Tuesday, March 28, 1876, in West Beaver twp., at the residence of Elizabeth Lambert, 3 Horses, Colt, 4 Cows, Young Cattle, &c. &c.)

—The good citizen sprinkles salt, saw dust or ashes on the pavement on slippery days.

—Bring your sale bills to this office if you want them done at short notice and in a satisfactory manner.

Last Wednesday night it was very stormy, and we learn that several houses in Franklin twp., were unroofed.

—There was good skating on the pavements on Thursday morning, and a number availed themselves of it to glide about town on skates.

The New York fancy store, at Selinsgrove, has been moved into Heme's building opposite the Keystone Hotel. Remember it when you go to Selinsgrove.

—A short time since Daniel Knoble, of Shamokin township, Northumberland county, lost three head of cattle. They licked the paint off a newly painted wagon one evening and died the next day.

Of all rents the ground-rents we think are the hardest to pay. *But* nevertheless, they must be paid, unless bought, to time indefinitely. Yes, one two or three dollars a year, as the case may be, for two or ten thousand years to come.

This being the year to make the Triennial assessment, it should be borne in mind that two assistant assessors must be elected in every borough and township at the approaching February election, to be held the third Tuesday of this month.

Many of the good resolutions formed on the first day of the New Year have already been broken. Thus it is ever, and will be till the end of time. Sad but true. Good resolutions from the frequency of their violation become all the easily more broken.

—The house of Michael Klingler in Jackson Township, not far from Kratzerville, was destroyed by fire on Tuesday night a week. Mr. Klingler was at a neighbor's when the fire was discovered and it is not known how the fire originated. Nothing in the house was saved but a sewing machine.

Theos. Swineford, with Kaub & Frymire, No. 301 & 303 Cherry St., Phila., Wholesale Dealers and Importers of Glass and China Ware, is now making his usual visit to his numerous patrons, prior to the opening of the Spring trade.

Theos. is as active and clever as ever, and we bespeak for him a liberal patronage.

Never in the history of this country has there been such a general awakening upon the subject of religion as now. It is estimated that in Pennsylvania alone a half million of people assemble nightly for prayer to God. The indications are that the Centennial year will be ever remembered as the great anniversary of the Christian Church.

—The Lykens *Register* of Jan. 28, notes the arrest of a straggling thief named Rubendall who not long ago escaped from the Snyder County jail where he had been confined for forgery. Officer Hawk telegraphed the arrest of Reubendall to Middleburg. But what was done we know not. It is likely, however, that the telegram passed Middleburg and ran into Shade Mountain! —*Times.*

—The Ground Hog saw his shadow on Wednesday morning, and ran back to his hole as fast as his legs could carry him, there to remain another six weeks. So, according to a popular notion, we know exactly the kind of weather for that period—stormy and cold. This is the prediction of every one superstitiously inclined, and every neighborhood has its full quota of such persons.

Worth Remembering.—Persons dissolving partnerships, had better make a note of this item: Rev. M. H. Doyle, now a resident of the town of Huntingdon, had been a member of the firm of Dever & Doyle, millers, at Mount Union, but sometime since withdrew from the firm without publishing a "dissolution notice." A few weeks ago the remaining member of the firm failed, and Rev. Doyle is now held equally responsible owing to his neglecting the necessary publication.

Township and Borough Election.—According to section 3 of article 8 of the new Constitution, "All elections for City, Ward, Borough and Township Officers, for regular terms of service, shall be held on the third Tuesday of February."

The election therefore will be held on Tuesday the 15th instant. Polls open at 7 A. M. and close at 7 P. *M.*

To entitle a person to vote, he shall have resided in the district two months before the election. Any person who shall have removed from one district to another within sixty days, shall not be entitled to vote in either. To entitle a person to vote, he shall have paid a state or county tax within two years, which was assessed two months, and paid at least one month before the election. If he has lost his receipt, he can make affidavit of the fact.

Citizens ought carefully to elect good, competent men for all the offices to be filled. Of course, some of the offices don't pay, but they must be filled.

The protracted meeting in this place, in the U. B. Church, under the guidance of Rev. Weirick, the pastor in charge, has now been in progress about two weeks. A large number have presented themselves at the mourners' bench, and the church has been well filled every evening, all present apparently manifest a lively interest.

Centennial Babies.

Special Telegram to The Post by the Western Union Co. from our Domestic Correspondent.

The first Centennial babies—*rare, invaluable, divine blessings*—have been vouchedsafe to Messrs. B. T. Parks, Esq., and Chas. H. Boyer and their delighted Spouses, of Selina Grove. Your correspondent suggests as appropriate christian names respectively —"Yankee Doodle" and "Hail Columbia."

Among others the following bills were introduced in the State Senate last week:

To provide for the erection of watering troughs for the use of horses and cattle on the public roads of this Commonwealth.

An act empowering camp meeting associations to employ police force.

One of the Senators addressed the Senate on the subject of making ground hog day a legal holiday.

