—The 4th of July comes on Sunday this year.

—Farmers are very much back with their work.

BIRDS' NESTS.—Those who wish to enjoy the pleasure and profit of having their houses and grounds visited by birds during this spring and summer, should now offer the proper inducement to secure that desirable end. Boxes and other fixtures intended for that purpose should be so situated as not to be easily approached by vermin that would disturb the little songsters. Material for building nests should also be strewed about or hung on the branches of trees and shrubbery. Raw cotton, matted threads cut short, moss, wool, hair, &c., thus placed within reach, will attract their notice and facilitate their operations. The pleasure derived from the company of young visitors will be fully doubled by having put up the fixtures.

MERCHANTS AND BUSINESS MEN.—A merchant or business man may as well try to get rich by closing his doors and concealing his goods from view, as to hope to succeed in business without advertising, while his cotemporaries are continually exhibiting their stock to the public gaze, and inviting call from purchasers. It is just as natural for the subscribers of a newspaper to buy from those who advertise in it, as it is for children to follow soldiers when on a parade. The simple fact of seeing certain goods published, week after week, has an irresistible attraction that will fasten itself upon the mind and never fails to guide the reader to the place at which his wants can be at once supplied. Every merchant of common sence knows this to be so; and yet many of them fail to resort to the very method to make sales which is used to induce them to make the purchases.—*Ex.*

BIG INVENTION.—Lloyd the famous map man, who made all the maps for Genaral Grant and the Union Army, certificates of which he published, has just invented a way of getting a relief plate from steel so as to print Lloyd's Map of American Continent—showing from ocean to ocean—on one entire sheet of bank note paper, 40x50 inches large, on a lightning press, and colored, sized and varnished and varnished so as to stand washing, and mailing, for 30 cents, and plain for tourists 25 cents, or mounted with rollers ready for the wall, and delivered post-paid anywhere in the World, on receipt of 50 cents. This map shows the whole United States and Territories in a group, from surveys to 1875, with a million places on it, such as towns, cities, villages, mountains, lakes, rivers, gold mines, railway stations, &c. This map should be in every house. Send price to the Loyd map Company, Philadelphia, and you will get a copy by return mail.

TREES ON BOUNDARY LINES.—There is no more fruitful source of trouble between owners and occupants of adjoining properties than to have a tree on the boundary line. Whether the question has ever been decided in our supreme court or not at common law, the parties to an action of this kind would have just such rights as are here cited in a case decided not long since by the New York court of appeals. The court said that a man has no right to the fruit growing upon branches of a tree overhanging his land, where the trunk of a tree stands wholly upon the land of his neighbor. But the law regards the overhanging branches as a nuisance, and they may be removed as such; or the owner of the land shaded may remove them if he is careful not to commit any wanton or unnecessary destruction in so doing. Where the trunk of a tree stands on the line, the owners of the adjoining land have a joint ownership in the tree and fruit, and neither one has a right to remove it without the consent of the other.

GREASE YOUR NAILS.—One of the scientific journals says: "Every farmer who had occasion to drive a nail into seasoned oak posts knows its liability to bend and break. If the point be moistened in the mouth it will usually drive more kindly. Oil is still better, but then it is inconvenient to dip each nail separately into it. Another point observed is that boards become loose eventually from the rusting of the nails, which communicating to the wood, causes not only an enlargement of the nail hole, but the wearing away of the nail itself, rendering the fence or building insecure. This may be prevented by heating any rough grease until it smokes, and then pouring it over the nails to be used. The grease will penetrate the pores of the iron, and cause the nails to last, without rusting, an indefinite period. Besides this, no trouble will be experienced in driving them into the hardest wood. The reason is that the coating of grease prevents contact of air, and, consequently, oxidation. Oxygen is the great destroyer of iron, and moisture is the infusing cause."

SPRING FEVER.—Simultaneously with the breaking up of winter and the increased power of the sun, comes to mankind a malady denominated "spring fever," but for which the term of constitutional laziness would be quite as appropriate. The complaint attacks all sorts—it spares neither the high nor the humble; the nobleman and the peasant, the millionaire and the beggar, all feel its enlivening influence. A general feeling of listlessness and inertha also pervades the brute creation, and even our mother earth seems to participate therein. Animals begin to loathe their food, and to search along the hedgerow for tufts of grass. Men and women, too, get tired of bread and butter, pancakes become a burden, and even beefsteak looses its charms. Appetizers are sought, found and indulged in—varieties used depending on the taste of the user. Horse radish does for one, lager for another, onions and vinegar for a third. Canned [illegible] slightly flavored with tin is brought into requisition, but after all the efforts made to [illegible] up an appetite," eating like labor becomes irksome. But warmer and more settled weather brings us around all right, for though burdensome, the complaint is not dangerous.—*Ex*

—It Commenced to snow on Monday night and is now, Tuesday forenoon, coming down fast. The beautiful is about eight inches deep on a level. That nasty Green almanac wants some more on the 27th inst.

