THE POST.

MIDDLEBURG,.....JUNE 16, 1870.

TOWN AND COUNTRY.

A VALUABLE FARM situate in Monroe township, this county, is offered at private sale. See advertisement.

JOHN B. FOCKLER having fitted up his saloon in Selinsgrove in elegant style, the public are invited to give him a call. Ice cream every evening.

THE authorities of Sunbury have contracted for the building of an Engine house, for their new steamer, at a cost of $3,420. It is to be a brick, two stories high.

THE time for holding the Northumberland County Agricultural Fair has been fixed for October 5th, 6th, and 7th. The Fair will again be held at Turbutville.

THE Pennsylvania State Sunday School Convention, nessembles at Harrisburg on Tuesday the 14th inst., and will hold sessions through Wednesday and Thursday the 15th and 16th.

THE Closing Exercises of Union Semenary, at New Berlin, will take place on the evenings of the 13th, 14th and 15th insts. The public are respectfully invited to attend.

MARGARET DARRAUGH, a woman of about nineteen years of age, died, in Harrisburg, on Sunday, of hydrophobia. The disease first made its appearance on Friday. She had been bitten by a dog about nine weeks previously.

WE now have a live and energetic man at the head of the L. & S. Railroad, and work is going on in good earnest. Employment is given to all able men applying for it, and more men, horses and carts, are wanted. Pitch in.

THE material of the Bellefonte *National* has pased into the hands of R. B Barger, proprietor of the *Republican*, who now offers for sale a complete outfit for a country newspaper affice, including one Liberty job press, stands, cases, stones, &c., all of which will be sold at remarkable low prices for cash or good paper.

LAND LIEN DOCKET.—For the information of those interested, we this week commence publishing the list of lands situate in this county, held by location, or any other office right, issued by the Land Department of this Commonwealth, upon which no patents have been issued, including the names in which such locations or other office rights are entered, and the amount due the Commonwealth up to June 1, 1868. We will continue these lists from week to week until all are published.

THE CENSUS.—As the Census takers are now around, putting all manner of questions about families, and ages, and business, we may add for the satisfaction of all parties, that the askers of these questions are ordered to keep secret the facts they may be made acquainted with. Their office, like that of lawyer or priest, is said to be a strictly confidential one, and they are bound not to disclose, except to their official superiors, the results of their very questionable labors.

We would advise heads of families, in order to save time, to make a list at once of the names and ages of their children on the first of June last; the occupation of themselves, and children, when the latter have any occupation; how many of the children have attended school the past year; the amount of their real-estate and personel property; the amount invested in their business, their profits, &c.

We may add that it is stated most solemnly, that these Census returns have no connection with the assessment of TAXES.

Many of the questions which the Census law makes imperative, are in our opinion both vexatious and useless, but of course we advise our readers to answer them as promptly and cheerfull as they can.

Commencement Exercises.

SELINSGROVE, Pa., June 5, 1870.

Last week's exercises just ended colsed a very successful year of the educational, interests here located. The fact also of the Susquehanna Synod of the Evangelical Lutheran Church meeting here had the effect of bringing more people than, perhaps, otherwise have been here at this time. The exercises of the schools commenced as usual on Sunday, with examinations, which were continued from day to day until the time appointed for the other closing exercises, which consisted of an address on Friday evening before the literary societies of the Missionary Institute by the Rev. Mr. Fryer, formerly of this place, but now living in Lewisburg, Pa. His subject "Thought in its unity with the truth of things, or man in unity with himself," was handled with great ability.

On Saturday evening an entertainment was given by the students of the Susquehanna University, College, under control of Professor Harkey. The young ladies acquitted themselves admirably; the only drawback felt was that the hall of the College was not sufficiently large to accommodate comfortably more than one-half the people who desired to witness the entertainment—a defect, it is expected, will be remedied the next year, as the Odd Fellows Association of this place are building a large hall to be used for such purposes. On Wednesday afternoon the alumni address was delivered by Rev. B. F. Alleman, of Bloomsburg, Pa.; subject—"Providence of God in its dealings with the Missionary Institute." He followed the subject from its conception by Dr. B. Kurtz, of Baltimore, up to the present time, through all its trials and difficulties, showing that the hand of God directed the deliberations of its friends, notwithstanding the opposition and calumnies of its enemies, and to-day it stands out more prominent and with clearer skies than at any time since its foundation. The events of the year, but more especially of the last few months, have dispelled all the gloom that hung over it in former years.—On Wednesday evening the crowning event of the week took place, the contest between the two literary societies connected with the institute. The following was the programme of the evening:

BENEDICTION.

