Last week can safely be called the coldest of the season. Mercury was a bitter cold day, the thermometers registering their mercurial agents at a point five degrees below zero.

We were shown by S. H. Nease, Esq., a gold finger-ring one hundred years old, with the initials "M. H." engraved upon it, which has come down through three generations, and the initials represent the initial letters of the three several persons who all succeed for the end of chronic inflicting information, participation, and thus, we see now, the evolution of gold rings in every section of the land.

Love in Human Life, By T. S. Arthur. This is the first volume of a new, cheap, and popular edition of the celebrated Household Stories of T. S. Arthur, now in course of publication by T. B. Peterson & Brother, Philadelphia, Pa. Each novel will be issued in one large octavo volume, and sold at the price of fifty cents, with portions of the original on the cover. T. S. Arthur is a master of gaiety and sarcasm, and has written his stories, though wittily, with a great moral purpose, always full, according to the general reader. His stories carry their moral with them, and he never fails of being true in nature, strong, and forcible.

The American Workingman, a monthly magazine earnestly devoted to the cause of protection to American industries, of the working people, comes in its fourth month full of very exhaustive articles against the policy of revenue tariff only, if liberal in tone, comprehensive in scope, and thorough in its dialogue with the great questions to government and society which it undergoes to discuss.

Its protection articles strike home, and should be read by all who feel a real interest in the social and political conservation of American free institutions. Numerous well chosen articles interpret the movements of industrial and social life in the country, and which the book will surely find a place in every library.
