

TOWN AND COUNTRY.

HARRY GREY, a colored boy belonging to Selinsgrove, won the foot race at the fair.

Some valuable real estate is offered for sale in our advertising columns.

Cook books, when properly prepared, make excellent mattresses. Now is the time to secure them.

The train on the S. & L. R. R. will reach Middleburg and leave for Lewisport.

The officers of the State fair report that nearly 40,000 people attended the State Fair during the four days of its continuance.

George Hecox, of Juniata County, the other day, killed sixteen rattlesnakes as they were crawling in a log near his residence.

A young gourmand by the name of Campbell ate one pound and two ounces of gum drops in a Milton confanatory the other evening inside of thirty minutes.

The end of the world is now definitely fixed for 1885. We shall have a chance to enjoy the centennial celebration of American Independence before that time.

The Lewisburg Lumber Manufacturing Company, Lewisburg, Union county, was awarded a bronze medal for exhibition of school desks at the State Fair.

At the Sunbury Fair the Selinsgrove Band took the first premium and the Freeburg band the second. Bally for Snyder county.

Advice to our Readers—patronize Wansmaker & Brown's Oak Hall.

The borough fathers of Lewisburg have found it necessary to appoint Jackson McFadden a policeman to keep a watchful eye on the law-breakers and roughs which infest the place.

Parson's Purgative Pills will greatly relieve, if not entirely cure, dyspepsia when everything else fails. They have been tried in desperate cases, and have given more relief than any other medicine.

Another exciting election campaign is over and we are heartily glad of it, as we can now give news that will be more acceptable to the general reader than politics.

Sam Turner. Our neighbor Samuel B. Smith brought a turpentine tree which weighed five pounds. He considers this a pretty good record and would like to know who can beat it.

Among the largest corn growers in this State is Wm. Cameron, Esq., of Union County, who has 670 acres in corn on his different farms, that will average 120 bushels of ears to the acre, making 87,200 bushels.

Head-quarters of the clothing trade—W. & B. Oak Hall 6th & Market.

The great fire is the subject of conversation everywhere. Since the close of the war nothing has so worked on the feelings of our people as the heart sickening news of the terrible calamity that befell Chicago last week.

Excitation for or against changing the place of holding the election in Monroe township was held during the summer, and the people by a vote decided in favor of holding the elections at Shamokin Dam school house.

Fischer, the leader of the Selinsgrove Band is at present in this place giving instructions to our band. If Fischer can't teach the Middleburg boys how to bring music out of horns it will be no fault of his, for as a teacher of band music, he has few superiors.

Mr. Gowan, President of the Reading Railroad, receives an annual salary of \$30,000. No other railroad President in the country receives as much. That is \$2,500 a month, \$625 a week or nearly \$93 a day with economy it is thought he can manage to squeeze along. Poor fellow.

Many valuable horses die from the effects of colic. The best thing to do in a case of this kind is to pour a bottle of Johnson's Absorbent Lintiment into a long-necked junk bottle, add half pint of molasses and water, then pour the whole down the horse's throat. In ten minutes the horse will be fit to rest.

This statement going the rounds of the Press that a late law of the State requires dealers to furnish 2,240 pounds of coal for a ton instead of 2,000 pounds, is not correct. A local law to that effect applicable to Philadelphia only was enacted at the late session of the legislature, and has not yet risen to the misapprehension.

The Largest in America—Wanamaker & Brown's Clothing House.

Dr. J. W. M. and PARADE.—The Old-Fellow Hall at Selinsgrove will be dedicated next Thursday, 19th inst., at which time there will be a grand parade by the order.

Lodges from neighboring counties will be present, and addresses delivered by P. G. S., James B. Nickelson and D. G. M., W. H. Mendenhall. The public are cordially invited to be present.

Following is a list of the counterfeit bank notes which are said to be freely circulated: Twenty dollar bills on the First National Bank of Boston, Massachusetts; \$20 on the Fourth National Bank of Philadelphia; \$20 on the Fourth National Bank of Indianapolis; \$5 on the People's National Bank of Michigan; \$10 on the Farmers' and Mechanics' Bank of Poughkeepsie; \$10 on the Albany City National Bank; \$10 and \$2 on the Winchester County National Bank. There are a number of well executed counterfeit notes on the National Union Bank, Lindbergh Bank, the Ohio State Bank and Central Bank.

