THE POST.

MIDDLEBURG, NOV. 12, 1874

Local News, &c.

Advertisements for insertion in this paper must be handed in before 4 o'clock on Tuesday, as we go to press early on Wednesday morning.

—Our new office is getting its first coat of plaster.

—Examine all paper money carefully, as numerous counterfeits are in circulation.

—The sun is evidently in favor of the eight hour system, to judge by the shorter hours he is doing duty in this latitude.

—Turkeys will soon be in demand as Thanksgiving Day is approaching, the 26th of November having been designated by the President.

TLAS FEVIR.—Till we come back, we expect to see, according to democratic promises, lots of greenbacks, gold and silver scattered broadcast about our streets.

"JOHN."—Your communication we are sorry to say was mislaid. Hope it has caused no ill feelings. With pleasure we would have given it space in our paper, but is most too late now.

—S. Weis, of the N. Y. fancy store, John €App's building, Selinsgrove, is selling off his stock which was saved from the late fire at a great sacrifice. Everybody who wants to buy cheap goods should go there.

—Persons who go hunting should be careful in climbing fences with their guns or in going about with the hammer raised. So many fatal accidents or fearful maimings have occurred from carelessness in handling guns that persons cannot be too watchful.

—A case of chronic rheumatism of unusual severity, cured by Johnson's Anodyne Linimenti is noticed by one of our exchanges. A large bunch came out upon the breast of the sufferer, and appeared like part of the breast bone. Used internally and externally.

FINE HOUSE.—The residence erected by Jas. M. Vanzandt, when completed, will be quite an improvement to that part of our town,—it makes a very good appearance, and is the best evidence that those who erected and planed it were masters of their undertaking.

—On Saturday evening another attempt was made by some unknown person or persons to burn Selinsgrove. Schoch & Brother's warehouse was set on fire, but was put out before much damage was done. This is the second attempt to fire the place since the late sad affair.

THE ELECTION RETURNS.—Associate Judges Shindel and Raudenbush, met in the court room on Thursday, Nov. 5th, to open the election returns received by the Prothonotary. J. P. Cronmiller, Esq., Democrat, and J. H. Arnold, Esq., Republican, were appointed clerks.

—Rabbits are said to be unusually scarce this fall. Localities where, in former seasons, the game was abundant, now harbor but few rabbits or partridges. The unusually mild weather of last winter seemed to warrant the belief that game would be plenty this season, but it does not so prove.

—The Sunbury *Daily* says there is a movement on foot to build a bridge across the river at this place. There will be a meeting at Kratzerville, this county, on the 14th inst., to take some action in the matter. The project is being led off on this side by Messrs. J. W. and J. A. Cake.

—If Alcholic Stimulants are taken into the blood the heart works faster, and this unnatural speed wears out the vital machinery. All intoxicating nostrums advertised as "tonics," "renovators," &c., produce this disastrous effect, and should be rejected. Dr. Walker's Vegetable Vinegar Bitters—an Invigorant without the curse of alcohol—is everywhere supplanting the poisons.

Nov. 12, 4w.

IMPORTANT TO DROVERS.—The Pennsylvania Society for the Prevention of Cruelty to Animals, is sending instructions to its representatives in the various counties, to give friendly notice to all drovers, dealers and others, to abstain from muzzling calves, or otherwise preventing them from obtaining proper nourishment; and if this caution is disregarded, to promptly prosecute any one coming under their notice.

DAMAGED FRUIT.—Don't eat damaged fruit. It is no wiser than to eat the flesh of a sick animal. Worm-eaten, leathery, and insipid or crabbed fruit is diseased and not fit to be used. A little investigation will show how unfit to be consumed it is. Let a person of delicate digestion try both healthy and diseased fruit. The first will, if properly taken, rest easily on his stomach, or at any rate better than the second, which will fret his whole system, producing a feeling of distention, oppression or some similar trouble. Damaged fruit is a little better than an absolute poison.

PUBLIC SALE.

Will be held at the residence of *Buena Vista* in Penn township near the Borough limits of Selinsgrove, on Friday the fifty-sixth (56) day of November next. Sale to commence at 23 o'clock, P. M., on said day, all the Goods, Chattels, Fish Stands and Surveying instruments of the said Buena Vista; finding the line would not hold out and as he is about moving up salt river, and wishes to lighten his craft as much as possible, because he just now since the election made up his mind that the current in said river is pretty strong. Buyers may rest assured that fair dealing is meant as said sale, because the surveyor and great scholar from West Perry is positively engaged to clerk the sale, and will accompany said Buena Vista up the said river.

BUENA VISTA.

Peramilicalico, Nov. 47th, A. D. 1983.

