**J. S. BURKHART,** Selinsgrove, Snyder Co., Penna.

Keeps constantly on hand a large and well made assortment of Tin, Sheet-iron ware, Stoves, &c., &c.

He is Agent for the following named articles. "THE MORNING GLORY."

Littlefield's Patent Improved Base Burning COAL STOVE.

In this pattern of THE MORNING GLORY, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast-iron, so fitted as to be airtight, but can be made with sheet-iron upper section when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture, far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory, is quite different, making it more durable, and far less difficult to be repaired. The castings are of the highest order, fully equaling the finest castings made in this country.

Among the MANY ADVANTAGES in the use of the Morning Glory are the following:— 1. Continuous Burning. 2. Quality of the Heat. 3. Ventilation through the stove. 4. Anti-Dust Stove. 5. No Escape of Gas. 6. Economy of Fuel.

"THE BARLEY SHEAF." Anti-Dust Air-Tight Cooking Stove, with Extended Fire-Box for Wood or Coal. Patented May 19th, 1865.

We take pleasure in offering our customers and the Trade, a New First-Class Flat-top, and would call particular attention to its many attractive and valuable improvements.

This Stove has been carefully tested for several months, and the results have proved so highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply this season.

Sliding front fire-doors, giving full use of the hearth. An additional slide in the oven, so arranged as to give more room in the upper part of the oven; a great convenience much needed. The oven is nearly as wide at the top as at the hearth line, which not only increases the size, but will be recognized as a great advantage in baking.

**DOTY'S CLOTHES WASHER.** The best, cheapest, and most popular Washing Machine ever invented. It is easy to operate, sitting or standing; takes but little room; injures no garments; finishes its work from in two to four minutes; is durable and convenient; and the only Washing Machine known that is liked the better the longer it is used.

**THE UNIVERSAL CLOTHES WRINGER.** THE GREAT FAMILY ECONOMIZER. The terms of our Patent call our Machine a "Wringer." Years of experience prove it also to be a MOST EXCELLENT WASHER. When we reduce every invention for washing clothes to a principle they all amount to that of pressing and squeezing, and forcing the water through them, thus removing the dirt. Most Washing Machines do it by rubbing. The Universal Wringer does it by pressing.

**Ayer's Hair Vigor,** For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and efficient for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth! This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a greasy ointment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling out, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It warrants itself for a
