

TOWN AND COUNTRY.

Blackberry gathers report lots of snakes on Shade mountains but few berries.

Two days have commenced shortening and long evenings will soon be upon us.

You are safe by dealing at Oak Hall, for one of Wasmaker & Brown's fundamental principles is "no misrepresentations."

Hall's Vegetable Sicilian Hair Renewer is a preparation of great merit, and is rapidly displacing all other for the hair.

Our Selingsgrove grain merchants pay ten cents per bushel more for new wheat than for old.

A more, one dwelling, and six stables were destroyed by fire in Lewistown on Saturday night, 1st inst.

The best crop of wheat grown in this county for a number of years was harvested this summer.

If you want to make bargains don't forget to attend the auction at Stablesacker's Hotel next Saturday. A fine lot of Dry Goods, Notions, &c., will be sold.

A furious storm of wind, accompanied by heavy rain, swept over this county last Sunday afternoon. A large number of fruit and other trees were uprooted, fences blown down, and considerable damage done to fields of corn.

Struck by lightning.—During the thunder-storm on Sunday morning last a barn-burning to Adam Gottlieb, in Monroe township, was struck by lightning and entirely consumed. Insurance only \$300.

The New Lutheran church, above Haslinger's in Franklin township, is being pushed forward toward completion as rapidly as possible, and when finished will be a handsome, substantial and comfortable structure. It is a brick building, two stories high; 36 feet wide and 53 feet in length.

The Traveling circuit of the Evangelical Association will hold a campmeeting in Mr. John Lower's grove, in Decester township, Mifflin Co., about three miles west of Banererville, to commence on the 10th of August. All who will conduct themselves becoming such a place are invited to attend.

S. AGRAND, Pastor.

The Howe.—The Howe Family Sewing Machine seems to be all the go. All who use it speak of it in the highest terms of commendation. We have been informed by Mr. Wines, the agent for Snyder county, that he is selling them rapidly. He guarantees satisfaction in all cases, and takes great pains in giving the best instructions. Parties who want a good machine will save time and expense by buying The Howe, for they can rest assured that it is not surpassed by any machine in the market.

Another Offer.—Mr. David Meiser, of Middlebrook township, will convey in fee simple to any responsible party, Fifteen Acres of Land, located near Smithgrove, on the line of the S. & L. Railroad, Snyder county Pa., who will erect thereon a first class Anthracite Furnace. The place is well suited for the manufacture of iron and there is any amount of the best ore in the immediate vicinity. Coal is convenient, and limestone in abundance close at hand.

Unpatented Lands.

For the information of owners of unpatented tracts of land, we publish the following instructions. In order to save additional expense, the necessity of making payment of liens due the Commonwealth, and applying for patents, is urged upon all who may be interested:

SURVEYOR GENERAL'S OFFICE, Harrisburg Penna., June 28, '71.

SPECIAL MEETING OF THE BOARD OF PROPERTY.

Present.—F. Carroll Brewster, Attorney General, Fr. Jordan, Secretary of the Commonwealth, J. M. Campbell, Surveyor General.

The following Act of Assembly was read:

A Further Supplement

To an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, That the Board of Property shall have full and discretionary power as to the time of entering suits, and as to the number thereof, to be brought for the enforcement of liens against unpatented lands, and that the Attorney General shall provide, and the seventh section of said act, which this is a further supplement thereto, be authorized to do so by the said Board, that no interest shall be charged on patent or other fees.

JAMES H. WEBB, Speaker of the Senate.

WILLIAM A. WALLACE, Speaker of the Senate.

Approved—The fifth day of May, Anno Domini one thousand eight hundred and sixty-one.

JOHN W. GEARY, Surveyor General.

The Surveyor General stated to the Board that there was a very considerable amount in the payment on account of unpatented lands; whereas on the Board, taking into consideration the foregoing Act of Assembly and the duties enjoined upon them, directed that the Surveyor General furnish the warrants and other data to the Attorney General for cases in several counties, to be proceeded upon by him under the foregoing act, after the 1st day of December, 1871, should payment of the arrearages have been made before that time.

