What, if calm, clear minds like John Sherman had thrown their white light upon the ask. What if the same process had black frauds of Alabama, Georgia, Mississippi, and Virginia ? We menthrown their whits light upon the tion these four States as examples. In Alabama, by the census of 1870, there were 94.791 white votes and 118 877 colored votes, and yet at the late election the democrats had in Alabama 35,000 majority in to Georgia there were 116,168 votes and 136,285 colored votes yet a Democratic majority of 75-70. In Mississippi there were 67,416 white votes and 111,050 colored votes, and yet at the late election 45,000 Democratic majority ! In

Perhaps, just here, it will not be amiss to explain the origin of this new term of "Bull-dozer." It originated in Mississippi. The "black-of order, to wit: Had the President snake" whip that teamsters use upon pro tem. of the Senate the right to their oxen or mules is called there declare or to decide whether, or not by a compound word, the first of the vote of the State of Wisconsin which is "Bull's." It is abbreviated should be counted? The President refused to entertain the question of giving the animal or "nigger" a dose of the bull, or bull's dose. The Kucklax and White League used that instrument to best Republicanism out of the negroes and oblige them to vote the Democratic ticket or keep away from the polls. Hence the name for these bands of roving scoundrels, "Bull-dozers," or "Bull-dozers." They pronounce it "Bull-dozers." They pronounce it "Bull-dozers." This is the real and only origin of the term, and the name is very significant and appropriate, as many a negro with a scarred back can term.
