## How to Bore Boles in Glass.

Any hard steel tool will cut glass with great facility when kept freely wet with comp his dissolvud in turpen time. A drill how may be used, or even the hand alone. A hole bored may be readily enlarged by a round file. The ragged edges of glass vessels may also be thus smoothed with a flat file. Flat window glass can readily be sawed by a watch spring saw by the aid of this solution. In short, the most brital glass can be wrought almost as easily as mettal by the use of cutting tools kept constantly moist with camphorized oil of turpentine.

OFFENSIVE BREATH --- From six to OFFENSIVE BREATH -- From six to Ten Judges gave the Singer the Diplom ten drops of the concentrated solu- at the Snyder County Fair. [8-41] tion of chloride of soda, in a wine glassful of pure spring water, taken immediately after the ablutions of the morning are completed, will sweeten ach, which, far from being injured, will be benefitted by the medicine. It with a tenspoonfull of the solution of the chloride in a sumbler of water, the bad odor of the teeth will be remov-num; \$2.00 for six menths; \$1.00 for six menths; \$1.00 for trainwerker and the solution of the teeth will be removed.- Exchange.

MANY a child goes astray, not be cause there was want of prayer or virtue at home, but simply because One copy one year virtue at home, but simply because home lacks of sunshine. A child needs smiles as well as flowers need sun-beams. Children look little beyond the present moment. If a thing pleazes, they are apt to seek it; if it displeases they are prone to avoid it. if home is the place where faces are four opies, to one address, and one copy to the getter up of the club if home is the place where faces are sour, and words harsh, and fault-find- Twenty copies, to one address, and one sour, and words harsh, and hult-find-is ever in the ascendent, they will spend as many hours as possible else-where. Let every father and mother, then, talk to their children in such a way as to make them happy. Any metalic substance may be

firmly attached to glass or porcelain with a coment made by mixing two ounces of a thick solution of glue with ounces of a thick solution of give with one ounce of linseed oil, varnish, or three-fourths of an ounce of Venice turpentine, boiling them until they are thoroughly mixed. The pisces comented, in order to make them ad-here permanently, should be kept tied together for two or three days.