THE METROPOLITAN CLOTHING HOUSE.—Wanamaker & Brown, corner of Sixth and Market streets, Philadelphia, known throughout the length and breadth of our land as the leading clothiers of America, announce in their great advertisement in another column, an immense stock for the fall and winter trade. The inducements tendered purchasers are unprecedented. For cash ("Cash alone" is their motto) they offer garments, single or in suits, at prices lower than ever before. They invite customers to walk through their great rooms, and to see how every garment has its own printed label, specifying the name and character of the goods, and the one, only price. No questions need be asked,—the garment presents so much money; it is worth much money. A signed Guarantee will be delivered with it, and if, on his return home, the purchaser is for any reason discontented with his trade, he is allowed ten days to return it in, and receive his money back, dollar for dollar! We greatly mistake the thoughteconomical spirit of the times, if the new departure does not work a revolution in the clothing trade.

—Capt. L. N. Homes lost $400 in the fire at Selinsgrove. No insurance.

—Whenever it is right muddy, tie your horse over the crossing,—you will have a good many sins to answer for those who pass around.

—S. Weis, of the N. Y. fancy store occupying Schnure's corner Selinsgrove, before the fire, has opened again his old stand at John App's building opposite Schoch & Bro. where he will be pleased to see all his customers again. Give him a call.

—The sweetest word in our language is health. At the first indication of disease, use well-known and approved remedies. For dyspepsia or indigestion, use Parson's Purgative Pills. For coughs, colds, sore or lame stomach, use Johnson's Anodyne Liniment.

HOW NAILS WERE COUNTED.—Nails used to be counted by the thousand; and when they were of such a size that 1000 of them would weigh 4 pounds, they were called four-pound nails, and similarly six-pound and ten-pound nails; and in rapid speaking the "pound became corrupted to penny," which is most easily uttered by the organs, as any one will see who will try it for himself. Thus the current designation of sizes depended orginally upon weights.

CHAPPED HANDS.—The easiest and simplest remedy for chapped hands is found in every one's kitchen closet and is nothing more than common starch. Reduce it to an impalpable powder, put it in a muslin bag, and keep it in table drawer. Whenever you take your hands out of dish-water or suds wipe them dry with a soft towel, and, while yet damp, shake the starch bag all over them and rub it in. The effect is most agreeable.

THE FADED LEAVES.—The groves now present even a more beautiful appearance than they do in the happy Spring and Summer time. The leaves are changing their colors, although the spruce and pine, and a few others, retain their dark green foliage. This is said to be "the most sadest season of the year," as it reminds us of the passage that "we all do fade as a leaf." Of late years it has become a custom with many to gather the leaves, to assort and admire their different hues and colors. Employment of this kind is elevating and exalting in its character, and leads the mind to a study of the wonderful ways of nature. In a few weeks the groves will be entirely bare and deserted, so that it would be advisable for all lovers of the beautiful to make a last pilgrimage to the woods before cold winter sets in in earnest.—*Ex.*

THE PREMIUM ENGRAVING issued by "Peterson's Magazine," for 1875, is really one of the most beautiful and costly we have ever seen. It is not one of those cheap, colored lithographs, with which the market is flooded, but a first-class, and excellent engraving, executed in the highest style of art, after an original picture by J. W. Ehninger, and cost as the publisher assures us, two thousand dollars, in all. No premium of equal value, he asserts, will be offered by any magazine for 1875. The subject is "Washington's First Interview With His Wife." The story is quite romantic. Washington, on his way to join Gen. Braddock, in the great French and Indian war of 1775, stopped, with his orderly, at the White House, since so celebrated in the Virginia campaigns of McClellan, Lee and Grant. Here he met a young and beautiful widow, with whom he was so fascinated, that the orderly, instead of being summoned within half an hour as he had expected, led Washington's horse up and down nearly all day, while his enamored master was listening to the gay sallies of the charming Mrs. Curtis. The result is a matter of history. Mrs. Curtis became the wife of the great hero, and was known in after years as Lady Washington. This is a picture that ought to be in every household. You can get it gratis, by raising a club for "Peterson" for 1875, or by remitting $2.50 for it and for the magazine. This is a rare chance.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

A NEW INVENTION.—*A Plow Sulky* that you can Ride and Plough, and any Plow can be attached to it. Boys, old men, Cripples or any person that can drive a team, can do the best of plowing, more of it, with fewer Plow Shears and with less draft for the team, than can be done by hand by the best of plow-men, and that in dry, rough and stony ground, and the most of the ground ploughed with the Sulky, will do with one less harrowing, than that ploughed by hand.

The reason why the Plow runs lighter attached to the sulky is because the weight of the plow and Furrow is carried on the wheels, it has been tested with a Dynomometer, and found to run twenty-five per cent lighter than by plowing by hand, and that with the weight of a man on the Sulkey.

The reason why you can do more plowing with the sulkey is, that there is little or no time lost by your plow running out, and then backing, as it is almost impossible for the plow to jump out when attached to the sulkey, even in dry and stony ground

The reason why you can do better plowing with the Sulkey, is that the plow is so attached to the sulkey that it must take an even depth and width furrow.