THE CHAMPION REAPER AND MOWER.—Samuel Aurand, of Adamsburg, is agent for the above named machine. We can safely say that Mr. Aurand is just the man to act in that capacity and the machine he represents one of the best, in all respects, now in use. We bespeak for him a liberal share of patronage.

DESTROYING BED BUGS.—Take grease that was melted out of salt pork, melt it and keep it melted, put it with the feather end of a quill in every place where you can find a bug. It is necessary to see that the bed cords are entirely free from the pests and I will warrant that there will be no more trouble.

THE TAX ON NOTES.—And now the decision of that irrepressible United States revenue commissioner is to the effect that notes made payable at a bank must be stamped as checks are. Beware, and pay your tax of two cents for the estimable privilege of drawing your note or there will be a detective after you.

—Stetler, Stahlnecker & Co., Proprietors of the Excelsior Planing Mill, in this place are prepared to fill at short notice and solicit orders for all kinds of building material. Those erecting new or repairing old houses, or making any improvements whatever and want anything in their line of business, should not fail to address or call on this firm. They are competent workmen and render satisfaction in all cases. See advertisement.

THE ALLEGHENY HOUSE, Nos. 812 & 814 Market Street, Philadelphia, is being refitted and refurnished in the best of style, and all the modern improvements and conveniences. A Beck, the Proprietor, is a kind and obliging landlord, and spares no pains to make his guests comfortable. The House is centrally located to all kinds of business or amusement, and consequently will be one of the best places to stop at whilst in the city. Charges reasonable.

PLANTING TREES.—The season is near at hand for planting trees—particularly the more delicate fruit, such as peaches, plums, pears, grapes, &c., and we cannot too strongly impress upon the people of this section the great importance of devoting a small portion of their time and means to the growth of fine fruit. It is too common for persons to procure cheap fruit, plant it imperfectly, and then let it take care of itself, by which operation pretty much of the whole investment is wasted.

FRECKLES.—Among the annoyances which a looking-glass presents to many an otherwise fair face, are freckles. We do not vouch for the following, which may be good or not worth anything: Take one ounce of lemon juice, a quarter of a drachm of powdered borax, and a drachm of sugar. Mix them and let them stand till fit for use. Then rub it on the freckles occasionally. Or else take half a drachm of murate of ammonia, two drachms of lavender water, and half a pint of distilled water. Apply this with a sponge two or three times a day.

Sam. Matt. Fridy, now and for some time past Commission clerk in the office of The Secretary of State, is a candidate for Prothonotary, in Lancaster county. Although Sam. was born, raised and educated in a hemp field we are not able to state what views he entertains about twisted hemp, but we do speak knowingly when we say that he possesses more than ordinary business qualifications, excellent social qualities and will make one of the best Prothonotaries old Lancaster ever elected. We hope the fates are on Sam's side—(we know the fair damsels of Lancaster are)—then who doubts success.

SPELLING MATCHES.—Spelling contests are now going on in nearly every city and town in the State, and are largely attended with success. These matches are richly enjoyed, as they afford great amusement among the contestants. They are held in private parlors, churches, school houses, halls, &c., and occupy the place of exhibitions of a less beneficial character, to both the youths and aged. While they are instructive they create no little amusement to spectators, and the party who may win the prize, which is mostly a copy of Webster's Unabridged Dictionary, no doubt, feel encouraged in their progress of good spelling.—*Ex.*

Dyspepsia! Dyspepsia! Dyspepsia!

Dyspepsia is the most perplexing of all human ailments. Its symptoms are almost infinite in their variety, and the forlorn and despondent victims of the disease often fancy themselves the prey, in turn, of every known malady. This is due, in part to the close sympathy which exists between the stomach and the brain, and in part also to the fact that any derangement of the digestive function necessarily disorders the liver, the bowels and the nervous system, and effects, to some extent, the quality of the blood.

E. F. Kunkel's Bitter Wine of Iron a sure cure. This is not a new preparation, to be tried and found wanting; it has been prescribed daily for many years in the practice of eminent physicians with unparalleled success; it is not expected or intended to cure all the diseases to which the human family is subject, but is warranted to cure Dyspepsia in its most obstinate form. Kunkel's Bitter Wine of Iron never fails to cure. Symptoms of Dyspepsia are loss of appetite, wind and raising of the food, dryness of the mouth, heartburn, distension of the stomach and bowels, constipation, headache, dizziness, sleeplessness and low spirits. Try the great remedy and be convinced of its merits. Get the genuine. Take only Kunkel's which is put only in $1 bottles. Depot, 259 North Ninth St., Philadelphia, Pa. It never fails. For sale by all druggists and dealers everywhere.

Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unsightly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts upon the hair, giving it a rich, glossy tint, and a grateful perfume.

VINEGAR BITTERS

PURELY VEGETABLE — FREE FROM ALCOHOL — DR. WALKER'S CALIFORNIA — VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
