color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fonling the hair with a pasty sediment, it will keep it clean and vigorous.

Its occasional tise will prevent the hair search of the second rom turning gray or falling off, and onsequently prevent baldness. The estoration of vitality it gives to the calp arrests and prevents the formaion of dan truff, which is often so un learly and offensive.
