THE Muncy *Luminary* pays its respects to our Republicans who sold out to Dill, thus:

But the most shameful and unwarrantable abandonment of principles, the most outrageous betrayal of a candidate by any party, that we know of, was that of the Republicans of Union and Snyder counties on the Senatorial question. Our candidate, Hon. Henry J. Jonson, was identified with no clique, but stood out simply a Republican, pure and undefiled, and yet leaders in those counties who owe all they have and all they are, to the Republican party, trumped up a pretext and sneakingly and secretely laid their plans, and only too well carried them out, to slaughter him at the polls.—Instead of Mr. Johnson receiving a majority of not less than 1200 in the two counties, both gave majorities against him.

THE *Lewisburg Chronicle*, in giving the official vote for Senator and members of Assembly in this districts, comments as follows: There, now, is a whole-sale slaughter of the innocents." The above defeated candidates were nominated in good faith, and they expected—as it was their right to—that the leaders of the party would prove honest, and their election would consequently be certain. Gentlemen whose eleventh hour perfidy has disappointed their expectations and hopes, what do you think of your work? What do you think of yours lives? you who have so earnestly urged others to stick to the ticket—charged us to instruct our Republican readers to stick to the ticket and thereby secure a victory and redeem our district—which was right—your preaching or your practice? Have you taken John C. Breckinridge as your patron saint? You denounced his remaining in the Senate, obtaining all the knowledge he could of the course to be pursued by Mr. Lincoln and his administration in putting down the Rebellion, and then with his pockets full of the coveted information, he basely turned traitor; in a small way your course has been the same. If he was a traitor on a large scale, what are you? If it is your object to break up the Republican party in this district, why haven't you the honesty to say so openly?—You have hitherto borne good names, personally and politically; are you disgusted with honesty?

A number of staunch Republicans of the rank and file aver that, having been so wofully fooled and cheated by their leaders, they will never go to the polls again. This is bad reasoning. If our soldiers had thrown down their arms when Lee, Twiggs, and scores of faithful officers, turned traitors, where would we now have been? No, gentlemen; we of the rank and file must reason differently. Let us resolve to do our duty to the last—Other leaders will rise from the ranks who will lead us to victory, when the political sun of our betrayers shall have set to rise no more. As we have urged hitherto, we now continue to urge—"stick to your ticket"—go straight forward, and let the traitors fall out of rank as fast as they please. Such a course will induce others more faithful to fill them up. Forward!

MILWAUKEE is the greatest grain market in the world. It has six large elevators, able to hold from half a million to a million and a half bushels. Yet last week five hundred cars were standing in the freight yards and on the tracks of the city, unable to discharge their wheat. This immense lot is from old wheat, and the merchants estimate that there are a million more bushels of the crop of 1869 to come.

LAST Thursday morning at a few minutes after eleven o'clock, an earthquake shock traversed the continent from west to east, causing considerable alarm along its track. The shock appears to have been most severe in Northern New York, Canada, and New England.

## Present Aspects of the War in Europe.

The French and Prussian war, which two months ago was a leading sensation of the day, has declined into minor importance as a theme of public thought, though the leading New York dailies still think it due to their metropolitan position to ventilate their strategy by a diurnal review of the European situation. An English military critic, in describing the battle of Waterloo, says that their was a great sameness in the conflict. The assault of the French by alternate battering with artillery, and by charges from line to square, and from square to line again, on the part of the British troops. Thus, during the terrible Sunday afternoon of June 18, 1815, the progress of mutual destruction went on with remarkable uniformity. So the course of the present contest presents scarce sufficient of varied incident to attract general attention. A dreary succession of skirmishes, of attacks and repulses, of abortive negotiations, and of stereotyped manœuvrings, have wearied the public mind with the whole subject.

The work of strategy in the present war seems to be pretty nearly accomplished, and the work of tactics well advanced. The Prussian programme has been carried into remorseless execution with a tactical vigor which has surpassed all expectation. There seems to be but little room for a reorganization of French forces in sufficient strength to alter the geneal situation. The efforts of the Provisional Government to protract a hopeless contest seem to have less of the heroic than of the frantic. We find no reason to alter our previously expressed opinion in regard to the propriety of the Prussian demand for the surrender of Alsace and Lorraine. The surrender of Metz, which is a foregone conclusion, will place these provinces entirely under the military control of Prussia. The baffled attempts of Bazaine to break through the lines only show the desperation of the garrison, whose last pound of horse-beef will probably soon be brought upon the table. Germany, in actual possession of these provinces, will hold an impregnable diplomatic position in the settlement of questions of peace.

The capture of Metz will have a tremendous influence upon the military situation. While 100 000 of the most effective French troops will be placed *hors da combit*, the immense beleaguering force will be released from siege duty, and rendered available for ulterior operations. The reinforcement of the armies before Paris by this immense force will crush at once all efforts at relief of the garrison, and sweep Western and Southern France.

