—Robin redbreast has put in his appearance.

—The public Schools in this place will close about the first week in April.

—The high piles of snow upon our streets have been thawing rapidly and miniature rivers continually run down the gutters.

—It is said that the frost has extended to the depth of three feet. This is no consolation, as the potato bugs are blest with at least four feet.

—It is hard to realize, says an exchange, that in four short months we'll be putting large fall grown leaves into our hats as protection against sunstroke.

—We learn from our exchanges that a great many crows, partridges and other birds have perished from hunger and cold during the recent cold weather.

—The best medicine—cheerfulness and temperance. The best music—the laughter of an innocent child. The best conscience—he who pays his paper in advance.

—A man was lately fined $50 for selling strong drinks at a public sale. This should be a warning to all hucksters, and farmers having such sales should see that this law is properly executed.—*Ex.*

—An exchange says: "Frozen potatoes are generally past recovery, and it may not come amiss, at this season, to publish the fact, for which eminent chemist vouches, that plunging them in cold water for six days previous to cooking will make them as good as new.

—This rigorous winter, which seems to have determined to keep right along, has caused many good ladies to vow that they "will never, no never, try to keep another house plant through the winter." But next winter they will have twice as many to nurse as they had this winter. Just wait and see.

—B. F. Burroughs, capital Engineer always comes in for a large share of newspaper encomium for himself as well as Engineer, and more especially on courtesy extended to his many friends who visit Harrisburg during the session of the Legislature. Frank is decidedly and justly popular. Long may he waive.

—Hon. G. Alfred Schoch, our member of the Legislature, returned home on Friday last looking as well as usual. Our member is not noisy or pretentious, but intelligent and capable; possesses good, sound judgment and discretion and will always be found supporting sound measures and wise policies.

An Old Clock.—John C. Kreitzer, Esq. is the owner of a clock made in 1705 which is in a sound and healthy condition, except one wheel which is being replaced. Three quarters of a century before the declaration of Independence it first chimed the hour, and for a hundred years has measured the passing hours of a free government, and with proper care will still proclaim the time flies long after its present owner has gone to the happy land of Canaan.

Change in Postage.—Hereafter the postage on all third class matter, which comprises all transient newspapers, periodicals, books, merchandize, samples, and everything of a miscellaneous character allowed to be transported in the U. S. mails, will be one cent *for each ounce* or fraction thereof in weight, instead of one cent for every two ounces or fraction thereof, and this class of matter *must be fully prepaid* by stamps attached to it, or it will be held for postage and sent to the Dead Letter Office at Washington, D. C. The act making this change of rates was approved March 3, 1875.

Easter Day.—In the ancient church the celebration of Easter, called the "Sunday of Joy," commemorative of the resurrection of Christ, lasted eight days. After the eleventh century, it was limited to three and in later time to one and two days. Even the clergy formerly joined in the popular sports, reciting stories and legends from the pulpit with a view to evoking laughter. The most characteristic rite of the present observance of Easter and the one most widely diffused is the use of Pasch on Easter eggs. It always occurs on the first Sunday after the full moon, which happens upon or next after the 21st of March. This year the moon fulls on the 21st of March, which also happens to be Sunday. Therefore Easter falls on the following Sunday, the 28th of March. This is within six days of the earliest period on which it can occur. The earliest possible date for the occurence of Easter is the 22d of March and the latest the 25th of April. These extreme limits are, however, seldom reached. In 1761 and 1818 Easter fell on the 22d of March, but this will not happen again, neither in this nor the following century. In 1913 it will fall on the 23d of March. The latest Easters in this century and the following will occur in 1886 and 1943, and on the 25th of April.—*Ex.*

—If the old saying that a cold January and February bring abundant fruit and corn crops, then we may look for a glorious harvest next fall.

—Correspondents to this paper are again notified that **hereafter no notice** will be taken of **communications** &c written with a lead pencil, or on both sides of the paper, or which do not contain the author's full name.

—A. Beck proprietor of the Allegheny House, Nos. 812 & 814 Market St., Phila., is at present refitting and refurnishing his House. All those going to the city will find this a very good place to stop. The house is centrally located to all kinds of business. Accommodations good. Terms $2.00 per day.

—We learn from a truthful source that a family not a thousand miles from here were the possessors of over 100 chickens, and during the very severe severe cold weather, when the ground was covered over with snow, went away visiting. The services of a neighbor were secured to tend the flock with instructions to give the chickens 1 pint of corn a day. Nearly all were starved and frozen before their return; no less than forty died in one night. Are we too severe when we say that such people should be fed on frozen and starved chicken for about forty days, as a light punishment for their crime?

—Cut this out sheep and try it in earnest—it can do you no harm, and may be of service. There is no necessity of brain resulting from either diphtheria or croup, especially with the young, if the proper preventive is applied in time, and it is of service of every mother and nurse in the whole country. It is simple to spread common tar on a muslin strip, as you would prepare a plaster, and rub it around the neck and throat of the patient. Renew and supply fresh tar on the neck of the child [illegible] and diphtheria in almost every case fatal, we would advise those having it to try this remedy. There is nothing injurious in the tar, and therefore it can have no bad effect.

COMMUNICATED.

Mr. Editor:—

At the hour of early candle light on Tuesday evening of last week, could be seen quite a number of relatives and friends, of our mutual esteemed fellow citizen, Sheriff Sees, wending their way to the residence of the latter, for no other purpose than to partake of [illegible] prepared in our Worthy Landlords excellent style by assembling themselves together met to celebrate such an occasion.

At about half past seven the Sheriff presented his bride to the company, and after the formal introductions and congratulations were gone through with, all were ushered into the dining hall.

The scene of the abundance of good things being placed at by the guests, would require more space and time than we [illegible] suffice it to say the Gentlemen was such as would have done credit to such as are placed upon the tables of [illegible] to put upon record.

The remainder of the evening was passed away pleasantly. The company about 40 in number dined postponed to order, indeed a loathing war to the minutes furnished by the younger portion of the guests.

And in bidding bon the friends of the happy couple to reflect upon the gayeties of the evening.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Ingrowing or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dispenses the depression that follows languor the system. Even where no disorder appears, people feel better, and live longer for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

PURELY MEDICINAL

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is asked daily around, "What is the cause of the unparalleled success of Vinegar Bitters?" The answer is, that their remedial properties are derived from the roots of plants, and not from the vile, drugged, fancy, poisonous stuff that [illegible] the name of bitters, and the country is flooded with. They are the great blood purifier and a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the [illegible] qualities of VINEGAR BITTERS in the cure of every disease that is [illegible] are in search for health to the [illegible] Tonic, Aperient, Diaphoretic, Sedative, Counter-irritant and Antiseptic principle, [illegible] Vinegar Bitters [illegible] Invigorative and Anti Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful [illegible] ever sustained the [illegible] system.

No Person can take these Bitters according to [illegible] and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the Valleys of our great rivers throughout our country during the Summer and Autumn, especially [illegible] Liver Complaint, will be found [illegible] Bitters a speedy and certain remedy. Clear the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