Days and Dates.—For the present year the days and dates of important events, anniversaries and holidays will fall as follows: Valentine's day, Monday February 14th; Washington's birthday, Tuesday, February 22nd; Shrove Tuesday, (Fasnacht), February 29th; Ash Wednesday, March 1st; beginning of Lent, Friday, March 17th; Good Friday, April 14th; Easter Sunday and Monday, April 16th and 17th; Ascension day, Thursday, May 25th; Whit Sunday and Monday, June 4th and 5th; Centennial, Tuesday, July 4th; Christmas, Monday, December 25th.

The Phrenological Journal and Life Illustrated for February, 1876, is worthy of the highest commendation from moral and intellectual points of view. Its matter scientific, biographic, and miscellaneous—bears the stamp of a judicious selection adapting it to the comprehension of a numerous constituency. Its stories and sketches are particularly admirable. Among the subjects treated in the number are: Secretary Bristow; The Human Soul—its Origin, Nature and Functions; Responsibility in Parentage; Tobey Riddle the Heroine of the Modoc War; &c. Price, 30 cents for the number—for the year, $3. S. R. Wells & Co., New York.

How to Make Mischief.—Keep your eye on your neighbors. Take care of them. Do not let them stir without watching. They may do something wrong if you do. To be sure, you never knew them to do anything very bad, but it may be on your own account they have not. Perhaps if it had not been for your kind care they might have disgraced themselves long ago. Therefore do not relax any effort to keep them where they ought to be. Never mind your own business—that will take care of itself. There is a man passing along—he is looking over the fence—he suspicions of him: perhaps he contemplates stealing one of these dark nights; there is no knowing what queer fancies may have got into his head.

If you find any symptoms of any one passing out of the path of duty, tell every one else what you see, and be particular to see a great many.

It is a good way to circulate such things, though it may not benefit yourself, or any one particularly. Do keep something agoing—silence is a dreadful thing; it is said there was silence in heaven for the space of half an hour: do not let any such thing occur on earth; it would be too much for this mundane sphere.

Hydrophoma.—A mad dog passed through Georgetown, about sixteen miles below Sunbury, on the 10th inst., and bit everything of life it met. One of the residents of the town, whose name we did not learn, was bitten in the arm, and a colt three years old, a cow and dog belonging to the man were also bitten by the savage brute. Last Wednesday, the ninth day after the visit of the rabid animal the colt showed signs of hydrophobia, and for three succeeding days, until Friday, when he died, raved most piteously. He tore his flesh and bit himself and everything he could reach. The people for miles around came to see the poor animal and the sight he presented was pitiful in the extreme. Death stopped his suffering on Friday last and grave apprehensions have since been entertained about the man. Dr. Kershner has expressed the opinion that unless something is done to counteract it, the terrible disease will make the bitten man a victim as well as his cow and dog. The doctor wanted to cauterize the wound but the man had no faith in the treatment and says he will take the chances. His case will be anxiously watched by his neighbors and friends. —*Sunbury Democrat, 27th ult.*

—It is predicted that this will be the most prosperous year the land has ever seen. The country will be full of money. We wish it might be so.

THE PRUDENTIAL LEAGUE.—

A Word to the Thoughtful.—If you wish to learn of the broadest, most comprehensive, and most practicable plan for guarding against the vicissitudes of *Health*, the consequences of *Death*, the necessities of *Old Age*, the results of *Accident*, and to provide other benefits resulting from *organized* union of effort: Of a plan whereby the members may form their own local councils, meeting once a month for business and social purposes, paying their dues in convenient monthly installments, and being assured?

1st. That in the event of the *Death* of a member, his family shall receive not less than one *Thousand dollars*, and from that upward in proportion to his payments.

2nd. If overtaken by *Sickness*, a compensation of from $7 to $35.

3rd. If disabled by *Accident*, the receipt of a substantial sum.

4th. A *Deposit* definitely expressed in the Policy and to be drawn out by the member as it provides.

5th. A *Cash Dividend* pledged to be paid from surplus earnings, &c. &c.

Egypt---Letter From the West.

Venedy, Washington Co. Ill., Feb. 4th, 1876.

Mr. Editor:—Some few days ago I was agreeably surprised in receiving my mail, to find among it a copy of "The Post." Thanks to the sender. Having been a citizen of Snyder county many years ago; hence, anything coming from there I hail with joy. In perusing its pages, I notice the names of a number of old and former acquaintances. Many changes have taken place since my departure from the "Old Keystone." People have been born and died, railroads have been built, whiskey rings have been organized and broken up, fortunes have been made and lost, and while all this occurred, I have been like Abraham of old, sojourning in the land of "Egypt" and your county of Snyder is yet where it always was. The word Egypt, as here used is a *nickname* for southern Illinois, and is familiarly known throughout the State.