The Surveyor General is requested to send a copy of these proceedings by circular letter, to the County Surveyors and for their information.

When will the Snyder County Fair be held?

We learn that the potato bug is making sad havoc among the potatoes in some parts of this county.

The Union County Agricultural Fair will be held on Wednesday, Thursday and Friday, October 4th, 5th and 6th.

On Tuesday of last week the Watson-town Record office was sold at Sheriff's sale to Mr. John J. Anton, of Sunbury, for \$480.

Last week William Yarger, a wretch of Beaver township, was again lodged in jail in this place. This step was deemed necessary as he frequently had spells of insanity, at which times the lives and property of his neighbors were in danger. He will be sent to a Lunatic Asylum as soon as the arrangements can be made.

ANOTHER BRIDGE.—Just before the close of the last session of the Legislature a bill was run through by "our member" authorizing the Commissioners of this county to erect a new bridge over Middlebrook, near George Dreese's, in Decester township, and these gentlemen will meet at the house of Moses Specht, in Decester, on the 22d inst., for the purpose of receiving proposals for the erection of the same. The new bridge is to be 95 feet in length, two spans, a good foot, and will cost, probably, not less than \$4,000.

AFTER THE POTATO BUGS.—Packs are said to be of good service in exterminating the potato bug. A gentleman of Piqua, Ohio, put a pair of Mosey's into his potato patch, which was literally swarming with bugs. The ducks ate the bugs with such avidity that the latter were soon exterminated, and the patch has not since been troubled with them. The ducks did not appear to suffer any ill effects from eating the bugs, and were not slow in "taking in" all they could discover. The duck remedy is certainly worthy of attention.

From the Millburg Telegraph, we take the following: Oscar Smith, of this place, met with a severe accident on Friday evening. When in the vicinity of the Steam Flouring Mill of Messrs. Young, Barber & Co., at Fourth and Mill Streets, his horse became unmanageable when Mr. Smith sprang out of the buggy and in so doing broke his leg. The horse ran away but inflicted no further than was sustained by the buggy, which was somewhat shattered.—A little girl about four years of age, daughter of Mr. Waller of Limestone, was out all night on Tuesday last week, in a wheat field, having wandered away after the parents thought she had retired. The whole night was spent in search of the lost child. She was discovered in the morning, not far from the house, having heard their calls and timely remained in her seclusion, where she fell asleep and remained until morning, apparently none the worse for her cool night's lodging.

LANDMARKS.—It is a wise precaution for every land owner to have all his boundaries well and permanently fixed, as the neglect to do so, frequently causes ill will and wrangling among the neighbors, where harmony and kind feelings are so indispensable to their happiness. Boundaries can be easily adjusted now, that after a few years more may become difficult to settle. The experienced surveyor can generally adjust the lines to the satisfaction of all parties unless they are very unreasonable. Parents having land intended for their children, may save them much trouble by fixing permanent boundaries at every corner. The Americans are said to be a land-loving people, and there is no subject which ceases more bitterness of feeling, than controversies about land. Put up your boundaries to your lifetime, and do not leave it for those who follow you, thereby endangering the probability of expensive law suits and a world of trouble.

CAREER OF A STOLEN COUNTERFEITER.—As concerning some new and very interesting facts connected with the life of Lewis Roberts, formerly of Harrisburg, the famous dealer in counterfeit money, we reproduce the following from the Williamsport Sun of last week:

Among the cases brought before his honor Judge McCandles of the United States court, and disposed of last week, was that of Lewis M. Roberts, a notorious dealer in counterfeit money. We have gained the following sketch from the officer who made the arrest.

Lewis M. Roberts, alias "Bob," alias John B. Altie, was born in Thompson's, Juniata county, this State, and has the reputation of being the most successful counterfeit maker in the United States. He has been engaged in the business thirteen years. His field of operation has been principally through Pennsylvania, Virginia and Ohio. It is said that he sold upwards of seven million of dollars of counterfeit money since he began his career.

