TREASURER,
GEO. W. ROW, of Monroe twp.

FOR JURY COMMISSIONER
A. S. HELFRICH, of W. Beaver tp.

FOR AUDITOR,
JEFFERSON HALL, of Selinsgrove

THE construction of the great balloon in which Profs. Wise and Donaldson expect to cross the ocean, has been commenced. It will cost ten thousand dollars.

THE Constitutional Convention has adopted a section making it necessary that any law passed for the purpose of changing the location of the Capitol of the State must be submitted to a vote of the people.

The retirement of Prince Bismarck from the Prussian ministry is spoken of in the cable telegrams as being definitely determined on. He holds the office of President of the Ministry of State, and at the same time is Minister of Foreign Affairs, Minister for the Duchy of Lauenburg and Chancellor of the German Empire. This last position he will retain, so that while he will be relieved of duties in the State Department of Prussia, he will still be the ruling spirit of the Empire. Prince Bismarck is not a very old man—only sixty; but he has been a tremendous worker, especially in the last ten years, and his mental labors have told on his health, so that he has often been disabled in the last two or three years. He retires from active work in the government of Prussia after seeing her exalted, mainly by his efforts and his policy, to the highest position among the powers of Europe. His retirement occurs at a time when people are thinking of the possible abdication of the aged Emperor William, and when there is even talk of his death being not very remote, his health having failed lately. The Prince Imperial will be a worthy successor to the throne; but there have been hints that Bismarck's relations with him are not so intimate and friendly as those with his father. But however that may be, it will be mainly through the exertions of the Chancellor of the Empire that he will come into possession of one of the proudest thrones of Europe.

Lessons of the Census.

No public document has attracted more attention in this country than the last census report. The three bulky volumes of figures and statistical matter have been perused by business men with a degree of interest never before witnessed. The reason for this is found in the fact that everybody can find something in the census of special interest to himself. In it the politician, the statesman, the merchant, the manufacturer, the agriculturist and the mariner may find information bearing directly on the affairs which particularly occupy their minds.

What American can study the figures showing the great increase in the material prosperity of the country during the ten years ending with 1870, without feelings of pride and gratification? So great has become the wealth of the nation that, to take it as a whole, it is almost impossible to comprehend its magnitude. We are told that the true value of all the States is over $30,000,000,000. First in point of wealth and population is the Empire State, which is worth $6,500,000,000, or over one fifth of the value of all the States. Next comes Pennsylvania, which is valued at $3,8 0,000,000. Ohio is the third on the list, and is worth $2,235,000,000. The aggregate debt of all the States is $868,000,000, and the annual taxation reaches $280,000,000.

The most remarkable lessons tau't by the census are those referring to irregularities of taxation and the rerelation of iguorance to crime. There seems to be no comprehensive system of taxation in operation in any of the States. In fact nearly every county has a plan and rate peculiar to itself. The assessed valuation of the property in New York is $1, 900,000,000, while the real value is $6,500,000,000, New York City is valued by the State assessors at $928,000,000, while the real value is placed at $3,480,268,000. Of all the States Massachusetts can boast of having the nearest to a perfect method. Its assessed valuation is $1,591,000,000; its census valuation $2,132,000,000, showing that the estimates of the assessors are nearer the true figures than those of the New York assessors. In the Bay State the census shows that the masses are better educated than elsewhere, and as a result the ratio of crime is lower in proportion to the population than in any other State.

Pennsylvania Items.

—Huckleberries are fifteen cents a quart in the Johnstown market.

—Henry W. Dorney and Miss Ella I. Fegley deaf mutes, were married at Kutztown, Berks county, the other day.

A Couple were married while sitting in a buggy in front of a parsonage, in the lower end of Clarion county, recently.

—Cumberland county has a steer weighing 3200 pounds. Every neighboring steer deems it advisable to stear clear of him.

—The conductors in the employ of the Pennsylvania railroad who were engaged in the ticket rascality are now non-conductors.

—Norris Lebar, a colored man of Lancaster, had his eye shot out by a putty ball from an air gun in the hands of a boy named Ellinger.

—An exchange pointedly remarks that the new fish law "seems to be as clear as tar, and as comprehensible as the laws controlling the action of electricty."

—Prof. Light made a balloon ascension at West Chester on the 4th of July. At the hight of 2,000 feet he dropped a chicken from the basket. It reached the earth without a scratch.

—A daughter of Owen Mully, of Scranton, was bitten by a rattlesnake on Wednesday while picking berries. —The girl died the same night from the poison inoculated into her system.

—Martin Specklen, an insane man, hung himself at Manheim to a cross beam by means of a handkerchief tied around his neck on Sunday. He was discovered while suspended in the air and saved from strangulation, which was near at hand.

