FATAL RAILROAD ACCIDENT.—James P. Bogar, aged 33 years, a citizen of Port Trevorton, this county while attempting to get on a moving freight train at Selinsgrove station last Saturday morning, missed his hold, fell on the track and two trains of cars passed over his body. Although frightfully mangled he lived nearly half an hour after the terrible accident, and was sensible to the last. His remains were taken to his home and buried at Wagoner's church. For many years Mr. Bogar was station agent and telegraph operator at Herndon and was considered one of the most obliging and careful men in the employ of the Company. He leaves a young wife and little daughter and many friends to mourn his loss.

The Sunbury and Lewistown Railroad First Through Passenger Train—Railroad Official—A Big Crowd and Gains Day at Selinsgrove—Bands of Music, &c.

Yesterday, Wednesday, according to previous arrangement, the first through passenger train passed over our now completed railroad, and was an occasion of great rejoicing. A large crowd of town and country people, male and female, collected at this station long before the train was due to see the sights. Black clouds loomed up from the western horizon and scattered the anxious lookers on in every direction for shelter from the pelting rain, but with the appearance of the train the clouds rolled away and opened up a bright day to the great delight of everybody. At 11 o'clock the first train consisting of engine and one passenger car, containing Gen. Painter, Secretary Jackson, Chief Engineer Brown, Judge Laffer, ex-Sheriff Specht and other nobles made its appearance followed by another train of three cars and a beautifully decorated engine, filled to overflowing with citizens of Lewistown, Adamsburg and Beaverstown, in charge of our esteemed conductor Morrison. The train proceeded, stopping at Meiser's and Smithgrove, at each adding new recruits until there was no room to stand comfortably.

The road is substantially constructed and its rapid and speedy completion is in a great measure due to the energy of CHIEF ENGINEER BROWN, Gen. Painter, Frank Dundore and others whose names we do not now recollect.

THE BIG BRIDGE across the Susquehanna is a masterpiece of mechanism and reflects credit upon the builder A. J. Crieswell.

RECKED FALMERS'S Silver Cornet Band of Lewistown accompanied the party and discoursed excellent music.

STETTLER'S Brass band of Middleburg also put in an appearance, and received a great deal of credit for its excellent music. Only organized a few weeks ago and having but a single week of instruction by that master musician Fieberer they have made remarkable progress—but Fieberer's pupils always progress rapidly.

SALINSGROVE turned out her elite to receive the party and made a demonstration worthy of that intelligent people, headed by FIEBERER'S SILVER CORNET BAND. It is useless for us to say any thing in commendation of this band. It has a celebrity wide as the State. Fieberer, by no means a Hercules, is the "biggest blower" to be found anywhere.

J. F. WALTER, proprietor of the Keystones, had made ample arrangements to accommodate the hungry and thirsty. The day passed pleasantly and all seemed to be well pleased.

Business men looked at it as the completion of a gigantic enterprise which is to open up a new metropolis of America and develop our vast mineral resources—it affords us local advantages of inestimable value, and sets us free to the world and the rest of mankind in general.

HATS WOONS.—In common with many others we have with a lively interest in the investigations which Dr. Ayer has been making to discover the causes of failure of the hair and to provide a remedy. His researches are said to have been much more thorough and exhaustive than any ever made before. The result is now before us under the name of Ayer's Hair Vigor. We have given it a trial, and with full satisfaction. Our gray hairs have disappeared, or resumed their original color; and a visible crop of soft, silken hair has started on a part of the scalp which was entirely bald. [Democrat, Abingdon, Va.]

NEW Publications Mrs. Henry Wood's New Book, "Dene Hollow," by the Author of "East Lynne." It is published by T. B. Peterson & Bro Philadelphia, from the author's manuscript, and advanced proof sheets, purchased by them from Mrs. Henry Wood, and is issued in America simultaneously with its publication in London. The story is one of absorbing interest—interest that would be unparadise to anticipate in its detail, and another copy will not be laid aside without eager perusal to the end; for the reader will be constantly led aside into new scenes and scenes with such enchanting views and scenery, that he never wearies of the path; there are so many new scenes among the minor actors, and such a magic influence thrown around all they say and do, that his interest never flags for a moment. The book is handsomely published, in clear, large print, on fine paper, which makes it a luxury to read. It is complete in one large octavo volume, bound in cloth, \$1.75, or in paper cover for \$1.50, and will be found for sale by all Booksellers or copies will be sent per mail, post paid to any one, on receipt of price.

STATE PRISON LITER, by one who has been there, showing the horrors of the old system and the advantages of the new. Written by a convict in a convict's cell. G. F. West, Cincinnati, Chicago, and 59 Murray street, New York. H. Hubbard, 720 Sanson street, Philadelphia. The question of the reformation of our criminal classes is certainly the question of the age, and we know of few books which in so short a space as that before us contain so many and so strikingly valuable suggestions. This is a book in which we get a narrative ripe with the practical experience of real life, in fact, as the title page says, "told of a convict by a convict, one in which the moral must be drawn from the story and is not offensively urged upon every susceptible opportunity." The story is a prominent merchant of a large western city, whose solitude in the prisoner's cell has awakened literary aptitudes which otherwise might have lain dormant. His graphic narrative discloses the worst scenes under the old discipline, the frankness of the old officials and the debauchery of the female wardens, the horrible whippings, cruelly inflicted upon the male prisoners, and the utter breakdown of a system of mere terrorism. Upon the other hand we are told how efficient are the ministrations of the new discipline, how efficient is the gentle but firm hand of a prudent warden.

The book is profusely illustrated, and we feel satisfied that all who have perused the copious extracts we have made from the work, written from a new standpoint, upon a subject of vital interest, will desire to possess the whole. The book will be sold by subscription only.

IT is said that if a puff of air were to be blown into a vein of an animal, death would instantaneously follow, because circulation would be stopped. The blood makes the entire circuit of the human body every seven minutes, and whenever this circulation is impeded or any of its channels are clogged by impurities which ought to be carried off, disease follows—fever or a disorder of liver or kidneys, or scrofula, or dyspepsia. To get at and remove the source of the trouble, use the alkaline and infallible blood purifier, Dr. Walker's California Vinegar Bitters.
