—A large number of people attended court last week.

—If our almanac is not wrong, Spring for 1874 commenced last Sunday.

—A town is being laid out at Wagner Station on the Sunbury and Lewistown Railroad.

—Last Wednesday we had another snow in this place. It was about three inches deep on a level. No sleighing.

—Dr. Phaler, of Shamokin Dam, is finishing the unexpired term of the high school, in this place.

—There are quite a number of sick children in town and vicinity, at present. Nearly all having taken a sever cold.

—Next week we will publish some very healthy reading matter on our out side.—Receipts and Expenditures of the county for 1873.

—A good way to prevent valuable letters from being lost is to have printed envelopes, which cost but a trifle more than those which are plain.

—When times are dull and money scarce people look to the papers to see where they can get the most for their money.

—House hunters have already commenced their labors, in order to be prepared for change of quarters in April.

—Some of our exchanges record the rumor that the fly is making ravages on the winter wheat. We hear nothing of it in this immediate locality.

—Ner. B. Middleswarth, and A. Wagner, are the new Justices of the Peace, elected, in West Beaver Twp., instead of Overseers of the Poor as it appeared in our paper last week Jno. Spiglemyer and J. Boingardner are the Overseers.

—Within the whole range of tonic and alterative medicines known, none is entitled to more consideration than the Peruvian Syrup. In all cases of enfeebled or debilitated constitution it is the very remedy needed. The most positive proof of this can be adduced.

—Tere are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that Johnson's Anodyne Liniment is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

—We notice that the Agricultural papers all over the country recommend the use of Sheridan's Cavalry Condition Powders.—*Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.

—We learn that a party of *smart* boys, from Franklin township, one day last week, undertook the dangerous job of playing with powder and fire. The result was that one of them was badly burned in the face, and about the head, and burning his hair all to a crisp. His face is sadly disfigured, and no doubt it will be a long time before these silly boys will forget their first experiment with powder.

ABOUT THE UNITED BRETHREN.—This church is nearly one hundred years old; will celebrate its centennial during this year, for which event great preparations are now being made throughout the entire church. It is now divided into 43 annual conferences, 3,874 organized societies, numbering in all about 135,000 members. Six missionaries in Africa and four in Germany, with quite a number of home missionaries, are supported by the missionary society. They are plain, practical people, contending earnestly for experimental religion and the grand fundamental truths of Christianity.

—Demorest's Monthly Magazine seems to improve with each issue. The March number comes to our table redolent with spring novelties, spring music, spring literature, and spring fashions. This Magazine richly deserves to be called a model. It is printed in beautiful style on fine toned paper, and in every respect is *Ne Plus Ultra*. The premiums offered are far in advance of all others. Jerome Thompson's Old Oaken Bucket, in size and beauty, is worth several times the cost of the yearly subscription, $3. Address, W. JENNINGS DEMOREST, 838 Broadway, N. Y.

—Demorest's Young America for March contains its usual variety of useful and entertaining reading for the juveniles. Dr. Deems's Stories Illustrating the evils of Intemperance, with Cartoons, increasing in interest. Every boy and girl should read Young America. Yearly $1 with a beautiful Chromo Premium. Address, W. JENNINGS DEMOREST, 838 Broadway, N. Y.

—A pretty mantlepiece ornament may be obtained by suspending an acorn, by a piece of thread tied around it, within half an inch of the surface of some water contained in a vase, tumbler or saucer; and allowing it to remain undisturbed for several weeks. It will soon burst open, and small roots will seek the water; a straight and tapering stem, with beautiful glossy green leaves, will shoot upward and present a very pleasing appearance. Chestnut trees may be grown in the same manner, but their leaves are not so beautiful as those of the oak. The water should be changed once a month taking care to supply water of the same warmth; bits of charcoal added to it will prevent the water from souring. If the little leaves turn yellow, put one drop of ammonia into the utensil which holds the water, and they will renew their luxuriance. Another pretty ornament is made by wetting a sponge and sprinkling it with canary, hemp, grass, and other seeds. The sponge should be refreshed with water daily so as to keep it moist. In a few days the seeds will germinate, and the sponge will soon be covered with a mass of green foliage.

The Bazar is edited with a contribution of tact and talent that we seldom find in any journal; and the journal itself is the organ of the great world of fashion.—Boston Traveler.

The Bazar commends itself to every member of the household—to the children by droll and pretty pictures, to the young ladies by its fashion plates in endless variety, to the provident matron by its patterns for the children's clothes, to Pater familias by its tasteful designs for embroidered slippers and luxurious dressing gowns, but the reading matter of the Bazar is uniformly of great excellence. The paper has acquired a wide popularity for the Breadth enjoyment it affords.—New York Evening Post.
