THE POST.

MIDDLEBURG,.....NOVEMBER 17, 1870.

TOWN AND COUNTRY.

THE furnace at Freedom Iron Works is to be put in blast on the 1st proximo.

AN unsuccessful attempt was made last night to break into the dwelling house of Mrs. Stablnecker, at the upper end of town.

HOW much better it would be for boys to be storing up useful knowledge at home these evenings, than running the streets, learning evil habits.

THE Thirteenth Annual Session of the Snyder County Teachers' Institute will convene in Boyer's Hall Freeburg, at 10 o'clock a. m., Tuesday, December, 27th next, and remain in sess on five days

AN episode of winter intruded itself, Saturday morning, upon the poesy of our Indian summer. The ground was whitened with compact kernals of rounded snow—the first fall of the season. The sky was heavy and leaden, and the air had a regular polar character.

A CHICKEN HAWK in passing over E. A. Steininger's farm, in Franklin township, yesterday, dropped a duck which he was attempting to carry off Some men seeing the duck fall caught it and fastened it on a spring trap, and then retired. In a short time the hawk made a dive for his fallen booty and was caught by the trap. It measured 4 feet 6 inches between the tips of its wings

BEING storm-staid a few days ago, we were compelled to remain with our worthy friend and host Enoch Smith, the proprietor of the new and only hotel in Fremont, known as the "Fremont Hotel," who, by the way, is a clever Landlord, and spares no pains to make the stay of his guests agreeable and comfortable. His table is always provided of the best luxuries of the season, and his charges are so moderate that we were reminded of the "good old times." The traveling public will find the Fremont Hotel a good stopping place.

Rev. B. B. Hotchkin, Pastor of the Marple Presbyterian Church Philadelphia, in speaking of "Our Father's House," says: The theme for the man, and the man for the theme. Dr. March has an unusually felicitous taste for selecting that which is intrinsically of high interest. I am impressed with this as I walk with him through "Our Father's House," and note the objects to which he calls my attention, and I much indebted to him for placing me of en in new angles of observation, which disclose in those objects beauties not before discovered, and reveal in the Father himself some glories hitherto unthought of. The wide appreciation bestowed on his former book renders it pretty much superfluous to hope that this will be read by many thousands.

HOW NOT TO DO IT.—If any town or borough desires to remain in a state of masterly inactivity or rural repose, the following directions if followed are warranted to insure success

Let property owners refuse to dispose of lots except at very high rates, as such a policy is always sure to attract a rapid influx of population. If it is proposed to run a railroad through the suburbs let those who own the lots ask sufficient to deflect it a mile or two, as it is much cheaper to ride that distance in a hack than to step from the pavement to the platform. If a company propose to establish a factory of some kind, let Mr. Fossil whose land is peculiarly adapted to their wants, make a good thing out of their necessities, as he cannot afford to make any sacrifice in behalf of any enterprise which in a few years will double or treble the value of his remaining property. If he be asked to assist with his capital in establishing it, let him shrug his shoulders and say "no funds to spare just now." but fairly smother it with regrets, good wishes and assurances of success. Having thus excused himself he can walk away Whistling as kance.

"I cannot loan you my bellows
But you may sit by my fire and blow."

while visions of town lots and new houses float before his excited imagination.

