THE POST.

MIDDLEBURG.....APRIL 11, 1872.

La Crosse, Wisconsin, has an ox with a horn ten inches in length growing from his breast; between his fore legs.

—A Sheboygan, Mich., dentist, wrenched off a piece of a customer's jaw two inches long, with four grinders therein. The unreasonable customer complains that it hurt.

At a public sale of old bachelors and widowers at Southville, some week or two ago, the young ladies of that vicinity, taking advantage of leap year, put the bachelors and widowers of the company on the block and knocked them off at the following prices:

Lawyers (inferior grade) $5 a head; farmers from $4.25 to $5.50; doctors (common stock $5; widowers $1,000, billing spirited; bachelors at 75 cents to $1.05, and bidding slow.

Horace Greely heard that they made 8,000 pounds of butter from sixteen cows in Danbury. He bou't a lot of cows at once, and is going to have them ground and churned. "You see," said he, 'I can buy live beef for eight cents a pound, and butter is worth forty. If it costs two cents a pound for labor I shall clear three hundred per cent. The man who says that it is not so, is a liar and a horse thief?"

The Teutonic tailor of a Pennsylvania village having married a second wife indecently soon after the funeral of his first, the young men of the place notified their disapproval by a tin horn serenade during the progress of the wedding feast. The vulgar fraction of a man expostulated in the following style: "I say, poys, you ought to be ashamed of yourselfs to be making all dis noise ven dar vas a funeral here so soon!'

All Mixed Up.

A certain witness in an assault and battery suit we once heard, mixed up things considerably, in giving his account of the affair. After relating how Dennis came to time and struck him, he proceeded:

"So, yer honor, I just hauled off and whiped his jaw. Just then his dog cum along, and I hit him again."

"Hit the dog?"

"No, yer honor, hit Dennis. And then I up with a stone and throwed it at him, and rolled him over and over."

"Threw a stone at Dennis?"

"At the dog, ger honor. And he got up and hit me again."

"The dog?"

"No, Dennis. And with that stuck his tail betwixt his legs and run off."

"Dennis?"

"No, the dog. And when he came back at me he got me down and pounded me, yer honor."

"The dog came back at you?"

"No, Dennis, yer honor—and he he isn't hurt any at all."

"Who isn't hurt?"

"The dog yer honor."

An Impatient Benedict.

A young Montana chap got on board a sleeping car of the Central Pacific, and said:

"See here, Mr. Conductor, I want one of your best bunks for this young woman and one for myself individually. One will do for us both when we get to the Bluff—hey, Marier!" (Here he gave a playful poke at Marier, to which she replied. "Now, John, quit!") "For you see we're going to get married at Marier's uncle's. We might 'a been married at Montany, but we took a habit to wait till we got to the Bluffs, bein' Marier's uncle is a minister, and they charge a goshfired price for hitchin' folks at Montana."

"Marier" was assigned one of the best "bunks." During the stoppage of the train at a station, the voice of John was heard in pleading accents, unconscious that the train had stopped and that his tones could be heard throughout the car:

"Now, Marier, you might give a feller jest one."

"John, you quit, or I'll git right out here and hoof it back to Montana in the snow storm.'

"Only one little kiss, Marier, and I hope to die if I don't go to sleep right off."

"John——"

Just at this time a gray-headed old party poked his head out of a birth at the other end of the room, and cried out:

"Marier, for Heaven's sake give him a kiss, and then we can all go to sleep."

John didn't ask for any more of that delicious lip business during the evening. "Marier," it is to be hoped, slept peacefully.

Keeps constantly on hand a large and well made assortment of Tin, Sheet-iron ware, Stoves, &c., &c.

He is Agent for the following named articles.

"THE MORNING GLORY."
Littlefield's Patent Improved Base
COAL STOVE.

In this pattern of The Morning Glory, several new and important features have been embodied, which can only be seen to be admired. This new stove is made entirely of cast iron, so fitted as to be air tight, but can be made with sheet-iron upper section when preferred by the purchaser. Its ornamental finish is drapery, making it a handsome piece of furniture, far more so than any stove heretofore made. Its internal construction, though resembling some of the former patterns of The Morning Glory is quite different, making it more durable, and far less difficult to be repaired. The castings are of the highest order, fully equaling the finest castings made in this country.

Among the many advantages in the use of the Morning Glory are the following:—1, Continuous Burning. 2, Quality of the Heat. 3, Ventilation through the stove 4, Anti-Dust Stove. 5, No Escape of Gas. 6, Economy of Fuel.

"THE BARLEY SHEAF."
Anti-Dust Air-Tight Cooking Stove, with Extended Fire-Box for Wood or Coal.
Patented May 16th, 1865.

We take pleasure in offering our customers and the Stove Trade, a New first-Class Flat-top, and would call *particular attention to its many attractive and valuable improvements.*

This Stove has been carefully tested for several months, and the results have proved so highly satisfactory, that several of our oldest and most experienced stove dealers predict for it a sale far beyond our ability to supply this season.

Sliding front fire-doors, giving full use of the hearth.

An additional slide in the oven, so arranged as to give more room in the upper part of the oven; a great convenience much needed.

The oven is nearly as *wide at the top* as at the hearth line, which not only increases the size, but will be recognized as a *great advantage in baking.*

DOTY'S CLOTHES WASHER.

The best, cheapest, and most popular Washing Machine ever invented.

It is easy to operate, sitting or standing takes but little room; injures no garments finishes its work from in two to four Minutes; is durable and efficient; and the only Washing Machine known that is liked the better the longer it is used.

THE UNIVERSAL CLOTHES WRINGER.
The "GREAT FAMILY ECONOMIZER."

The terms of our Patent call our Machine a "Wringer." Years of experience prove it also to be a most excellent Washer.

When we reduce every invention for washing clothes to a principle they all somnut to that of pressing and squeezing, and forcing the water through them, thus removing the dirt. Most Washing Machines do it by rubbing. The Universal Wringer does it by pressing.

by the verdict of the people. They are the easiest, make the least noise, are the most conveniently constructed, are the simplest, having but 65 parts. (Shuttle Machines have over 200.) They make the Lock-Stitch (alike on both sides) without a shuttle, and can, therefore, be threaded quicker and easier, and will run faster than any other. These are facts, and we shall be pleased to demonstrate them to all who favor us with a call.

MACHINES will be deliverrd at your homes and sold on terms to suit purchasers.

INSTRUCTION given given until you are satisfied, and the machine warranted by a responsible Company.

THE SINGER SEWING MACHINES!
AHEAD OF ALL OTHERS!

THREE THOUSAND PER WEEK ARE NOW BEING MADE AND SOLD!

THE REASONS WHY.

Because it embodies essential principles not found in any other Machine; because of its simplicity of construction, ease of operation, uniformity, of precise action at any speed, and capacity for the greatest range and variety of work, fine or coarse.

Parties wishing to purchase should not fail to examine the best of all Sewing Machines

As it Was.

Sew, sew, sew,
At morn, at noon, at night!
Work, work, work,
But never out of sight!
For great and small, for young and old,
In summer's heat, in winter's cold,
By midnight lamp, by midday's sun,
'Twas sew, sew, sew, but never done,
When Grandma sewed.

As it Is.

Buzz, buzz, buzz; why how the panties fly!
Oh, oh, oh! 'twould charm the dullest eye!
The legs are sewed, the waistband's on,
The buttons set—the pants are done!
And here's a pair for Sam and John,
And Charley, too, and little Dan.

Now Mother sews on

Ayer's
Hair Vigor,
For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unsightly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