The blaster of recent despatches declaring an invincible purpose of the government and people not to cede one inch of territory, or to pay one franc of indemnity, seems rather to indicate an increasing willingness to do both. If sincere it implies an endorsement of the dethroned usurper in commencing of wicked and causeless war. If the French people wish to place themselves beyond the pale of the world's sympathies, they have only to declare their purpose never to make amends for the injury which the Imperial government inflicted upon a peaceful neighbor. But we do not belsive that the French people are actual by any such insane fanaticism of evil.

Outside of the cities we see no indications of exasperated war feeling. The invsion has put an end to all exchange, and has greatly crippled production. The exhausting requisitions of the Prussians under the laws of war are of a character which excites all earnest longing for peace and for the cessation of those exactions rather than a desperate resistence among the rural classes. But few cases of such resistence are reported, and the importance and vigor of these have been greatly overrated. Peace is a necessity of French agriculture. The insane national pride which refuses to make peace upon the terms offered by Bismark is entertained only by city populations.

The reports of peace negotiations are so changeable in tone and coloring that it is difficult to form any satisfactory opinion in regard to them. That there is some prospect of success in these negotiations, however, seems evident from the long delay of the bombardment of Paris. The growing military weakness and disorganization of the government, the exhaustion of present resources, and the failure to supply those losses indicate an approaching peace from inability to carry on the struggle. The intervention of foreign powers will become more active as the danger of their individual complication in the war becomes less apparent. Thus this great contest, which at the opening threatened to involve all Europe, now promises to confine itself to its original parties.—*Press.*

THE following is the official statement of the Land Department, Union Pacific Railroad, from July 28, 1869, to October 4, 1870: The Union Pacific Railroad sold 240,344 19 100 acres, for which they received $1,106,049.32, or an average of $4.60 per acre. The company cancelled $318 000 of their lands. The trustees hold $400 000 in settlers' notes, secured by mortgage on land sold, and $50,000 in cash, to be appropriated to further purchases of land grant bonds. The Union Pacific Railroad have 11 750,000 acres of land remaining unsold.

## Thanksgiving Day.

*By the President of the United States:*

A PROCLAMATION.

*Whereas*, It behooves a people sensible of their dependence on the Almighty, and collectively to acknowledge their gratitude for His favors and mercies, and humbly beseech for their continuance; and

*Whereas*, The people of the United States, during year now about to end, have special cause to be thankful for general prosperity, abundant harvests, exemption from pestilence, foreign war, and civiel trife; now, therefore, be it known that I, Ulyses S. Grant, President of the United States, concurring in many recommendation from Chief Magistrates of States do hereby recommend to all citizens to meet in their respective places of worship on Thursday, the twenty-fourth day of November next, there to give thanks for the bounty of God during year about to close, and supplicate for its continuance hereafter.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 21st day of Ottober, in the year of our Lord one thousand eight hundred and seventy, and of the Independence of the United States, the ninety fifth.

U. S. GRAT.

By the President:

HAMILTON FISH, *Sec'y of State.*

## Political Items.

The Republican victory in Nebraska seems to be overwhelming. The Democracy have been utterly routed, and the personal friend of President Grant, General Thayer, will be re-elected Senator to Congress for six years from the 4th of March next, without opposition.

The defeat of General Schenck, in the Third Ohio district by a bare majority of fifty, after the gallant struggle he had made, is particularly unfortunate. One of the ablest members of the last Congresses, a staunch and unyielding friend of American industry, and Republican whose devotion to his party had never faltered, his loss will be felt in the next House.

The official returns of all the Ohio counties but two, and the reported majorities of these, give the republican candidate for Secretary of State a plurality of 16,739 over the democratic candidate, and a majority of 13,844 over both the democratic and temperance candidates. Governor Hays' majority over Pendleton, in 1869, was 7,501. The falling off in the total vote, this year was 35,760.

The Philadelphia *Age* is overwhelmingly convinced that Philadelphia was carried for the Republicans by the negro vote, but has not a word to say in regard to the overthrow of the Democrats of the Congressional district of Luzerne and Susquehanna counties, where without an negroes, or few at best, the "white man's party," which had a majority in 1869 of 1,789, was utterly defeated.

The Republicans of Eastern Pennsylvania did nobly in the contest on Tuesday last. Formerly the Democratic majorities came from this section of the State, but the revolution which began in 1869 has kept on increasing, until to-day what but a few years ago was the stronghold of Pennsylvania Democracy has become decisively Republican. Not to speak of the glorious results in Luzerne and Lehigh, the changes wrought in Wayne, Monroe, and other counties in the Eleventh district have been wonderful. The remarkable growth of the Republican party in these counties is especialy gratifying. The seat of the great mining industry, it is an indication that those engaged in developing our mineral wealth are being educated up to the advantage of protection. They see its material benefits, and appreciate the wise policy of the Republican party which dictates it.—*Press*, 18th Inst.

