

Middleburg, June 15, 1876.

J. CROUSE, Editor & Proprietor.

Republican State Central Committee.

HARRISBURG, June 3.—The members of the Republican State Central Committee are requested to meet at the Leobach Hotel, Harrisburg, on Wednesday, the 21st inst., at 2 o'clock P. M. Important business will be transacted at this meeting, and a full attendance is desired.

HENRY M. HOYT, Chairman.

A. WILSON NORRIS, Secretary.

The Hon. J. D. Cameron entered upon his duties as Secretary of War on the first instant.

Tax indications are that every county in this congressional district will present a candidate to the Republican conference, except, probably, Huntingdon.

The Lancaster *Estimator* says the daily expenses of the Centennial Exposition are from ten to twelve thousand dollars, and the income averages fourteen thousand dollars. Who says it does not pay?

The treasurer of Saratoga, a clerk in the State Treasury department, and a clerk in the Auditor General's office, have been arrested, on complaint made by Governor Hartranft, for defrauding the State out of \$8,000, by false returns.

Dr. A. M. SMITH, of Beaver township, Snyder county, is a candidate for Congress in this district. Dr. Smith is a grand son of the late Hon. Ner Middleborough and is said to possess many of the sterling qualities of his honored ancestor—*Franklin Repository*.

The credit due the Republican party for good management of national affairs was never more clearly shown than in the light of present Democratic mismanagement. As scandal mongers the Democrats of the House may be a success, but as legislators they have proven a sad failure.

The Centennial Exposition is a standing monument to the valor and patriotism of those who saved the Republic, and thus made possible the celebration of our hundredth anniversary. Nor should the party that framed the measures which led to success be lost sight of in contemplating the grandeur of the Centennial Exhibition.

Gov. HARTMAN has selected Chester N. FARR, Jr., an attorney-at-law of Reading, as his Private Secretary, to succeed Major A. Wilson Norris, who was recently appointed State Reporter. Mr. Farr, by virtue of his new office, becomes Recorder of the Board of Pardons, and all communications relative to pardons will hereafter be addressed to him.

SPEAKER KERR denies that he took money for procuring an appointment in the army. What is queer about the matter is that he, as a Representative from Indiana, should interfere, as the facts show he did, for the appointment of a man from New York who had been turned out of the army by order of a court martial. It may have been innocently done, but it has an ugly look.

The anthracite coal business is in a very unsatisfactory condition so far as sales are concerned; the shipments are now reported with the majority of the trade to have very nearly approached the minimum, and the rates obtained hardly keep pace with the circular price current. It is to be remarked that the main business is now done in the broken and egg sizes, while the stove and chestnut are reported accumulating.

The delegates to the Republican National Convention are all chosen, and the New York *Tribune* publishes a carefully prepared table in which the following result is foreshadowed on first ballot:

Whole number delegates	756
Necessary to a choice	378
Blaine 302	Morton 130
Bristow 125	Conkling 87
Hartranft 58	Haves 46
Jewell 10	Washburne 1
unknown 16	

HARD ON DEMOCRACY.—Eight of the Democratic appointees in the House of Representatives have been forced to step down and out. This is hard on Democracy. Before the session is through more of the galvanized patriots will be unmasked. Even Speaker Kerr is in danger. He is charged with selling a cadetship in 1866. For the credit of the House and the honor of the American name we trust the charge will be disproved. As Democracy commenced throwing stones it would not be surprising if all its glass windows were smashed before it gets through the campaign.

The Boston *Absorbent* thinks that Blaine and Bristow—no matter how the names may be placed on the ticket—would make the strongest combination possible for the Republicans. At least that is what the *Absorbent* thought a few days ago. Since its opinion was delivered Bristow has produced the witness Mulligan (whom he has kept back until this critical hour) to utterly destroy Blaine as a candidate. In the meantime, people who really know something of what has been going on for three months past between Blaine and his partner, Bristow, stand aghast at the dense stupidity of a paper ignorant enough to seriously advise combining on one ticket the names of two men, one of whom has been so exposed that the hopes of the character

CONGRESSIONAL Committees are rather weakening in their efforts to defame the character of as many public men as they can. Speaker Kerr has been caught, and the game is getting a little less interesting. The examination of private letters, in the possession of persons not entitled to hold them, is certainly in bad taste, to say the least of it. Where is the matter to end? Is there no limit? A bad man may steal letters, and loy blackmail, or try to revenge himself upon any man he don't like, if the present form of investigation be encouraged to become fashionable.

