THE POST.

MIDDLEBURG.....FEBRUARY 8, 1872.

A Royal Race.

BY JAMES N'CARROLL.

Among the fine old kings that reign
Upon a simple wooden throne,
There's one with but a small domain,
But, mark you, it is all his own.

And though upon his rustic towers
No ancient standard waives its wing,
Thick, leafy banners flashed with flowers,
From all the fragrant casements swing.

And here, in royal homespun, how
His nut brown court at night and morn,
The bronzed Field Marshall of the Plough,
The Chancelor of Wheat and Corn,

The keeper of the Golden Stacks,
The mistress of the Milking Pail,
The bold nights of the Ringing Axe,
She Heralds of the Sounding Flail,

The Ladies of the New-Mown Hay,
The master of the Spade and Hoe,
The Minstrels of the Glorious Lay,
Last all the Sons of Freedom know.

And thus, while on the seasons roll,
He wins from the inspiring soil
The brawny arm and noble soul
That serve his county and his God.

KING KAMEHAMEHA is the name o the gentleman who rules the Sandwich Islands, and the independence of his possessions is formerly guaranteed by a triple treaty between the United States, Great Britain, and France. Unhappily his Highness has no children. The natural heir to the throne is Prince Bill. This person is famous for being a gentleman of "high cultivation," great natural abilities, the owner of large and well-administered estates, and a confirmed drunkard. Like the King, he is childless. Recently they turned him out of a theatre for disorderly conduct. It is not altogether certain that prince Bill will reach the throne, for it rests with the King to nominate a successor, and it is scarcely probable he will choose Bill. Failing him, there are several members of patrician families who might with propriety be selected, and one of these, a lady, is married to an American gentleman. Ardent British patriots predict that American diplomacy will take advantage of a disputed and doubtful succession to bring the island under the American flag. Every fruit that grows in the warmer parts of Asia finds a home in Honolulu; and many glorious Japanese flowers, waxen-leaved lilies of every hue, and delicate-textured ferns, have already been naturalized. The climate is delicious. Constitutional government flourishes. There are two Houses of Parliament, an Upper House of nobles, nominated for life by the King, and a Lower House of Representatives of the people. There are certain patrician families who enjoy social rank, but unless nominated or elected they are not legislators. The two chambers vote together on questions of importance. Foreigners have great influence, and the judges are all Americans or Germans, and are moulding the native institutions on the model of English law. In the amount raised by taxation the Kanakas, as the natives call themselves, may take place among the most civilized nations of the world; for the whole sum is £160,000 a year, or £1 13s. 4d. per head, a ratio only exceeded in England, France, the United States, and the Australian Colonies. Some of this is raised by a poll-tax, every man being forced to pay five dollars a year, of which two go for education, two for roads, and one for the general purposes of government. There is a property tax of one half per cent., and custom duties are now a large and increasing item. There is no fleet, and the army of one hundred men costs only £6,000 a year. As a corollary there is no national debt. In religion all Christian sects enjoy absolute equality; and the King, though nominally an Anglican, assists at the more important Catholic functions. But the open confession of Paganism is not tolerated. There are from 2,000 to 3,000 Chinese on the main island, who came over as laborers for the sugar plantations, and have settled down in Honolulu as shopkeepers. They are compelled to keep their joss-houses private. Among Christians the Catholics are said to be gaining ground. Their impressive ceremonial suits the fancy of the natives.

A PARLOR GAME.—It is called the Game of degrees, and is a little puzzling at first, and requires rapid thinking; but, like the writing of double acrostics, when the mind once gets waked up to it the practice grows easy, and you invent so many things that you can hardly stop. It is played all up and down the room; every one goes to work at once and gives out his puzzle like a conundrum. The idea is to find a word which by some trick of pronunciation or spelling can be extended into another word, or perhaps two, which represent the three degrees of comparison—positive, comparitive and superlative. Thus somebody says, "My positive is an evil habit, my comparative is better;" every one guesses, and the words turn out to be bet—better. Or, "My positive is always on top, my comparative is always fast, and my superlative is always successful—which on explanation turns out to be Dee(k)—Dexter—Dexterous.

LIGHTNING RODS.