—There are in Pennsylvania 975 manufactories of cigars, which turn out upwards of 5,2 0,000, annually, and 36 manufactories of chewing and smoking tobaco and snuff, the value of whose products reaches annually $854,000.

—Howes large circus tent was blown down last week by a sudden storm at Pittsburg while the performance was in progress. There was great consternation among the 5,000 in the pavillion, and several cages were upset by the violence of the gale and the rush of the panic stricken people.

—The Pensylvania Constitutional Convention has refused, 22 to 66, to strike the word "male" from the Constitution, defeated several propositions to allow women to vote on school and liquor questions, and only permits them to be eligible for school offices.

—Local option works badly in Westmorland county according to the Greensburg *Tribune*. It says: "If the law cannot be enforced better than it is we are in favor of its repeal, because we have all the evils of the traffic and at the same time the additional evil of insubordination and lawlessness."

—Wm. Turner, residing at Julian Furnace, Centre county, committed suicide recently by hanging himself in his stable. When found his feet were touching the floor. No cause is known for the act. The deceased was a well to do farmer, was highly respected in the community in which he lived and leaves a wife and several children to mourn his sad death.

Mrs. Philip Young, aged about fifty years, of Stroud township, Monroe county, wandered from home about three weeks ago, and her whereabouts are still unknown. She left while mentally deranged. Information regarding her should be addressed to John Young, her husband Analomink post office, Monroe Co.

—In Union county, about a mile and a half from Lewisburg, is a log building erected in 1715. The house was made very strong so as to afford protection from the Indians. On its logs can be seen hundreds of marks made from Indian darts and arrows, received during the numerous engagements which the early settlers of this county had with the savages.

—A few weeks ago Wesley M'clure of Greene county, who had been treated for insanity, was discharged from the Harrisburg state lunatic hospital under the impression that his mind had been fully restored. A few days since he went out fishing with his brother, during the evening he returned to his home for a gun, with which he said he intended to shoot fish. The next seen of him was a corpse, a bullet having pierced his head.

—Hon. Asa Packer has donated to the Lehigh University fifty-six acres of land, and one million dollars to build and endow it. For the whole course in this institution the tuition is absolutely free; lodging rooms (unfurnished) are provided and board placed as near cost as possible. Students who are compelled by the necessity for labor to give but a short time each day to study are cordially invited to "come and learn what they can."

—The miners employed at the Empire Colliery, in the Lehigh region, operated by the Lehigh coal and navigat on company, dissatisfied with the scale of wages, have struck for an advance. The company have determined not to accede to their demand. It is feared that if the advanced prices are not paid by the company that there will be a general strike among the miners of the Wilkesbarre region to compel other operators to pay a higher basis. As it is there seems to be an extended dissatisfaction throughout the region.

EXECUTOR'S NOTICE.—Notice is hereby given that Letters Testamentary upon he estate of Daniel Carey, late of the borough of Selinsgrove, Snyder County Pa., deceased, have been granted to the undersigned. All persons, therefore, indebted to said estate are requested to make immediate payment to the undersigned, and those having claims against the estate of said decedent will present them to the same for settlement. GEO. SCHNURE,
June 10, 1873. Executor.

N. B.—The business of the firm Carey & Schnure will also be settled up by the undersigned, and those indebted to said firm or having claims against it, will settle the same with him.
GEO. SCHNURE.

..The President has appointed S. S. Farrel postmaster at Covington, Ky., in place of Jesse R. Grant, deceased.

..President Orton intimates that there will be a further reduction in telegraphic tariff rates by the Western Union telegraph company.

..When the Shah was at St. Petersburg, Princess Dagmar, by way of civility, remarked that his diamonds were exceedingly beautiful. The Shah patted her on the shoulder, and with an abrupt gallantry that was not quite after the St. Petersburg pattern, replied, "Not nearly so beautiful as your neck."

..The second installment (250,000,000 francs) of the last milliard of the war indemnity was delivered to the German Treasury on the 5th inst. There now remains due to Germany but 500,000,000 francs, which, in accordance with the treaty signed at Berlin on the 15th of March last, is to be paid by the 5th of next September.

..The Union Pacific Railroad Company has already sold nearly a million acres of its lands, at an average price of 4.30 per acre. Its sales during May of the present year amounted to 10,424 acres, at $5.15½ per acre. What was left of the original land grant is worth nearly $60,000,000, and will probably realize $100,000,000 by the time it is all sold.

