THE POST.

MIDDLEBURG.....FEBRUARY 22, 1872

More Railroad Robberies.

For some months past the Adams Express cars on the Pan-Handle Railroad have suffered more or less from the depredations of thieves who would deplete the through cars, from New York to Cincinnati, of anything valuable they could lay their hands on. The robberies generally occurred between this city and Cincinnati, and of late the detectives of this and the Queen city have been endeavoring to lay their official fingers upon the guilty ones.

For this purpose, on last Thursday night, a detective took a "secret passage" in a loaded express car between this city and Cincinnati. Nothing occurred to attract the officer's attention until the car had passed Xenia, Ohio, when the detective observed a young man emerge from among a lot of bales, boxes and packages, and deliberately set to work to open one of the safes. The detective at once sprang from his hiding-place and attempted to arrest the thief. A desperate struggle ensued, during which the would-be robber received a shot from the detectives pistol, which, it is supposed, will end the young man's career.

The wounded man was taken on to Cincinnati and there placed in Jail, where his injuries were attended to. From statements made by the prisoner who gave his name as James Trimble, Mr. Hazen, one of Cincinnati's chief detectives, concluded that a brother employed as an usher in one of the theatres in this city, was also interested in the robberies. Accordingly, Mr. Hazen visited Pittsburg, and yesterday caused the arrest of the elder Trimble.

A few days ago the young man last refered to accompanied his brother to Cincinnati, riding on the train which his brother is accused of robbing. At the request of Mr. Hazen he produced a watch, set of shirt studs, watch-chain, and a suit of clothes, all of which his brother made him presents of. Although no information has been made against the young man he has been held for further examination. The friends of the Pittsburg prisoner fee confident of his innocence.—*Pittsburg Commercial of the 6th inst.*

Tobacco—By a Small Boy.

Tobacco grows something like cabbage, but I never saw none of it boiled, although I have eaten boiled cabbage and vinegar on it, and I have heard say that cigars that was given to them on election day for nothing, was cabbage leaves. Tobacco stores are most'y kept by wooden Injuns, who stand at the door and try to fool little boys by offering them a bunch of cigars which is glued into the Injun's hands and is made of wood also. Hogs do not like tobacco; neither do I. I tried to smoke a cigar once, and it made me feel like Epsom salts. Tobacco was invented by a man named Walter Raleigh. When the people saw him smoking they thought he was a steamboat, and as they never seen a steamboat, they were frightened. My sister Nancy is a girl. I don't know whether she likes tobacco or not. There is a young man named Leroy who comes to see her. He was standing on the steps one night, and had a cigar in his mouth, and he said he didn't know as she would like it, and she said, "Leroy, the perfume is agreeable." But when my big brother Tom lighted his pipe, Nancy said, "Get out of the house, you horrid creature, the smell of tobacco makes me sick."

The Offended Dandy.

I had quite a laugh in the park the other day. Not far from where I was lounging a gentleman was promenading, accompanied by a magnificient greyhound, while just in advance of him walked a well-known dandy. The gentlemen called, "Bruno, Bruno!" The dandy stopped and looked around, but not knowing the gentlemen, quickly resumed his walk. Again the gentlemen called—"Here Bruno—come here!" Upon this the dandy turned, thus angrily demanded,

"What is your pleasure, sir?

"With you—nothing"

"Then how dare you, not knowing me, thus address me on a public promenade?"

"Pray, sir—if I may ask—what is your name?"

"How, sir? Do you wish to insult me?"

"But will you please give me your name?" quietly pleaded the owner of the greyhound.

"There is my card, sir!" And the dandy handed forth a slip of pasteboard.

"Why," said the gentleman, reading aloud the letters upon the card, "this is *B-r-u-n o-w.* You need borrow no further trouble, sir. My dog spells his name without the *w*!"