THE President has issued a proclmation enforcing the neutrality law of Congress of 1818. It prohibits the armed cruisers of either of the belligerents in the present European war using the bays, waters and harbors of the United States for the purpose of war; and declares that ships of war of either of the belligerents shall not leave any port of the United States within twenty-four hours after the departure of any merchantman of either of the belligerents, that no war vessel of either belligerent shall remain in any port of the United States longer than twenty-four hours, unless for needed repairs and supplies; and that no vessel of war of either of the belligerents shall re-enter any port of the United States, after having once left such port, until after having visited an European port or port of the Govenment to which she may belong. The making of our ports depots for supplying war material to belligerents is also prohibited.

CHICAGO, Oct. 22.—A special dispatch from St Pauls, says that Mr B O'Donohue, Secretary of the Red River Provisional Goverament, and an active leader in the Riel movement, is in that city on his way to Washington with a memorial from the Red River people, protesting against the conduct of the Canadian goverument in violating their alleged general amnesty, on which pledges the troops were permitted to enter the country unmolested, and commence a course of violence. The memorial recalls the fact of the troops being permitted to pass through American waters on pretence that they were on a mission of peace. It recounts the outrages inflicted on the Red River people, the perfidy of the Canadian goverument, and the general disappointment of the inhabitants. They beg the President to intercede with the Queen to permit the peaceful and oeration of the Red River country to the United States.

WELL PUT.—The Lewisburg *Chronicle* says: "If Salt River is the route for defeated parties, it appears that a new one has been opened for the victorious. This triumphal line of march is by Railroad, and extends all the way to Kansas.

Details of the damages done by the great storm in Cuba, last week, have been received. From one thousand to two thousand people were killed or drowned, twelve thousand head of cattle where lost, several vessels wrecked, and in Matanzas alone over four hundred houses were destroyed. Among the most horrible features of the calamity was the uprooting and sweeping away of a cemetry and the scattering of the corpses through the adjacent country.

DOTY'S

**Washing - Machine,**

LATELY MUCH IMPROVED—AND THE NEW

**Universal Clothes Wringer**

Improved with ROWELL'S PATENT DOUBLE COG WHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it and with the aid of Doty, we feel that we are masters of the position."—Rev. L. Scott, Bishop M. E. Church.

"In the laundry of my house there is a perpetual thanksgiving on Monday for the invention."—Rev. Theodore L. Cuyler.

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—N. Y. Observer.

"I heartily commend it to economists of time, money, and contentment."—Rev. Dr. Bellows.

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our Machine' after a year's use, is thought of more to-day than ever, and would not be parted with under any circumstances."—Solon Robinson.

The N. Y. Weekly Tribune, of Dec. 15, 1869, in answer to a correspondent, says: "All Washers, there is none to be compared with Doty's."

**Prices---A fair offer.**

If the Merchants in your place will not furnish or send for the Machines, send us the retail price, Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines free of freight, after a month's trial, according to direction.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer and a Universal Wringer.

Sold by dealers generally, to whom liberal discounts are made.

MASON & HAMLIN CABINET ORGANS

Important Improvements.

*Patent June 21st, and August 23, 1870.*

REDUCTION OF PRICES

The Mason & Hamlin Organ Co., have the pleasure of announcing important improvements in their Cabinet Organs, for which Patents were granted them in June and August last. These are not merely meretricious attatchments, but enhance the substantial excellence of the instruments.

They are also enabled by increased facilities for manufacture, to make, from this date, a further reduction of prices on several leading styles.

Having completed and added to their former facilities a large new manufactory, they hope hereafter to supply all orders promptly.

The Cabinet Organs made by this Company are of such universal reputation, not only throughout America, but also in Europe, that few will need assurance of their superiority.

They now offer Four Octave Cabinet Organs, in quite plain cases, but equal according to their capacity to anything they make, for $60 each—The same, Double Reed, $65. Five Octave Double Reed Organs, Five Stops, with Knee swell and Tremulant, in elegant case, with several of the Mason & Hamlin improvements, $125. The same Extra, with new Vox Humana, Automatic Swell, &c., $160. Five Octaves, Three Sets Reeds, Seven Stops with Euphone; a splendid instrument, $225.

A new illustrated catalogue with full information and reduced prices, is now ready, and will be sent free, with a testimonial circular, presenting a great mass of evidence as to the superiority of these instruments, to any one sending his address to the MASON & HAMLIN ORGAN CO., 154 Tremont Street, Boston, or 596 Broadway, New York. 4w