IS IT A NEW HORSE DISEASE.—The *Hanover Herald* is an authority for stating that Mr. Samuel Starner, of Franklin township, Adams county, had five horses within five days, beginning on Friday of last week. On that day one died, and on Saturday, Sunday, and Monday and Tuesday, one each day. None were sick over twenty-four hours, except one who was sick about forty-eight hours. They had symptoms of poisoning, but it is thought that if they had been poisoned, all would have been poisoned at once. It is thought in the neighborhood, that the animals fell victims to a new and fatal disease.

HARRISBURG, AT CINCINNATI.—The Bucks county *Intelligencer*, whose editor is a delegate to the National Convention, says that the Pennsylvania delegation will vote steadily for Hartranft. If the convention should not be able to unite on any of the more prominent candidates and nominate our popular Governor they will do a good work. The *Intelligencer* says:

We hope that no one will misunderstand the position of the Pennsylvania delegates to Cincinnati in regard to Governor Hartranft. The delegation will, without a doubt, adhere to the choice of the Republicans of the State; and if by such persistence his nomination can be effected it will not be lost by any defect of theirs. Gov. Hartranft, outside of the State, has been making no campaign; he has sought for no delegates, and has had no friends working for him. But the prospect is that the leading candidates now will be very likely to defeat each other; that it may be difficult to bring a majority of the Convention to the support of any one of them. By steadily voting for Hartranft until the moment of disintegration and reconcentration is reached, the Pennsylvania delegates will present a nucleus around which the Republicans of the whole country may concentrate and unite upon a most acceptable candidate. It certainly will not be the fault of the delegates from the Eastern part of the State if this opportunity is not presented to the Convention, and we have no doubt that the Western men are animated by the same spirit.

We hear it intimated that there is a movement on foot to make Hon. John B. Packer, Congressman from this district, the Republican candidate for the Vice Presidency. It would be a good selection.—*Lebanon Courier*.

The Hon. John B. Packer, has long since been looked up to as a suitable candidate for either President or Vice President and should the candidate for President be chosen from the East or the West at the Cincinnati Convention, Pennsylvania should lay her claim for the next highest office in our government, and there are but few equally qualified, and none more popular in the Keystone State than Mr. Packer. He has served three consecutive terms in Congress and during a time too that corruption in every form crept into the government and surrounded all its officers, and we still find him as pure and as honest as the day he entered the halls of Congress. There are no allegations that can lead him astray from duty, and as his record will show, he has always labored for the interest of the masses that form an honest government—the laboring man and mechanic. The name of Hon. J. B. Packer on the Presidential ticket would give a host of strength not only in Pennsylvania but in every State in the Union. Pennsylvania is entitled to recognition, either for President or Vice President, and the man that she presents to the National Convention on the 14th inst., will have strength at home and abroad.—*Savbury American 8th inst.*

THE INSURRECTION IN CUBA.—Reports from Cuba all agree that the insurrection in that island is gaining strength continually, in spite of the most determined efforts of the Spanish authorities to crush it. The impossibility of reconquering the island begins to dawn on the Spanish mind, and the Captain General has become somewhat alarmed at the situation. The Spanish Government has empowered and authorized him to draw upon the Spanish Treasury for \$50,000 in gold daily, to meet the exigencies of the army.

A CARD TO THE AMERICAN PEOPLE.—For many years we have seen in the papers the announcement of a cure for all sorts of ailments, and we have seen many of these cures advertised, but they never were accompanied with them. But when a man of our country, our nation, our race, has been successful in curing his fellow man, and has no other means of making his name known, he will advertise his cure. To secure the people the benefit of his cure, we have secured the publication of his name, and we have secured the publication of his name, and we have secured the publication of his name.