This part of the State is mostly prairie, the soil is very rich and productive wheat is the main article raised although corn, oats, castor-beans and potatoes do well if the season is favorable. Our mills are numerous, and some very large and costly, there is one at Nashville four County Seat which is said to have cost one hundred thousand dollars including its machineries &c. This mill turns out about four hundred barrels of flour every twenty-four hours when it is in regular running operation. Some years ago when times were better and money was flush, these mill fronts made money fast—in fact so fast that it induced many other parties to embark in the milling business. Washington county has no less than about a dozen, of which during the past three years half of them "busted." The weather this winter has been remarkably fine, people have been spared a vast amount of fuel, farmers were seen ploughing with their coats off at about the holidays, and in some counties sowing Spring wheat. On Wednesday it commenced to change, "Jack frost set in," the weather became colder, and snow began to fall, which is about five inches deep. Sleds are running. More anon. S. F. W.

To all Interested in the Education of the Children of the County.

Dr. Wickersham, in his report for 1872, quotes from the U. S. Commissioner's report for 1870, two important paragraphs on the value of education to persons engaged in all kinds of business. He says: "Gen. Eaton's conclusion as stated in his report, are made up from answers to inquiries addressed to hundreds of persons in all parts of the country and engaged in all kinds of business—employer, employed, and impartial observers. He states 'that the value of the laboring man to the community at large is positively increased, and his power as a producer, of adding to the common stock of wealth, is materially enhanced by the education given him as a child in the common school. The increase of wages he will receive on account of his knowledge is put at various figures averaging near 25 per cent. That this increase of value arises, 1st, from the fact of his being more readily instructed in the duties of his work; 2d, that he needs less supervision; 3d, that he does his work to better advantage and therefore produces more in a given time; 4th, that he is less liable to join in unreasonable and unnecessary strikes; 5th, is more industrious; 6th, is less liable to become an expense to the Commonwealth through poverty and crime.'"

I have given only one of the paragraphs referred to above, but think it sufficient for the purposes of this article. Taking then Gen. Eaton's conclusions as facts the duty of every right-minded citizen is to encourage the common schools; to do all that in his power lies to give the rising generation an education. One of the most potent ways of doing so is to elect suitable men as directors, and as the time for the election of township and borough officers is approaching, I regard it a duty to call your attention to the importance of well considering whom to elect as directors. In selecting your candidates you virtually say whether you want the children of the county to grow up intelligent beings, governed by reason, and capable of forming correct opinions of their own; or whether you prefer them to grow up in ignorance, governed by nothing but prejudice, and with no opinions but those they receive from others. The office of school director being one of the most important ones in a district, it should be filled by none but men of enlightened views. To elect any other class is to do one of the grossest wrongs to the children that any one can be guilty of. Much rather cripple them in body than dwarf them in mind.

A father who neglects his duty towards his children in seeing that they start in life with a good intellectual outfit, should neither pretend that he cares for their future welfare nor that he loves them. Indeed is more shameful on his part than to act heartlessly towards his own children—to pretend that he is concerned for their future success in life, when at the same time he is depriving them of the means of fitting themselves for positions of honor and usefulness.

Some of our districts are very far back yet in school matters, and certainly should make a move for the better. Really any one unacquainted with the boundaries of the townships, could in a number of cases readily tell, by the difference in the condition of the schools, that he had gone from one township into another. Is this deplorable state of things a credit to the again which we live? and shall it continue?

In every district there are men who would make good directors; but some of them, on that account, could not be elected; and others would not serve if they should be elected. The office is not a desirable one. Their is no honor connected with it, no matter how faithfully one discharges his duties. To the shame of some of our districts it must be said that the more faithfully and conscientiously the public is served by a director, the more abuse and censure he receives and the more unpopular he becomes. Hence to be a faithful director requires much moral heroism than most men possess. It must however be said to the credit of a number of the present officers, that they have nobly discharged their duties—without any regard as to what might be thought or said of them—and it would be as much of an advantage to the districts as it would be an act of justice to the individuals to re-elect them.

I hope that the utmost wisdom will be shown in the election of the officer in question, at the coming election. No suitable man should be defeated from impure motives, as is too frequently done.

It appears to me too that our ministers have a duty to perform in this matter—that they should from their pulpits urge their members to use their best judgment in selecting the guardians of their children's education. In conclusion I urge our people to lay aside all prejudice, of whatever kind, and to elect the best men that can be found willing to serve.

SAVES FUEL! SAVES LABOR!

THE NATIONAL STEEL TUBE CLEANER.

(Patented July 20th, 1874.)

Carbon is one of the worst conductors of heat known; a deposit of 1-32 of an inch on the tubes causes a loss of 15 per cent. of fuel.

This Tube Cleaner is made of spring steel. Each segment is of like spring, and extends in a perfect circle so as to press against the inside of the tube, removing all the carbon and scale without the slightest injury to the tube.

Guaranteed to clean better, last longer, and work easier than any in the market. Adopted and in use by the U. S. Navy. For sale by dealers. Send for circular.