The last subject discussed by a debating society was, "If you had to have a boil, where would you prefer to have it?" The unanimous decis-

Keeps constantly on hand a large and well made assortment of Tin, Sheet-iron ware, Stoves, &c., &c.

He is Agent for the following named articles.

"THE MORNING GLORY."
Littlefield's Patent Improved Base
COAL STOVE.

In this pattern of THE MORNING GLORY, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast iron, so fitted as to be air tight, but can be made with sheet-iron upper section when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture, far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory is quite different, making it more durable, and far less difficult to be repaired. The castings are of the highest order, fully equaling the finest castings made in this country.

Among the many ADVANTAGES in the use of the Morning Glory are the following:—1, Continuous Burning. 2, Quality of the Heat. 3, Ventilation through the stove 4, Anti-Dust Stove. 5, No Escape of Gas. 6, Economy of Fuel.

"THE BARLEY SHEAF."
Anti-Dust-Air-Tight Cooking Stove, with Extended Fire-Box for Wood or Coal.
Patented May 16th, 1865.

We take pleasure in offering our customers and the Stove Trade, a New first-Class Flat-top, and would call *particular attention to its many attractive and valuable improvements.*

This Stove has been carefully tested for several months, and the results have proved so highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply this season.

Sliding front fire-doors, giving full use of the hearth.

An additional slide in the oven, so arranged as to give more room in the upper part of the oven; a great convenience much needed.

The oven is nearly as *wide at the top* as at the hearth line, which not only increases the size, but will be recognized as a *great advantage in baking.*

DOTY'S CLOTHES WASHER.

The best, cheapest, and most popular Washing Machine ever invented.

It is easy to operate, sitting or standing takes but little room; injures no garments finishes its work from in two to four Minutes; is durable and convenient; and the only Washing Machine known that is liked the better the longer it is used.

THE UNIVERSAL CLOTHES WRINGER.
The "GREAT FAMILY ECONOMIZER."

The terms of our Patent call our Machine a "Wringer." Years of experience prove it also to be A MOST EXCELLENT WASHER. When we reduce every invention for washing clothes to a principle they all amount to that of pressing and squeezing, and forcing the water through them, thus removing the dirt. Most Washing Machines do it by rubbing. The Universal Wringer does it by pressing.

PETERSON & CARPENTER,
General Agents,
914 Chestnut Street, Philadelphia.

GENTS:—Eleven years ago I purchased a Wheeler & Wilson Sewing Machine and have had it in constant use in my Tailoring Establishment ever since. I have also a Singer Manufactering Machine, but do all my sewing on the Wheeler & Wilson, as it makes a much nicer stitch and draws it more firm than the Singer and runs much lighter. My wife, also, does all her family sewing on the W. & W. It is still in good running order, nothing having been broken than a few needles, though the needle that I now work with I used for near three years. You are welcome to use my name in your recommendation. CHARLES A. KUSCHKE,

THREE THOUSAND PER WEEK ARE NOW BEING MADE AND SOLD!

THE REASONS WHY.

Because it embodies essential principles not found in any other Machine; because of its simplicity of construction, ease of operation, uniformity, of precise action at any speed, and capacity for the greatest range and variety of work, fine or coarse.

Parties wishing to purchase should not fail to examine the best of all Sewing Machines

As it Was.

Sew, sew, sew,
At morn, at noon, at night!
Work, work, work,
But never out of sight!
For great and small, for young and old,
In summer's heat, in winter's cold,
By midnight lamp, by midday's sun,
Twas sew, sew, sew, but never done.
When Grandma sewed.

As it Is.

Buzz, buzz, buzz; why how the panties fly!
Oh, oh, oh! 'twould charm the dullest eye!
The legs are sewed, the waistband's on,
The buttons set—the pants are done!
And here's a pair for Sam and John,
And Charley, too, and little Dan.
Now Mother sews on

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Many serious sicknesses are suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthful activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper of each box, how to use them as a Family Physician, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