REAPERS, REAPERS, REAPERS.
MOWERS, MOWERS, MOWERS.
RAKES, RAKES, RAKES.
The Kirby is a perfect separate or combined machine, and has the following characteristics: Simplicity of construction and ease of operation; Economy of material and strength of make, involving only one deration of wear and durability; Superiority of cutting apparatus; Adaptability to mowing; What more can farmers see. The superiority of the Kirby is not in its name, but in its performance. It is sufficient for every farmer in the country to be in possession of one.

The Itasca Horse Rake.
It is a simple, improved, and also more perfect than any other of the kind. It is a simple, improved, and also more perfect than any other of the kind. It is a simple, improved, and also more perfect than any other of the kind.

Answer—It is the *EXHIBITION*, for some of the most interesting and valuable exhibits in the world.

MARK THESE FACTS!
Holloway's Ointment.
The Testimony of the Whole World.

Bad Legs, Bad Breasts, Sores and Ulcers.
All descriptions of sores are remediable by the proper and diligent use of this invaluable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold severity in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat. This will cause the malignant humor to be drawn off from the base of the sore and discolored parts round about the wound, sore, or ulcer, and when these humors are removed, the wounds themselves will soon heal; warm bread and water poultices applied over the affected parts, after the Ointment has been well rubbed in, will soothe and reduce the inflammation, and will promote the cure. There is a description of ulcer, sore and swelling, which need not be named here, attendant upon the follicles of youth and for which this Ointment is urgently recommended as a sovereign remedy. In curing such poisonous sores it never fails to give relief, and in a few days the Ointment will be taken according to the printed instructions.

Diphtheria, Ulcerated Sore Throat, and Scurf and other Fevers.
Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat, and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the Ointment in the above manner for the diseases named, or any similar disorder affecting the chest and throat, will find themselves relieved as by a charm. All sufferers from these complaints should envelope the throat at bedtime in a large bread and water poultice, after the Ointment has been well rubbed in; it will greatly assist the cure of the throat and chest. To allay the fever and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, the great essential in the cure of fever, sore throats, or where there might be an oppression of the chest, either from asthma or other causes.

Piles, Fistulas, Strictures.
The above class of complaints will be removed by nightly rubbing the parts with warm butter, and the Ointment, and the use of the Ointment. Persons suffering from these diseases should not lose a moment in trying this Ointment. It should be rubbed into the parts affected, three or four times a day, that it may be taken into the system, where it will remove any humor that is accumulated, and will soothe the parts. There is a description of the Ointment, and of its use, in the printed directions accompanying each box.

Disorders of Youth—Sores and Ulcers.
Blisters, as also swelling, can with certainty be radically cured if the Ointment be used freely and at intervals. It should be rubbed into the parts affected, three or four times a day, that it may be taken into the system, where it will remove any humor that is accumulated, and will soothe the parts. There is a description of the Ointment, and of its use, in the printed directions accompanying each box.

Dropsical Swellings, Paralysis, and Stiff Joints.
Although the above complaints differ widely in their nature and in their treatment, the Ointment will be found to be a powerful remedy in all of them. It should be rubbed into the parts affected, three or four times a day, that it may be taken into the system, where it will remove any humor that is accumulated, and will soothe the parts. There is a description of the Ointment, and of its use, in the printed directions accompanying each box.

Bath the Ointment and Pills should be used in the following cases:
Bad Legs, Ulcers, Sores, Piles, Strictures, Dropsical Swellings, Paralysis, Stiff Joints, Dislocations, Sprains, Bruises, Burns, Scalds, Rheumatism, Gout, Gravel, Calculus, Hemorrhoids, Fistulas, Catarrhs, Strangles, Scrophulous Sores, Erysipelas, Carbuncles, Abscesses, Ulcers, Fissures, Cracks, Chapped Hands, Itch, Prurigo, Scabies, Ringworm, Tinea, Ringworm, Ringworm, Ringworm, Ringworm.

THE NEW "DOMESTIC,"
A DOUBLE THREAD LOCK-STITCH MACHINE.

IT retains all the virtues of the Light-Running "DOMESTIC," including the Automatic Tension, which was and is the best in use. It features our PATENT HARDENED CONICAL BEARINGS on both the Machine and Hand.

TO THIS STATEMENT AND THE MACHINE ITSELF
We invite the attention of all, especially those having high mechanical skill or observation. N. E. All Machines Fully Warranted.