The North American Lightning Rod Company
OF PHILADELPHIA,
Manufacture and put up their Celebrated
Copper Covered
LIGHTNING RODS,
at reasonable prices and in a manner
that cannot fail to give general satisfaction.
AGENTS OF THE COMPANY
have been in Snyder County every summer for several years past, and they are here now.
Those who want a good Rod, should not fail to consult with the Agents.

J. S. BURKHART,
Selinsgrove, Snyder Co., Penna
Keeps constantly on hand a large and well made assortment of Tin, Sheet-iron ware, Stoves, &c., &c.
He is Agent for the following named articles.
"THE MORNING GLORY."
Littlefield's Patent Improved Base
COAL STOVE.
In this pattern of THE MORNING GLORY, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast iron, so fitted as to be airtight, but can be made with sheet-iron ornamentation when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture, far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory, is quite different, making it more durable, and far less difficult to be repaired. The castings are of the highest order, fully equaling the finest castings made in this country.
Among the many ADVANTAGES in the use of the Morning Glory are the following:—1, Continuous Burning. 2, Quality of the Heat. 3, Ventilation through the stove. 4, Anti-Dust Stoves. 5, No Escape of Gas. 6, Economy of Fuel.

"THE BARLEY SHEAF"
Anti-Dust Air-Tight Cooking Stove, with Extended Fire-Box for Wood or Coal.
Patented May 10th, 1870.
We take pleasure in offering our customers and the Stove Trade, a New First-Class Cooking Stove, and would call particular attention to its many efficient and valuable improvements.
This Stove has been carefully tested for several months, and the results are proved to be highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply this season.
Many great improvements, giving full use of the hearth.
Ventilated flue in the oven, so arranged as to give more room in the upper part of the oven; a great convenience much needed.
The oven is nearly as wide at the top as at the hearth line, which not only increases the size, but will be recognized as a great advantage in baking.

DOTY'S CLOTHES WASHER.
The best, cheapest, and most popular Washing Machine ever inscribed.
It is easy to operate, sitting or standing; takes but little room; requires no gumming; finishes its work from 10 to 15 per cent. better; is durable, and convenient; and the only Washing Machine known that is liked the better the longer it is used.

THE UNIVERSAL CLOTHES WRINGER.
THE "GREAT FAMILY ECONOMIZER."
The terms of our Patent call our Machine a "Wringer." Years of experience prove it also to be a most excellent Washer.
When we reduce every invention for washing clothes to a principle they all consist of that of pressing and squeezing, and forcing the water through them; then removing the dirt. Most Washing Machines do it by rubbing. The Universal Wringer does it by pressing.

PETERSON & CARPENTER,
General Agents,
914 Chestnut Street, Philadelphia.
Seven—eleven years ago I purchased a Wheeler & Wilson Sewing Machine and have found it to outstand me many hundred dollars. I have used it in making clothing for my family, and in tailoring for others, and can say that it makes a much better stitch, and stands the wear and tear of constant running, better than the shuttle machines in market. So while, also, it would not recommend running on the N. & W., it is still a first-class machine, and I would not part with it for twice what I paid for it, could I not get another. THE SINGER
SEWING MACHINES!
AHEAD OF ALL OTHERS!
THREE THOUSAND PER WEEK ARE NOW BEING MADE AND SOLD!
THE REASONS WHY.
Because it embodies essential principles not found in any other Machine; because of its simplicity of construction, ease of operation, uniformity, of precise action at any speed, and capacity for the greatest range and variety of work, fine or coarse.
Parties wishing to purchase should not fail to examine the best of all Sewing Machines.
As it Was.
Sew, sew, sew,
At noon, at noon, at night!
Work, work, work,
But never out of sight!
For great and small, for young and old,
In summer's heat, in winter's cold,
From sunlight to late, by midday's sun,
'Twas sew, sew, sew, but never done.
When Grandma sewed.
As it Is.
Fuss, buzz, buzz! see how the puddles fly!
Oh, oh, oh! to cast charm the dullest eye!
The legs are sewed, the waistband's on,
The buttons set—the pant are done!
And here's a pair for Sam and John,
And Charley, too, and little Dan.
Now Mother sews on
SINGER'S NEW MACHINE.
We advise all who want a first class Sewing Machine, one that will sew linen or glazed thread as well as any other, to go to

Ayer's
Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.
Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