It is proposed to erect a building for an Academy or High School, let each one begin by admitting that it is a praise-worthy enterprise and ought to be encouraged. Each one can safely promise he will give *so much* provided his neighbor will give a specified amount, but let all be sure not to give such an amount as will create the least probability that the enterprise can succeed. They will thus obtain credit for the will if not for the deed; if this be not self justification sufficient, let each one enter into a minute investigation of the financial ability of the others, the relative size of their families, the number of children, grandchildren, &c., who will probably enjoy the benefits of the institution should it succeed. By this means justice will be done whether the Academy be built or not. It would be well also to keep before the people all the objections which can be urged against such institutions—their frequent failures &c., not the fact that they do not pay cash dividends as one might be misunderstood. Such a course will be sure to give some neighboring town a flourishing shool—the culture and social elevation which such an institution confers—it will also divert to it a very desirable class of population; for sensible and well-to-do people generally gravitate toward towns which possess facilities for the education of their children. Such a course is perfectly rational, for experience has shown that it is fifty per cent cheaper financially, and one hundred per cent better morally, to educate children abroad than at home. If the people cannot send abroad to enjoy these advantages, let them establish a Town Council pass an ordinance requiring the sidewalks to be paved let it meet with a vigorous and determined opposition, as it is rank injustice to require one man to furnish his neighbor with a good walk just because his neighbor furnishes him with one in return; unpaved sidewalks are specially desirable during the muddy season; beside the destruction of the pasturage which attracts the "lowing herd" during summer, would do much toward destroying the rural aspect they have been accustomed to wear.

"Caret sua unusquisque
Occupet extremum scabies"

If a Town Council pass an ordinance requiring the sidewalks to be paved let it meet with a vigorous and determined opposition, as it is rank injustice to require one man to furnish his neighbor with a good walk just because his neighbor furnishes him with one in return; unpaved sidewalks are specially desirable during the muddy season; beside the destruction of the pasturage which attracts the "lowing herd" during summer, would do much toward destroying the rural aspect they have been accustomed to wear.

When vicious youngsters indulge their bump of destructiveness in the destruction or defacement of property, or house-breakers begin to ply their trade, if one or two citizens are generous enough to act as special police, do not refuse them the privilege, but do not think of increasing the borough tax to secure such protection. It is better that a few should suffer than that the whole corporation should be burdened. Besides each one can thus keep up a constant state of anxiety in wondering who will be the next victim and in hoping that victim will not be himself. Such a state of society has been in all ages and all countries highly conducive to the prosperity and happiness of the people.

Lastly, do not encourage Building or Saving Fund Associations as converting tenants into free holders does not conduce to the solid and permanent prosperity of a town nor does an opportunity to invest profitably a dollar or two a week particularly encourage industry or economy Let the mass live in rented houses and spend they earn, they will thus be well prepared for "dull times," sickness or any of the trials which befall the laboring classes. These rules if properly followed are guaranteed not to fail in a single case—they have been tested often enough to make them of universal application —*Miltonian.*

DURING the night of the 22nd last, the money drawer in Enoch Smith's hotel was broken open and all the money, amounting to about nine dollars, extracted therefrom. On going to the drawer in the morning it was found open as well as the front door of the hotel. The door had been locked on the inside and could not have been opened from the outside; and there being a number of guests in the house over night, a proposition was made to search the party. This was willingly assented to by all save one, and before the search was made he took his departure. Up to this time the guilty party has not been detected.

THE UNWRITTEN WORD.
By DANIEL MARCH, D. D. author of the popular "Night Scenes." This theme in thought and language more than worthy of the Great Master, being of fields, waving palms, flowing clouds, Beautiful how, Rugged mountains, Beautiful rivers, Mighty oceans, Pleasing valleys, Blazing heavens and vast universe with countless beings in millions of worlds, and reads to us in each the Unwritten Word. Rare tinted paper, ornate engravings and superb binding—"Rich and varied in thought"—"taste"—"Easy and graceful in style"—"correct, pure elevating in its tendency"—"Beautiful and good"—"A boy elegant treasure"—Commendations like the above from College Presidents and Professors, ministers of all denominations and the religious and secular press all over the country. Its freshness, purity of language, with clear, open type, fine steel engravings, substantial binding, and low price make it the book for the masses. Agents are selling from 5 to 150 per week.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects
WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors that stimulate and intoxicate to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the victim on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair. They are a gentle Purgative as well as a Tonic, possessing the power of exciting the inactive organs into healthy action, thereby removing the cause of disease, and the patient recovers health.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the turn of life, these Bitters have no equal. For inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters are without equal. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION.
Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them unequaled in their action upon the various organs of the body, in restoring a healthy action, where disease exists.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.
PIN, TAPE and other WORMS, lodging in the human system, may be effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages.
