—*Parsons' Purgative Pills* will greatly relieve, if not entirely cure, dyspepsia when everything else fails. They have been tried in some desperate cases, and have given more relief than any other medicine.

HELP YE ONE ANOTHER.—Don't spend your money away from home. Buy your clothes, groceries, farming tools everything you need at home. Spend your money with your friends and neighbors, and then all get a benefit from it. It passes from one to another paying debts and helping everybody. Keep your money at home, and you will build up your own town and country, and grow in prosperity.

—Corn should be closely sorted as husked, and instead of throwing the poor ears in the mud to the hogs, let them be fed on hard ground, or, what is the better plan, soaked in water, and allowed to sour slightly before being fed. In no case should good corn be fed whole, if the object be to produce the largest amount of flesh from the least quantity of food. It should be ground and cooked, otherwise a considerable portion of it will pass through the animal undigested.

The Bar-Room Remedy for all ailments in Rum Bitters, surcharged with Fusel Oil, a deadly element, rendered more active by the pungent astringents with which it is combined. If your stomach is weak and your liver or bowels disordered, strengthen & regulate them with Vinegar *Bitters*, a purely Vegetable Alterative and Aperient, free from alcohol and capable of infusing new vitality into your exhausted system. KEEP YOUR OWN COUNSEL.—Whenever a wife mentions to any person outside her family, or to any man no matter how much of a friend he may be, that there is not proper harmony between herself and husband, she is angling for an adventure which means separation. Whenever her husband goes about telling his friends that himself and wife do not live happily together, it means that he has found another woman to caress, and is on the way to a divorce court. The little troubles which come over the sky of wedded life like fitful clouds in the morning will, ninety-nine cases out of every hundred, entirely fade away before night, if the wife and husband will each refuse to take any other living soul to their confidence, and try all as hard to be lovers as to be enemies.—*Ex.*

HOW TO KEEP CIDER FOR WINTER.—A chemist of wide repute recommends the following plan for preserving cider sweet:

"When the cider in the barrel is undergoing a lively fermentation, add as much white sugar as will be equal to half or three-quarters of a pound to each gallon of cider, and let the fermentation proceed until the liquid attains the right taste to suit; then add an eighth or a quarter of an ounce of sulphite (not sulphate) of lime to each gallon of cider in the cask, first mixing the powder in about a quart of the cider, and then pouring it back into the cask, and giving it a thorough shaking or stirring. After standing banged up for a few days, for the matter added to become incorporated with the cider, it may be bottled or used from the cask." The foregoing plan is recommended by to keep the cider sweet.

When the first fermentation is over, rack it off into clean barrels through a filter made by taking a round wooden box, made of inch-pine plank, three inches in diameter, and one foot four inches deep; perforate its bottom with numerous one-quarter inch augur holes, over which should be laid coarse hemp bagging. Fill in the box for about inches with pieces of charcoal—animal charcoal is the best—about nut size, and on the top of this place a four inch layer of clean washed sand, and cover all with coarse hemp bagging. The cloth can be frequently washed without disturbing the sand or charcoal. Before any cider is filtered through a stream of clear water into the barrel for fifteen minutes, so as to remove any fine, loose particles of charcoal that otherwise would be mixed with the cider."

FROM TROXLEVILLE.

MR. EDITOR:—We are happy to inform you and the readers of your columns, that the laying of the corner stone of the Evangelical Church at Troxleville on 27th of Sept. was in every respect a success. The weather was fine, the congregations large and orderly, and we realized between three and four hundred dollars by subscription and in cash for the benefit of the church. Our small class here, with the people of Troxleville and surrounding vicinity, manifested a commendable spirit of liberality, not only in giving for the erection of this house of worship, but also in so kindly entertaining and caring for those present from a distance. May the Lord abundantly reward them. The services commenced on Saturday morning, on which occasion our young brother D. P. Kline, preached us a very encouraging sermon from the words of our Saviour, "Because I live ye shall live also," John xiv. 19v. On Sabbath Morning Rev. S. Yearick, preached an interesting and suitable sermon to a large and attentive audience from 1st Peter, ii. 6v., after which Rev. A. H. Irwin, from New Berlin, performed the ceremony of the laying of the corner-stone, in accordance with the directions of our church discipline. In the evening Rev. A. H. Irwin preached a soul stirring sermon from the words, "Be zealous," Rev. iii. 19v., after which the exercises were closed.

On the whole we had an interesting and profitable time. What added very much to the interest of the occasion was the presence of the choir of the E. V. church in New Berlin, who with its efficient leader Brother Hartman, rendered some excellent and soul stirring music. Many thanks to our New Berlin friends for their presence and encouragement. We hope ere very long to witness the dedication of the 15th house of worship of the Evangelical Association in little Snyder County.

—Many valuable horses die from the effects of colic. The best thing to do in a case of this kind is to pour a bottle of *Johnson's Anodyne Liniment* into a long-necked junk bottle, add half pint of molasses and water, then pour the whole down the horse's throat. In ten minutes the horse will begin to eat.

J. SMITH

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and complaints arising from impurities of the blood, such as Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer for cleansing the blood. The system moves on with renewed vigor and a new lease of life.