The young gentlemen acquitted themselves nobly, and right earnestly did each contend for the victory. It was evident that no inconsiderable amount of study and preparation had been expended upon their productions. I cannot refrain from singling out two performers, who excelled themselves. One orator, Mr. Killinger, seems to have made his subject a study, evidently as he was so perfectly at home with the it, succeeded in carrying the audience along with him for about an hour. The other gentlemen, Mr. Sieber, having the negative side of the question, endeavored to prove, not that men of thought were more beneficial to the world, but that they were equally beneficial to the world, and gained the end to the satisfaction of the audience, though he told his hearers that the two were inseparably connected. This closed the most interesting entertainment.—*Correspondent of the Philadelphia Press.*

EFFORTS are being made at Port Treverton, in this county, to organize a military company at that place.

THE annual exhibition of the Freeburg Academy will be held on Friday evening June 17th. The public are invited to attend.

OUR military company has been invited to attend the 4th of July celebration at Lewisburg. We have not learned that the invitation has been accepted.

DR. SCHWAN, first lieutenant of Company A Snyder Co. N G., having tendered his resignation, and the same having been accepted, an election will be held by the company on the 4th day of July next to fill the vacancy.

THE long spell of weather has thrown farmers considerable in the back-ground; they won't stand much bothering now. Agents and patent right men had better keep out of their way until after harvest.

AFTER part of our issue intended for last week was printed on the outside, we were compelled to stop the press, owing to a circumstance not necessary to mention, and consequently no paper was issued from this office on the 9th.

HON. JOHN B. PACKER, a member of Congress, was home on a flying visit over Sunday last. He returned again on Monday morning to his post. His duties on Committees are arduous, and he is never absent from them. He looks hale and hearty. —*Sunbury Gazette.*

THE community at Hughesville was much shocked on Monday of last week, by the sudden death of Mr. Asher Castleberry. Mr. C. was in the enjoyment of his usual health on Sunday and attended Church in the evening, but was taken suddenly ill at eleven o'clock, Sunday night, and died at 2 o'clock, P. M., Monday. He had served in the army during the war, and expected to join in the memorial exercises on the day of his death. His age was about 25 years. *Muncy Luminary.*

THE building for the new Shoe Factory is up and ready for the plasters. It is located on Eighth street near the new school house, (and not, as previously stated, on the corner of 7th and Market.) It is large airy, well lighted frame. The people of this community have reason to rejoice that such a man as Henry G. Schwartz has cast his lot among them; for a man who uses his capital as he does, is a great benefit to a neighborhood. May his life be long, and his example copied by other capitalists!—*Lewisburg Chronicle.*

WE learn from the Lewistown *Democrat* —that a child by the name of Hanawalt was crushed to death on the 22nd ult. by a log, that had been left on the sloping ground near the barn, rolling over him. The log had rolled over its prop, a stone of 4 or 5 inches thick, and rested against a small piece of board. It is thought the boys in playing lifted the board which started the log and caught and crushed the child. The parents were absent at church, and were just seating themselves at the communion table when they were apprised of the accident.

THE RINDERPEST.—The Reading *Eagle* says: "Some of the farmers in Greenwich township, Berks county, are considerably excited over the appearance of a strange disease among their cattle which they fear is the rinderpest. The cattle suffer for two or three weeks, and finally die. Cow doctors in that vicinity, are unable to combat the disease, which they do not appear to understand;it being something new in the county. One farmer has lost three cows, and others have lost one or two each. We hope immediate steps will be taken by the Agricultural Society to discover the true nature of the disease, and if it is the rinderpest, to have it checked at once, before it spreads throughout the county."