..Taking the yeas and nays on the Salary bill as recorded in both Houses of Congress, they sum up as follows:

Republicans for the increase	74
Republicans against the increase	82
Republican majority *against*	8
Democrats for the increase	61
Democrats against the increase	41
Democratic majority *for*	20

..The numerous fires said to have been caused by sparks from locomotives, which have recently occurred in South Jersey, have caused much annoyance and loss to owners of property, and suits have been entered in several instances against the companies for damages. The supplement to the law regulating the running of steam locomotives, passed last winter, makes it obligatory upon every railroad company in the State to provide their engines with screens on their smoke stacks, so as to prevent the escape of fire either from wood, soft or hard coal, while running on their roads

The Constitutional Convention adjourned on the 16th inst to reassemble again in Philadelphia, on the 16th of September next.

It first assembled at Harrisburg on November 22, 1872, remaining in session there until the 27th of the same month, when a recess was taken until the 7th of January, on which day the long session just terminated commenced in this city. Altogether its sittings have extended over 111 working days.

COL. THOMAS A. SCOTT, who was born and begun life from very humble beginnings in Franklin county, and who is now perhaps the greatest railroad man in the world, sailed for Europe on Saturday of last week in the steamship Pennsylvania. He goes to England and the continent to present some of the immense railroad projects he has organized in the country to the consideration of European financiers, and also to seek rest and relief for a brief season, after many years of stupendious mental labor, devoted to developing the railroad system of this country. Col. Scott is first Vice-President of the Pennsylvania Railroad, and President of wo do not know how many others. The most important and extensive enterprise which is being pushed to completion under his management is the Texas and Pacific Railroad, which when completed will make a new line across the continent and open an immense extent of valuable land to settlement and to trade and industry. A man who has proved his greatness by his own unaided efforts, as has Col. Scott, will receive marked attention across the water.—*Franklin Repository*

NEW ADVERTISMENTS.

EXECUTOR'S SALE OF
Valuable Property.

CHOLERA
AND
EPIDEMIC DISEASES
PREVENTED BY USING
Bromo-Chloralum,
The Now Odorless and Non-Poisonous Powerful Deodorizer and DISINFECTANT.

It destroys all bad odors and poisonous emanations about your premises, and thereby prevents contagion and disease; contains no poison, has no odor, and is always safe.

"Diploma awarded by the American Institute to TILDEN & Co., for Bromo-Chloralum. They consider it of value as being non-poisonous and inodorous, and can recommend it especially for medical and general household purposes where disinfection and deodorization is called for."
—Exhibition of 1872.

NEVER
Neglect a Cough. Nothing is more certain to lay the foundation for future evil consequences.
Wells' Carbolic Tablets,
are a sure cure for all diseases of the Respiratory Organs, Sore Throat, Colds, Croup, Diptheria, Asthma, Catarrh, Hoarseness, Dryness of the Throat, Whooping, or Bronchial Tubes, and all Diseases of the Lungs.
In all cases of need no cold, however taken, these TABLETS should be promptly and freely used. They cleanse the quality of the blood, mitigate fever, promote healthy sleep, and will, in a very short time, restore healthy action to the affected organs.
Wells' Carbolic Tablets are put up cute in little tin boxes. Take no substitutes. If they can't be found at your druggists, send at once to the Agent in New York, who will forward them by return mail.
Don't be Deceived by Imitations
Sold by druggists 25 cents a box.

Send for circular. Sole Agent for the U. S

THE GREAT SOUTH AMERICAN
JURUBEBA
BLOOD PURIFIER
Is the most powerful cleanser, strengthener and restorer of Glandular obstructions known to Materia Medica.
It is specially adapted to constitutions "worn down" and debilitated by the warm weather of spring and summer when the blood is not to act ve circulation; consequently gather impurities from sluggishness and imperfect secretion of the se re ive organs, and is manifested by tumors Eruptions, Blotches, Boils, pustules, sores, &c. &c.
When weary and languid from overwork and dullness, drowsiness and inertia take the place of vigor and vigor, the system needs a Tonic to build up and help the vital forces to regain their recuperative power.
In the heat of summer, frequently the Liver and Spleen do not properly perform their functions; the stomach and urinary organs are inactive producing weakness of the stomach and intestines and a predisposition to bilious derangement.
DR. WELLES'
EXTRACT OF JURUBEBA
Is prepared directly from the South American plant, and is peculiarly suited to all those diseases which require a well directed blood, strengthen the life giving powers, and remove all obstructions from Impaired and enfeebled Organs
It should be freely taken, as Jurubeba is pronounced by medical writers the most efficient purifier, Tonic and Deobstruent known in the whole range of medical plants.
JOHN Q. KELLOGG, 18 Platt St. New York
Sole Agent for the United States.
Price One Dollar per Bottle. Send for Circular