He informed the officer that he generally started from Philadelphia, where it is supposed the "stuff" is made, with \$50,000 the first of each month, and disposed of it before he returned to his regular customers, some of whom are leading merchants and looked upon as very respectable and honorable men. The officer has the names of about one hundred of his customers and we await some rich developments. During his career he was arrested twice, but each time succeeded in buying the officials and keeping out of the clutches of the law. The last time he was arrested was in Pittsburgh, where he bought his freedom by bringing a certain alderman, to whom he paid the sum of \$1,200, and gave him his valuable gold watch. On the 23rd day of April last his career was brought to a close, for a while at least, by Officer Benson, of the secret service division of the Treasury department, who arrested him on Franklin square, Philadelphia. The officer, speaks of Roberts as a very firm and temperate man in all his habits. He never uses intoxicating liquors of any kind, neither does he use tobacco in any form, but retains all his mental faculties unimpaired. He is reported to be worth \$100,000. He received his sentence calmly, which is twenty years at hard labor in the western penitentiary, and a fine of \$10,000 and costs of prosecution. He joyously remarked that he "didn't care for the fine but the twenty years was what he hated." Roberts has been ordered his freedom if he would re-

veal the names and whereabouts of the gang of which he was the successful agent, but he persistently refused, saying he would rather suffer fifty years in prison than betray his friends.

To Nebraska, Indiana, and Kansas, and the S. & M. R. Lands.

The "Burlington Route," so called, lies right in the path of the Star of Empire. It runs almost immediately in the center of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri River at three points.

These three points are the gateways into three great sections of the trans-Missouri region.

The Northern gate is Omaha where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The Middle gate is Plattsmouth, which opens upon the South half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which Geo. S. Harris' the land officer at Burlington, Iowa, can give you all information and in the heart of them is Lincoln, the State Capital and Present Terminus of the road.

The Southern gate leads to Kansas by connections with the St. Joe Road at Hannburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely and make full connections, it runs the best of coaches, Pullman Palace and Pullman dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price.

SELENGROVE MARKETS. Corrected Weekly by Wagenseil & Son.

Table with 2 columns: Item and Price. Includes Wheat, Corn, Rye, Oats, Timothy seed, Clover seed, Chickens, etc.

HOLLIDAYSBURG SEMINARY, HOLLIDAYSBURG PA.

Dr. Crook's WINE OF TAR. ESTABLISHED 1852.

A Remedy which has been tested for 10 years, and proved to thousands of cases capable of curing all Diseases of the Throat and Lungs, performing many remarkable cures.

For Coughs and Colds.—The Druggists say it cures them all.

For Rheumatism.—The relief and cures are marvellous. Bronchitis.—Every sufferer will find relief and cure.

For Liver Complaint.—Most effective regulator of the system. Its healthy action on the stomach cures it.

For Debility.—It is health giving and appetizing. For Urinary Organs.—Action on them is marked and sure.

DR. CROOK'S WINE OF TAR is rich in medicinal qualities of Tar, combined with the valuable ingredients of iron, quinine, and other elements, which make it unsurpassed, not only for the exhausted strength, but it rapidly restores the Liver and puts them to work, causes the blood to be purified, and makes pure blood, and if you are afflicted in any way, we know from our long experience, that you will find Crook's Wine of Tar, you will find your health restored to its former vigor.

For Scrophulous Tumors, Scrophulous Discharge of the Eye, or of the Nose, or of the Throat, or of the Skin, or of the Lungs, or of the Liver, or of the Stomach, or of the Bowels, or of the Bladder, or of the Uterus, or of the Vagina, or of the Prostate, or of the Testes, or of the Seminal Vesicles, or of the Epididymis, or of the Spermatic Cord, or of the Penis, or of the Scrotum, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the Stomach, or of the Duodenum, or of the Pancreas, or of the Gall Bladder, or of the Biliary Ducts, or of the Liver, or of the Spleen, or of the Kidneys, or of the Uterus, or of the Ovaries, or of the Fallopian Tubes, or of the Cervix Uteri, or of the Vagina, or of the Perineum, or of the Rectum, or of the Sigmoid Flexure, or of the Colon, or of the Small Intestine, or of the
