

# THE POST.

MIDDLEBURG, NOVEMBER 3, 1870.

## TOWN AND COUNTRY.

The first snow of the season fell at Lewiston, Maine, on Sunday night.

PROF. DAVENPORT, who promised an entertainment in the Court House last Saturday evening failed to make his appearance.

The *Vicksburg* printing establishment has been moved back to this place and the paper is now issued by the editors of the *Tribe*.

J. WILSON SHAFFER, Governor of Utah, died Monday morning of consumption. Mr. Shaffer was formerly a citizen of Lewisburg, Union county.

GOVERNOR GEARY has issued his customary proclamation recommending Thursday, November 24th, as a day of general thanksgiving throughout the Commonwealth. This is the same day fixed by the President.

The bogus money scamps of New York city are sending letters to persons in the country, offering to furnish counterfeit currency at very cheap rates. Somebody will get themselves into a trap before they are aware of it.

A. A. HAYES, M. D., State Assayer of Massachusetts pronounces Hall's Sicilian Hair Renewer an efficient preparation for cleansing the skin of the head, promoting the growth, and restoring the original color of the hair when it has become gray.

**NEW STORE**—A store has been opened at Paxtonville, (Beaver Furnace) by Swindell & Stindell of this place. The store room has been fitted up in good style and is filled with a large assortment of well-selected goods of the latest styles. The proprietors promise to sell goods at prices which defy competition.

Who is that man up town that never says, drinks a quart of whiskey every day in the week and tries to pass off for a sober man? —Tobacco.

In answer to the above inquiry we would volunteer the following answer: The *Senior Editor* (1/4) of the *Tribe* lives in the upper end of town and he must be the man or his red snout wickedly tells him.

C. NUTT, D. D., President Indiana State University, says: "Our Father's House," is a most useful, instructive and entertaining work. We most heartily recommend it. "Night Scenes," has met with unprecedented popular favor. We predict for this volume still increased popularity, and a still greater demand. See advertisement.

**IN JAIL**—James Bingaman, of Beaver township, was arrested this morning and lodged in jail charged with stealing a watch the property of Henry Heim, a laborer on the S. & L. R. R. The stolen property was found in the possession of the prisoner. This same Bingaman was arrested in Union county about a year ago for stealing clay-coated, &c., but was let off at that time with little or no punishment.

**THE LITTLE CONFIDENTIAL MAGAZINE** for November is a beautiful number of a most beautiful juvenile—good enough for the most exacting. Since its enlargement and improvement, and the addition of fine full page and other engravings, THE LITTLE CONFIDENTIAL is worthy of a circulation of at least a hundred thousand. The remaining numbers of 1870 are offered free to all who subscribe now for the next year juvenile magazine. It is published in Chicago, Illinois, by Sewell & Miller, at one dollar and a half a year, 15 cents for a single copy. Beautiful and generous premiums are given for clubs.

**A THRUST IN THE DARK**—The acute fellow who writes about our "bustinesses" proves by his shabby article that he is a blunderer, block-head, and more stupid than a "Donkey." The "thrust in the dark" consisted in saying that somebody slandered a defenceless young woman and indulged in indecent and obscene language. How does it become a "thrust" at you Mr. —? Innocent parties don't generally howl. How about that boasted qualification? The same acute fellow who "knows of no one outside of the Ring," slandering anybody, utters in the same sentence a villainous slander—bearing its own evidence of villainy on its face, but it is characteristic of the stupid "A's."

COL. A. C. SIMPSON, President of the S. & L. Railroad was visited on Tuesday last, by the following named gentlemen, from Philadelphia and Reading, representing the Pennsylvania Railroad Company. Iron manufacturers of the eastern part of the State, and several of the most popular journals of Pennsylvania, viz: Gen. Wm. Painter, Hon. A. K. McClure, Judge Barrett, Col. R. D. Barclay of the Pa. R. R. Co.; Mr. Ecker, Reading; Frank Dunmore, J. H. T. Jackson, Iron manufacturers; Anderson of the *Inquirer*, Reed of the *Pres*, Warburton of the *Evening Telegraph*, Mullin of the *Bulletin*; A. J. Cresswell, Bridge Contractor; John A. McGovern, Railroad Contractor, accompanied by Major John Cummings, Dr. B. F. Wagner, seller and Samuel Allman, Esq., of our county. The party made a tour along the route of our Railroad, and visited the ore regions near Beaver Furnace. The railroad men expressed high hopes for the success of the road; the iron men praised the vastness and richness of our iron ore, and the Knights of the Quill praised, and were well pleased with everything, as the usual custom with those genial, whole-souled men. It is seldom our county is visited (in a body) by such a large number of talented, progressive men, whose efforts have contributed, largely, to the development of the vast resources of the iron State; whose well-directed efforts have completed a perfect net-work of Railroads throughout the Commonwealth, and forged the link in the great chain which connects the Pacific with the

Atlantic. The efforts of those titanic men of the press to elevate the standard of intelligence, edify and instruct the people, and their influence upon civilization is felt throughout the known world. To such men we owe our greatness. We have neither time nor space to point out the respective interest the above-named men have or may have in our half finished railroad project and the construction of iron manufacturers in our county. Our energetic President may well feel proud of such valuable auxiliaries.