ON last Sunday morning, A. J. Williams of this place, having become tired of hymenial discord and an intemperate companion, took his children—three boys—and unpretence of going to Sabbath school, embarked across the river, where a vehicle was in waiting for them, and "struck" for the Pennsylvaia Central, whence they left for parts unknown, leaving his better half to regret her folly. He had previously disposed of his property, having induced his wife to join in the conveyance of it, with the statement that he intended to locate at Shamokin, where he could secure profitable employment for their boys. He had also saved several months' wages for the contemplated trip, and left his debts to be adjusted in a manner not very acceptable to his creditors.—*Dauphin Register.*

HEARTH & HOME for this week (dated June 25th) contains the first of a series of sketches entitled *Jethro Throop's Night Thoughts*, by JOHN THOMAS, who is no other than PETROLEUM V. NASBY. The great humorist will take an honest country boy to the city, conduct him through the usual experince, and restore him to his home a sadder and wiser boy, satisfied that the peaceful, honest, and temperate life of the faomer is the best and safest life that can be lived. This is a lesson greatly needed at this time, and NASBY is the man to teach it.

OLD BOOK No. 4.—We are still engaged in looking up the books of past ages, and still going back further in the dates. How far back we can go we can not say until our subscribers have time to examine their libraries. Perhaps they have some stowed away in old chests and book cases which we hope will be brought to see the light of 1870.

This week we saw a book belonging to the library of the Lewisburg University which bears an earlier date than any that has yet been presented. It is entitled—"The Institute of Christain Religion, Written in Latine by Mr. John Calvine, and translated into English according to the author's last edition, by Thomas Vautrollier for William Norton, 1578.

The book is in good condition, and has been well printed. The paper is strong and looks durable, and we see no reason why it should not last 293 years longer. This seems like anticipating the future, and makes one think of "posterity." Yet it is no longer than the book has actually been in use. We suppose it contains the unadulterated "Calvanistic" election and foreordination doctrines, which have caused so much controversy in the religious world from that time to the present. It is no doubt a rare and valuable work to theologians.—*Lewisburg Chronicle.*

GO IN.—If you expect to win, go in. People who sit on back seats rarely amount to much. The world is not conducted on slow principles, and coaches of that style went out of use long ago. The go in and win figure is the only one that counts; so don't be slow—walk right into the Selinsgrove Hardware Store and learn the low prices at which Messrs. Hiestand & Boyer are selling everything in their line of business. They have a splendid assortment of goods.

PHILADELPHIA MARKETS.

Keeps constantly on hand a large and well made assortment of Tin, Sheet-Iron ware, *Stoves, &c., &c.*
He is Agent for the following named articles.

"THE MORNING GLORY."
Littlefield's Patent Improved Base Burning
COAL STOVE.
In this pattern of THE MORNING GLORY, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast iron, so fitted as to be air tight, but can be made with sheet-iron upper section when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture, far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory is quite different, making it more durable, and far less difficult to be repaired. The castings are of the highest order, fully equaling the finest castings made in this country.
Among the MANY ADVANTAGES in the use of the Morning Glory are the following:—1. Continuous Burning. 2. Quality of the Heat. 3. Ventilation through the stove. 4. Anti-Dust Stove. 5. No Escape of Gas. 6. Economy of Fuel.

"THE BARLEY SHEAF."
Anti-Dust Air-Tight Cooking Stove, with Extended Fire-Box for Wood or Coal.
Patented May 16th, 1865.
We take pleasure in offering our customers and the Stove Trade, a New first-Class Flat-top, and would call *particular attention to its many attractive and valuable improvements.*
This Stove has been carefully tested for several months, and the results have proved so highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply this season.
Sliding front fire-doors, giving full use of the hearth.
An additional slide in the oven, so arranged as to give more room in the upper part of the oven; a great convenience much needed.
The oven is nearly as *wide at the top* as at the hearth line, which not only increases the size, but will be recognized as a *great adeantage in baking.*

DOTY'S CLOTHES WASHER.
The best, cheapest, and most popular Washing Machine ever invented.
It is easy to operate, sitting or standing; takes but little room; injures no garments; finishes its work from in two to four Minutes; is durable and convenient; and the only Washing Machine known that is liked the better the longer it is used.

THE UNIVERSAL CLOTHES WRINGER.
The "GREAT FAMILY ECONOMIZER."
The terms of our Patent call our Machine a "Wringer." Years of experience prove it also to be A MOST EXCELLENT WASHER.
When we reduce every invention for washing clothes to a principle they all amount to that of pressing and squeezing, and forcing the water through them, thus removing the dirt. Most Washing Machines do it by rubbing. The Universal Wringer does it by pressing.
