—Squirrels cannot be shot according to law until September 1.

—Don't fail to read the article, in our Business Locals, headed Campmeeting.

—The trout season will end on the 15th of August, when rods and lines must be laid away till the first of next April.

—Fishermen are not having much luck now-a-days, and complain that their efforts are not at all appreciated by the finny family.

—Green apples, just now, are as dangerous as Paris green, and as effective in ridding the world of human juveniles as the poison for killing potato bugs.

—After all the howling and starvation cries about the destruction caused by the potato bugs, potatoes sell at $1 per bushel for new and 25 cents a bushel for old.

—There are the Roman nose, the dish nose, the snub nose, and a diversity of other kinds of noses, but the ugliest nose is the one that pokes itself into other people's business and this everybody knows.

FRANKLIN AHEAD.—Two oats stalks were brought to this office last week week one day, one by Samuel Stetler and the other by Philip Spade, and each stalk is 5 feet 7 inches in length. Who can beet it?

—Burglars succeed in committing more depredations at this time of year than any other; cause—housekeepers are not generally careful to fasten the entrances to their dwellings, which fact is well known to pilferers.

—A fearful thunder shower passed over this place on Friday evening. It rained very fast. Middlecreek was very high on Saturday morning, and the lowlands bordering on it were all under water.

—There is no more certain way to build up a place than by encouraging good merchants, good papers, good schools and good people to settle amongst you. And this can best be done by spending your money at home when you are dealt fairly by.

A terrific hail and thunder storm passed over the western portion of this county on Friday last. We learn from good authority that hail fell as large as hulled walnuts. On Mr. Robert Smith's farm the oats was entirely destroyed and his corn torn into shreds.

BE CAREFUL.—Persons who are compelled to work in the sun cannot be too careful during this heated term. It would be much better, where it can be done, to go to work earlier in the morning and work later in the evening, resting during the middle of the day. The precaution should also be taken to keep a wet sponge or handkerchief on the top of the head. Instead of drinking so much water, keep a lemon by you, and when thirsty take a suck of it, and the thirst will be alleyed.

WELL AGAIN.—We are pleased to learn from our friend, Mr. E. S. Bowersox, from Lindsey, Ohio, who had an attack of typhoid fever, while visiting his friends in this county, at the time of his father's death in Centre township, in June last, is in good health again. Mr. Bowersox is the proprietor of the Lindsey House, at the above mentioned place, and does also an extensive business in groceries, provisions &c. Mr. B. is a man of rare business tact.

BIG SNAKE.—Last week Mr. James Mabin, of this place, who is a track hand on the railroad, caught alive in the vicinity of Bixler's Gap, the grandmother rattlesnake of this region. After extracting its fangs, he brought it to town in his coat pocket, and then, securing it in a box with a glass lid, sold it to Mr. H. M. Sciple, who has it now in his possession. It is an ugly reptile, with a scaly-looking, spotted skin, and a button and 32 rattles at the end of its tail, indicating that it must be 25 years old.—*Lewistown Democrat 5th inst.*

HOW TO PURIFY SINKS.—In hot weather it is almost impossible to prevent sinks from becoming foul, unless some chemical preparation is used. One pound of copperas dissolved in four gallons of water, poured over a sink three or four times will completely destroy the offensive odor. As a disinfecting agent, to scatter around premises affected with any unpleasant odor, nothing is better than a mixture of four parts of dry plaster of Paris to one part of fine charcoal, by weight. All sorts of glass vessels and other utensils may be effectually purified from offensive smells by rinsing them with charcoal powder, after the grosser impurities have been scoured off with sand and soap.

BE KIND TO YOUR HORSE.—The hot weather is here now, and those who have a kindly feeling for their horses will be more than usually careful of their health and comfort. The brain of the horse is very sensitive, and if he is exposed to to the intense heat of the sun without protection, his health and strength will be materially injured. In the heats of summer the wild horse will seek the shade of the woods, and will not graze at that hour, but in his domesticated state he is forced with reckless cruelty by many to perform the heaviest labor without protection from the summer heat. The mouth of the horse should be frequently bathed with cool water; and a covering of shady leaves provided for his head while engaged in farm work during this sultry weather.

A SNAKE STORY.—The Lewisburg *Journal* Aug. 4, says: On the farm of Mr. Jacob Pileegor, near Chillisquaque, is a large log which floated there with the high water of 1865. The other day, Ellis Pileegor (a son) and another man were loading hay, and having started the load to the barn, they were walking there carrying each a hay fork, when they noticed two copperhead snakes lying on this log. One of the men proposed that they kill the snakes. They succeeded in doing so, when they seen the tail of another projecting from the log, which had become rotten and hollow. This one was also killed, and they kept stirring them out of the log until they had slaughtered seventy-six snakes, all copperheads. One escaped. The largest measured three and a half feet in length. Strange to say, Mr. Pileegor had not seen this species of snake on the farm for a year previous, and imagined there were none about.

—A cow belonging to Levi Stuck of Franklin twp., had one of her legs broken on Friday, by a stroke of lightning.

SUMMER DRINKS.—As some of our readers would perhaps like to make a wholesome summer drink occasionally we copy the following receipts from one of our exchanges:

Metheglin.—Sweeten twenty gallons of water with honey, and put in a cask, shake it well for a day, then stir in a half pint of yeast, hop water from four ounces of hops, and shake the cask well and leave it stand with the bung out and kept full with sweetened water until fermentation is over, after which tighten the bung to exclude the air, and at the tap can be drawn a good drink of honey beer.

