and carpet-bag were found to-day on Delaware avenue, Camden, N. J., behind a pile of bricks. On the key to the box was suspended a metal tag with the name Nott Murphy thereon. The carpet-bag was empty, but the box contained real estate papers, maps, land warrants, &c. The case is one of supposed foul play to the owner of the property.

New Orleans, November 10.—The trial of Amos Simms, the successful negro candidate at the late election in Terre Bonne parish, charged with homicide in killing a party of negroes who assaulted and pursued him, took place yesterday. The coroner's jury in the case of the deceased, which was entirely composed of colored men, returned a verdict of justifiable homicide, and Simms was immediately released.

A coal-dealer in Portland, Me., recently sued a delinquent customer for a balance due for coal delivered. The defendant proved that the coal was weighed by one of the employees of the dealer, and not by a sworn weigher of coal. The Superior Court of the State thereupon ruled that plaintiff could not recover, as the Maine statutes provide that the seller shall not maintain a suit for the price of coal unless he had caused the same to be weighed by a sworn weigher and delivered a certificate of the weight to the buyer before beginning suit.

general debility, it is a sovereign remedy. A SUBSTITUTE FOR QUININE.

For years, Quinine was regarded as the only specific for malarial diseases, and immense quantities of the drug were annually consumed throughout our western country, more particularly along the river bottoms and adjoining low lands. With the fall months malaria, in all its varied forms, stalks like an epidemic through the land, and whole districts are prostrated with chills and fever, the entire population shivering with age. Heretofore, quinine was regularly resorted to; but, while it frequently failed to effect a cure, it invariably deranged the stomach, producing nausea, vertigo and fugitive pains in the head to such an extent that months elapsed ere the system recovered from its frequent stoppages. It is to its use were so marked, that the introduction of Miehler's Herb Bitters was hailed as a triumph in medicine. Infinitely more certain in its beneficial effects than quinine, it possessed none of the demerits of that drug. Instead of nauseating, it tones and invigorates the stomach, and while speedily expelling the noxious humors, increases the appetite and facilitates digestion, thus rendering the system stronger, and better fitted to resist the attacks of disease. In fact, a judicious use of Miehler's Herb Bitters at this season of the year, will prevent the recurrence of this disease, even in those who have never passed an autumn without it. An experience of twenty years proves it to be the greatest ANTI-MALARIAL known to medical science.

There are, perhaps, no diseases so subject to climatic changes as affections of the Kidneys.—Hundreds of our farmers, mechanics, and laboring men, strong and hardy in all other respects, suffer continual inconvenience, and occasionally excruciating pains in the back and across the loins; experience a frequent desire to pass water, which costs them direct to the disease becomes chronic, and the once strong man a miserable wreck. Miehler's Herb Bitters is the only certain remedy for this class of diseases. It has a peculiar tendency to the kidneys, stimulates them to healthy action, and removing the cause, prevents the formation of brick-dust deposits, which, if permitted to continue, will by cohesion form gravel stones, necessitating a painful operation for its removal. Many of the ingredients entering into its composition, are universally recognized as specifics for all complaints of the urinary organs. In Liver Complaint, Dyspepsia, all disorders of the Bowels, and affections of the Throat and Lungs, it is equally certain and efficacious. While, as a remedy for the complaints peculiar to the female sex, it has no equal. LADIES, old and young, married and single, in every condition of life, will find this GREAT FEMALE REMEDY prompt, safe, certain and reliable. The pale, anemic complexion is replaced by a blooming, healthful countenance, and its occasional use enables Nature to perform her functions REGULARLY and WITHOUT INTERFERENCE. Sold only in bottles by all Druggists and general dealers. August 11, 4m R.