The reason why any person that can drive a team can plow with the Sulkey is that they have nothing to do but to drive.

The Reason why it takes fewer plow shares in plowing with the Sulkey, is that the plow runs perfectly level and wears the share level on the bottom.

The reason why the Sulkey suits old men is that they can hold or fasten an umbrella over them and do not need to fear sunstroke.

The reason less harrowing will do in Sulkey plowing, is that the sulkey plows an even depth and width furrow which leaves the ground much smoother than can be done by hand plowing.

The reason why it is less expensive to plow with the Sulkey is, that you can hire a boy at 40 cents per day, where you would have to pay a man a dollar per day to plow by hand, saving 60c per day, a plow share at 75c that would last two days in stony plowing by hand, would last four days with the Sulkey, making a gain of 18½ cents per day and the average gain of time with the sulkey over hand plowing, in hard ground is one third say 2½ acres per day with the Sulkey and 1½ acres per day by hand plowing which is a gain of ½ acre per day allowing $3.00 per day for plowing would be a saving of $1.50 per day.

Total gain per day for sulkey $2 25½ the difference in the time saved in the harrowing of the sulkey plows and hand plowed ground we have not accounted for, neither have we for the difference in the crops of good and bad plowing but all know the difference in crops raised on good or bad plowing is great, the above calculation is made for hard ploughing, where in hand plowing the plow would jump out of the ground very often, and will not with the Sulkey, and the reason why we make the above assertion is, that we are able to convince one and all that they are true and ask the farmers of Snyder and Northumberland counties, to select their best hand plowman set their day and give us a trial, and we will convince them, not only that the aforesaid is true, but that the J. L. Vanzander Patent Plow Sulkey is one the best Farm implements now in use.

The undersigned having purchased the right to manufacture and sell the Vanzander Patent Plow Sulkey, in the counties of Snyder and Northumberland, do hereby notify the farmers of said counties that we are prepared to deliver Sulkies to all wishing to give them a trial. Price $40 when delivered by agents, a reasonable deduction will be made when ordered in lots of four and more to be delivered at one time and place, or when the purchaser takes them from the factory at Sliffer, Walls & Shriner, Lewisburg, Union county Pa.

In ordering Sulkies please state whether you use right or left hand plows and we will deliver you Sulkies to attach your own plows to.

All orders must be addressed to

WILD OATS.

PROSPECTUS FOR 1875.

THE CHAMPION AMERICAN

COMIC PAPER.

ILLUSTRATED by a corps of the best American artists, and CONVULSES us to by the most popular humorists and satirists of the day.

WILD OATS now enters successfully upon the sixth year of its existence, and has become the established humorous and satirical paper of the country. It was started and sent mail the first year as a monthly then, to satisfy the demand of the public. It was changed to a fortnightly. Still con fined to the work of hitting folly as it flies, and showing up the political and social shams by its masterly cartoons and pointed editorials, it achieved even greater success than before, and was recognized as the artist and brightener of its class since then we have yielded still further to the public demand, and now publish WILD OATS weekly! It has lit rally grown into its present shape on its intrinsic merits, being the first out-and-out weekly humor one paper ever published in this country.

Among the artists especially engaged to furnish illustrations for WILD OATS are Frank Bellew, Thomas Worth, Hopkins Wales, Shelton, Wolf, Jume, Keettles, Stuckhardt, Day, Poland and several others who are yet unknown to fame.

In its literary departments WILD OATS will as it always has, stand alone and unapproachable. At least one first class serial story will always be found in its pages by the best humorous satirical and character writers in the United States while its sketches and squibs will be sparkling, original and pointed.

WILD OATS will be first-class in every particular, and as such it may be taken into the best families without fear of objection, as no word or illustration will appear that can offend the most fastidious.

HAVE YOU TRIED

JURUBEBA

ARE YOU

Weak, Nervous, or Debilitated?

Are you so Languid that any exertion requires more of an effort than you feel capable of making

Then try JURUBEBA, the wonderful tonic and invigorator, which acts as an immediately on the secretive organs as to impart vigor to all the vital forces.

It is no alcoholic appetizer, which stimulates for a short time only to let the quarer fall to a lower depth of misery, but it is a vegetable tonic acting directly on the liver and spleen.

It regulates the Bowels, quiets the nerves and gives such a healthy tone to the whole system as to soon make the invalid feel like a new person.

Its operation is not violent, but is characterized by great gentleness; the patient experiences no sudden change, but marked results, but gradually dis tri bu tes

"Fold their tents like the Arabs,
And silently steal away."

This is no new and untried discovery, but has been long used with wonderful remedial results, and is pronounced by the highest medical authorities as the most powerful tonic and alterative known.