John A. Taylor, of Northumberland, was riding to Sunbury on a hand car, on Friday morning Sept. 22, when it was struck by the locomotive of freight train, and he was badly injured. It was necessary to amputate his right arm below the elbow. The morning was very foggy, which accounts for the accident. None of the others were injured.

On last Thursday afternoon, a locomotive attached to a passenger car ran into a construction train on the Pennsylvania railroad at Millerstown, Perry county, and the fireman of the engine—Mr. Fisher, of Altoona—sustained injuries that resulted in his death at five o'clock in the evening, while Mr. Chant, engineer, also of Altoona was also seriously cut about the head and breast.

A child of Frank Gardner, of Turbotville, aged about fifteen months, was scalded to death on Friday last, under the following circumstances. The child's mother had been boiling clothes in a kettle for a moment, while she put the clothes away, when the little child came along, and in playing around the kettle fell in. It was so badly scalded before it could be rescued that death ensued in the course of three hours.—Milan.

Notice.—Each Sabbath School Superintendent is requested to inform the undersigned on or before the 21st inst., how many delegates they will send to the convention at this place, on the 27th and 28th, so that arrangements can be made to entertain them. Any school failing to give the above requested information cannot expect to have its delegates provided for with free lodgings.

REV. S. P. DAVIS, Vice Pres. Middleburg Oct 11th 1871.

FREDERICK WEINE, of Union township, a man aged probably 70 years, in company with others was coming up the canal in a flat to the fair on Tuesday morning. Below the Aqueduct he said he felt bad and would go back. He was put on shore and started back. Soon after it began to rain and the rest of the party on the boat decided to go back too, and before proceeding they found Mr. Weine lying in the road dead.—Times.

ON Friday afternoon the freight depot at Muncy Station on the P. & E. railroad was totally consumed by fire, occasioned by sparks from the 1:50 express. The flames had made considerable progress before discovered—the first notice being by a farmer living nearly half a mile below the depot, who saw the smoke and hastened to the scene. A box car was also burned with its contents of goods, &c., not yet unaltered. The loss will probably reach \$20,000, and the Catawissa had probably goods to the amount of \$2,500 in the depot.

SPANISH and bright, witty and wise, instructive and interesting, is "Billion's Magazine" for November. It has a splended tale of adventure in China, quite a number of illustrated articles and several excellent stories, the whole making the contents of this popular magazine more solect and interesting than any other serial in this country. It is brimful of information, and just what is wanted in the family circle. Published by Thomas & Talbot, 63 Congress Street, Boston and we would remind our readers that now is the time to think of getting up clubs for this popular magazine.

WEEK'S HOUSEHOLD MAGAZINE—"Onward, right onward" seems to be the aim of the publishers. We thought it impossible to exceed the September number, but October, with its list of famous contributors and its valuable reading, is a perfect gem, and we cannot understand how so much real work and merit, from such popular writers as Greeley, Parton, Beecher, Gail, Hamilton, etc., can be furnished for only ONE DOLLAR a year. The magazine is steadily increasing in public favor, and we predict for it a brilliant future, for people are not slow in bestowing their patronage where they can obtain the most money. Specimen copies furnished free. Published by S. S. WOOD & Co., N. Y.

TWO LIVES LOST.—A distressing catastrophe occurred at Adamsburg on or about the 6th inst., resulting in the loss of two esteemed and valuable residents of Adamsburg, to the township of Beaver, Snyder county, Pa. The community deeply laments the sad occurrence, and especially and most particularly does our friend B. L. Rausenbush mourn over and bewail the irreparable loss he has sustained in the sudden and unforeseen death of his two favorite sons. The down train ran over the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The Middle gate is Plattsmouth, which opens upon the South half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which Geo. S. Harvis is the land officer at Burlington, Iowa, can give you all information and in the heart of them is Lincoln, the State Capital and Present Terminus of the road.

The Southern gate leads to Kansas by connections with the St. Joe Road at Hanburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely and make all connections, it runs the best of coaches, Pullman Palace and Pullman dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find a better than among the B. & M. lands, where you can buy on ten years' credit.

