SAD.—Autumn, it is said by the poet, is the saddest season of the year, the leaves fall, the beauties of nature fade, the flowers, tipped by untimely frosts, wither and die; but the saddest, most heart-rending sight we ever witnessed, is a defeated candidate, a few days after election going around piling campaign bills.—Danville Mailbox.

All of which may be true, but nevertheless we would like to see about forty of "them fellows" who forgot all about printer's bills after the election. No charge for signing receipts.

DEMOCRAT'S MONTHLY MAGAZINE for December, like a staunch friend, is again at our side, with its overflowing measure of good tidings for Christmas, and abundant promises of even better for the future, which we promise will be well filled.

Does it benefit?—A few days ago, a lady from a neighboring village called at one of our stores and meeting the proprietor exclaimed with evident astonishment, "Why do you keep store yet? I thought you had gone out of business, for I haven't seen your advertisement in the paper for over a year now."

Have you a severe wrench or sprain? Have you rheumatism in any form? Have you stiff neck, or bunches caused by rheumatic pains? If so, Johnson's Anodyne Liniment, is a specific remedy, and is also the best pain killer in the world.

We often see large stocks of cattle which do not seem to thrive, and come at "spring poor," all for want of something to strengthen them in the right direction. On a dollar-worth of Sheridan's Cavalry Conditioner Powder, given to such stock occasionally during, would be worth more than an extra half ton of hay.

Four Evils.—Whoever habitually uses an alcoholic preparation as an aperitif, will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the paucity of digestion, and a doctor's bill. Dr. Walker's Vegetable Compound, the great Fooder of the Age, without ever stimulating the palate or irritating the stomach, imparts a healthful appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus instead of entailing four evils, confers four inestimable benefits.

It is said that if a puff of air were to be blown into a vein of an animal, death would instantly follow, because circulation would be stopped. The blood makes the entire circuit of the human body every seven minutes, and whenever this circulation is impeded or any of its channels are clogged by impurities which ought to be carried off, disease follows—fever or a disorder of liver or kidneys, or scurvy, or dyspepsia. To get at and remove the source of the difficulty, use the old and infallible blood purifier, Dr. Walker's California Vinegar Bitters.