Ginger Beer.—Take two gallons of water, two ounces of ginger and two pounds of white sugar, boil twenty minutes, take off the scum and strain in a pan, then slice a lemon fine and half an ounce of cream of tarter to be put in while hot and when nearly cold put in a teacupful of yeast, stir well and let it stand a day or two to ferment, then bottle and tie down the corks.

Spruce Beer.—Stir a quart of molasses into a gollon and a half of water, then put 25 drops each of oil of sarsafras, spruce and winter green into a quart of boiling water, and stir for a few minutes and pour all together when it should be about lukewarm. Then stir in half pint of yeast and let it work a day when it will be fit to drink.

Standing Committee.

According to previous notice the Standing Committee met in the Courthouse, on Saturday at 1 o'clock, P. M. Wm. H. Beaver of this borough was elected Chairman and C. F. Meyer Secretary for the ensuing year.

J. H. Arnold, Wm. Harding and John S. Reaver were appointed a committee on resolutions and reported the following which was unanimously adopted:

We the Standing Committee representatives of the Republican party of Snyder County, in Convention assembled, this 7th day of August, A. D. 1875, in recognition of the indisputable fact that our party has shown to the civilized world that self-government is not an experiment, but a reality—that by reason of the integrity of its chosen leaders the Government has prospered and now to-day stands at the head of nations—that, believing our party interests are paramount to the personal interest of individuals, however meritorious, it is our duty to discourage at this time all local dissensions; because, we are now laying an important campaign. The opposition which connived at dissolution, raises its head and laughs with a sort of hellish triumphant smile at our disagreements as if it were a signal of success. Let us to-day determine, that there shall be peace, harmony and unity of action. Let us, if any are aggrieved sacrifice ourselves for the sake of a party which took the place of two great political parties the one Whig, remarkable for its purity, morals and in ours—the other defunct, but striving to raise its head:

Therefore, we the Republican Standing Committee of Snyder County do Resolve:

RESOLVED, 1st. That the administration of John F. Hartranft meets the full favor of the people of Snyder County and that we will heartily support him at the coming election.

RESOLVED, 2d. That we will heartily support Henry Rawle for State Treasurer.

RESOLVED, 3d. That hereafter none but strict Republicans vote at our Primary Elections.

RESOLVED, 4th. That the officers of our Primary Election consist of one Judge, one Inspector, one Clerk, who shall be sworn as officers of the General Election, and shall surrender to the Return Judge one copy of the List of voters, one Tally List, and one Certified Return and his credentials be attached thereto.

RESOLVED, 5th. That we will bury the hatchet and smoke the calumet of Peace. That we recommend the Republicans of Snyder county to support the ticket, the whole ticket; and that we further recommend that if any of our public journals refuse to support the ticket in nomination that they are not worthy of support.

On motion adjourned.

DEMOCRATIC COUNTY CONVENTION.—On Monday at 1 o'clock P. M. the delegates of the different districts met in the Courthouse, and after a good bit of canvassing, made the following nominations for the different county offices:

Judge—Philip Hilbish, Selinsgrove.
Sheriff—Daniel Renghart, Washington twp.
Commissioner—Moses Krebbs, Adams twp.
—John Norman, Franklin twp.
Treasurer—Geo. Schnee, Perry Twp.
Auditor—Wm. A. Glass, Freeburg.
" David Reber, Chapman Twp.
Coroner—A. J. Specht, Middleburg.

BUSINESS LOCALS.

Is Your Life Worth 10 Cents?—Sickness prevails everywhere and everybody complains of some disease during their life. When sick, the object is to get well; now we say plainly that no person in this world that is suffering with Dyspepsia, Liver Complaint and its effects, such as Indigestion, Costiveness, Sick Headache, Sour Stomach, Heart Burn, Palpitation of the Heart, Depressed Spirits, Biliousness, &c., can take Green's August Flower without getting relief and cure. If you doubt this, go to John A. Moatz, Middleburg, Pa., and get a sample bottle for 10 cents and try it. Regular size 75 cents. Two doses will relieve you. [July 22 75 1yrf

CAMPMEETING.—Providence permitting, there will be a Campmeeting held under the auspices of the Evangelical Association, on the Lands of Uriah Berger, about one mile Southeast of Centreville, Snyder county, commencing Friday, August 20th, 1875.

There will be a Boarding Tent kept by SAMUEL BOWER, of Middleburg, where all attending said meeting who are not otherwise provided for, can be accommodated with good boarding, at reasonable rates. All other persons, and especially Hucksters, are hereby notified that the lands of the following persons have been leased during said meeting, viz: Lands of Boyer's heirs, J. Bailey's, Mr. Snook's and Henry Grubb's. Warning is hereby given to all whom it may concern that no Trafficking or Huckstering will be allowed on any of said premises.

Our desire is to hold peaceable and quiet, as well as undisturbed, religious exercises at this meeting. We respectfully ask all good citizens to aid us.

By order of Committe,
Uriah Berger — Geo. Steininger,
Wm. Bowersox — D. W. Miller,
B. F. Anthony.

Manhood: How Lost, How Restored!

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure without medicine of Spermatorrhœa or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Paydeal Incapacity, Impediments to Marriage, etc., also, CONSUMPTION, Epilepsy and Fits, induced by self-indulgence or sexual extravagance, &c.

Sent free, in a sealed envelope, only six cents.

The celebrated author in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞This Lecture should be in the hands of every youth and every man in the land.

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power, and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves innumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence, and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as remarkable as the greatest it has ever effected.