The gentleman most noted for wealth in New York, are becoming somewhat conspicuous figures. William B. Astor is 78; A. T. Stewart, 79; Vanderbilt, 78; Daniel Drew, 71; Peter Cooper, 81; George Law, 73; William Cullen Bryant, 77; and James Gordon Bennett, 75. All except the last are still actively toiling in business harness.

An Illinois constable made a return on the back of a paper thus: "I expected this subpoena by trying to read it to John Mark, but he was driving cattle on horseback, and ran faster than I could, and kept on such a 'chollar' I don't know whether he heard, or not. This is the best I could do, and don't know who has the subpoena. My issuance according to law or not."

A term of the United States District Court held at Lowell, Mass., this morning. It has been decided that under the general act of the Bankrupt Act railroad contractors cannot be considered as merchants or traders by any fair and reasonable construction of the law, and that hence the directors of the Commercial Bank does not constitute the bankruptcy trustee.

The season of confinement in the woods and on the prairies of the West has returned, and thousands of square miles in Wisconsin, Minnesota, Dakota, and Michigan are now covered by the flames. Farmers have been driven from their homesteads, and lives are reported to have been lost. Who with cross-hammers in the spring and fire in the fall the busy settlers of the Far West have trouble enough to contend against.

The death now prevailing in the West has not been equalled within the past twenty five years. All the Central and Southern Illinois wells and small streams are completely dried up, and the inhabitants find great difficulty in obtaining sufficient water for the household and stock. The soil is so dry that ploughing is rendered impossible. The drought extends further north, and to Wisconsin.

The health of Queen Victoria, can be such anxiety in England, and some rumors are all that she is mentally afflicted to rage. How anybody could be mentally afflicted to do the work required of an English sovereign is hard to see. The English Republicans are anxious for the accession of Albert Edward, hoping that he will be too much for the hottering monarchial system. But the steady going Englishman will probably sustain the throne, even with Albert Edward on it.

WASHINGTON D. C. Oct. 9.—The court martial which recently tried Major H. G. for insubordination, sentenced him to hard labor in the penitentiary for ten years, and at the end of that time to serve until the entire amount of the sentence should be paid.

The latter would be equivalent to imprisonment for life, as no one supposed this requirement would be filled. The President to-day therefore disapproved this part of the finding, but approved of that which consigns him to the penitentiary at hard labor for ten years. The Secretary of War will to-day or to-morrow issue the formal order in the case, with the sentence.

SHEET IRON.—A PENNSYLVANIA industry.—Most of the sheet iron used in this country is manufactured in Pennsylvania, and is the product of the main plant State. It is a superior quality of sheet iron comes from England and is sold in this market for about the same price as the native iron. English iron pays a duty of three quarters of a cent per pound. Formerly all the common sheet iron was imported from England, but the quality of the American iron is so much better that it is used in preference.

The finest quality of sheet iron comes from Russia, no other nation having as yet succeeded in producing sheet iron with so fine a surface. Russian iron comes in sheets 4 feet 8 inches in length, by 2 feet 4 inches in width. Most of the Russia iron imported for this market is imported direct, through a small quantity comes through England. The importations amount to about 7,000 packages yearly, each package weighing 230 pounds. It is used almost entirely for making stoves and covering locomotive boilers. Russia iron pays a duty of 21 cents per pound.

In Georgia recently a white man and a colored woman, who had been married under a license duly issued by the Ordinary, were in a State court convicted of adultery and sentenced to imprisonment, on the ground that marriages between the white and black races are forbidden by a State statute, and are therefore illegal and void. They sued out a writ of habeas corpus, and had their case taken before Judge Erskine of the United States District Court, claiming that the law under which they had been convicted was in contravention of the first section of the Fourteenth Amendment, which provides that no State shall make or enforce any law which shall abridge the privileges or immunities of any citizen of the United States. Judge Erskine decided that the validity of the statute in question had not been affected by the adoption of the amendment, and that the pretended marriage of the parties was illegal, and their conviction just and proper under the law. According to this decision the marriage of a white man to a black woman is not a privilege or a right.

SELINSGROVE MARKETS. Corrected Weekly by Waggoner & Son.

Table with 4 columns: Item, Price, Item, Price. Includes Wheat, Corn, Oats, Beans, etc.

PAID FOR FLOUR, GRAIN, RAIL ROAD TIES, &c., &c., CHAPMAN, SNYDER COUNTY, PENNSYLVANIA.
