—All communications, business letters &c., for this office, to secure prompt attention should be addressed as follows: THE POST, Middleburg, Snyder County, Pa. Advertisements, communications &c. must be handed in by Monday noon, to secure insertion in next issue

Committee Meeting.

The Standing Committee will meet in the Court House, at Middleburg, on Tuesday the 22th day of May (Court week) at 1 o'clock, P. M. A full attendence is requested, as business of importance will be transacted.

JAMES MIDDLESWARTH, Sec. C. P. MOYER, Chairman.

NEW VOLUME.—With this number we start a new volume of THE POST.—Vol. 15, No. 1. It is now over ten years since we became proprietor of the paper and must say that we have no reason to complain, and are very thankful for the encouragement we have received from time to time from every direction. Our advertising columns were so much crowded during the last year, that we are almost compelled to enlarge, and which may be one of the probabilities if we continue to receive the same liberal patronage as heretofore. It shall be our object, to make this volume of the paper, all we can to please our patrons and the public, and at all times confine ourselves to facts before giving publicity to articles in our columns; in short, our object is do right let come what will.

A few shad are caught nearly every day below the Shamokin dam.

The farmers are already harping about a short crop of appies this fall. The trees are short of blossoms they say. It may be mere conjecture, however.

The time draws on apace when good little boys may be seen along the banks of the creeks drying their hair in the sun.

So far the indications are in this vicinity that the potato bugs will do no harm this summer. *Hope* it may be true.

MAJ. CHAS. H. SHRINER has returned from the West to his old home—Mifflinburg—where he will doubtless pass the rest of the days allotted to him.

FLOUR has a downward tendency, according to late reports from eastern markets.—'a consummation devoutly to be wished by the poor and laboring classes

A GOOD THING.—Under a new law Justices of the Peace must render their decisions in ten days from the day the last evidence in cases before them has been heard.

Farmers hereabout entertain fears that the corn already planted will rot in the ground, if the weather does not soon get warmer, and that late planting will necessarily follow.

A Perry county paper says, Rye township, will send two thousand tons of bark to market this spring, and the farmers in that township complain of scarcity of help. Here's a chance for enterprising tramps.

The advance in the prise of wheat and flour is purely speculative, and we expect that a number of grain speculators who have been trying to make "corners" will in the end come to grief.

CHAIRMAKER &C.—Mr. S. B. Spitler is acknowledged to be one of the best chairmakers in the State, and for beauty of finish, durability of work, and low prices can not be beat. Repairing attended to promptly, and with care.

Wonders grow apace. Now they are drying eggs, so that they can be kept for years in a climate, and one cannot tell the difference between an omelet made from a three year old egg or from one which was laid to-day.

The bill allowing fishing with set nets did not pass the Legislature as is supposed by some who are in consequence violating the law ignorantly. All such are cautioned, as they render themselves liable to prosecution and fine under the present law.

A change in running trains on the S. & L. R. R. went into operation on Monday, the 14th inst., trains arrive at Middleburg station as follows: Going westward at 7.50 A. M. and 3.40 P. M.; going eastward at 9.01 A. M. and 4.30 P. M.

To remove smoke and dust from wall paper, tie a large piece of clean white cloth over the broom and brush the wall down well. Then take a loaf of stale bread, cut it open, and rub the soft side all over the paper. It will clean it as nice as new.

We find the following remedy for freckles, which, as the season for them is approaching, may be of use to some of our readers: Citric acid, 1 drachm; glycerine, 4 ounces; rose water, 4 ounces. Mix and wash the face every night before retiring.

A modest young lady desiring a leg of chicken at the table, said: "I'll take the part which ought to be dressed pants!" A young gentleman opposite immediately said: "I'll take the part which ought to wear a bustle!" The carvhorn was immediately administered to the lady.

Last Friday forenoon as the mixed train was coming west and when about a mile east of this station a cow was struck while attempting to cross the track in front of the train, and injured so much that she was killed soon afterwards. It was a valuable cow and property of Wm. Walter of Franklin twp.

The Watsontown *Record* states that on Sunday night, April 19th, an attempt was made to burn the White Deer Woolen Mills. The incendiary was alarmed in time to frustrate his plan. It was discovered that coal oil had been freely used among a lot of waste material in the finishing room, No [illegible].

The period has again come when croakers are loud in asserting that the potato bugs will be a failure; that potato bugs will destoy all the potatoes; that the wheat crop will be injured by fly or blighted by the mildew and that but still the seasons roll on as they have done from time immemorial, seedtime and harvest come at their [illegible]

CLOTHES MOTHS.—This is the period when moths begin to fly, and those who have not packed away winter garments and furs should lose no time in doing so. Beat the articles thoroughly, and expose them to the bright sunlight and air for several hours. Seal them up in tight paper cases, or put them away in close trunks, with plenty of gum camphor, pepper, tobacco, chips of Russia leather, or cedar dust.

Pharoah's Serpents Exst.—A substitute nearly as good as the original mercury compound, and superior in not being poisonous, is prepared in the following way: Take bichromate of potassa, two parts; nitrate of potassa, one part; white sugar, three parts. Pulverize each of the ingredients seperately, and then mix them thoroughly; make small paper cones of the desired size, and press the mixture into them. They are now ready for use, but must be kept from moisture and light

A CARD.—As previously announced we presented a SOLID SILVER AMERICAN LEVER WATCH, on the 28th of April, to our customers, and the same was drawn by DAVID SEILER, Landlord at Fremont, Snyder county. Our enterprise having met with success we will dispose of ANOTHER WATCH, the same way to be drawn without postponement, on the 30th of June, 1877. Any person buying $6 worth of goods, at our lowest prices, will receive one ticket, on a $10 purchase two tickets, larger amounts in proportion.

WEIS & OPPENHEIMER.

Put in writing all contracts and take receipts for all money paid, however small the amount may be. How many misunderstandings arise from the loose manner in which business matters are talked up, and then, when each party puts his own construction on the conversation, the matter is dismissed by each with 'all right.' Frequently it tourns out all wrong, and becomes a question for lawyers and courts. More than half of the expensive and useless litigation to the country could be saved if the people were in the habit of putting their agreements in writing. Each word has its own peculiar meaning. Maybe the change of its position in a sentence conveys an entirely different ideas are fixed and unclasific.

SWINDLERS.—We clip the following from an exchange for the benefit of our readers who may meet some of the rogues: 'Another new swindle has been developed, the *modus operandi* of which is as follows: A pack peddler calls at a house with a fine lot of articles which he offers at ruinous sacrifices. He makes a sale and goes on his way. The next day two men drive up to the house with a printed bill, giving an account of the robbery of a certain store, they claim the goods, and usually bulldoze the purchaser into giving them up. It would be well for newspapers thr ughout the State to give these swindlers the benefit of a gratuitous advertisement, so as to guard their readers a ainst such imposters. People who do not read the papers would then be the only sufferers—and this class, it may be added, are generally the ones who are taken in by the plausible rescals.

THE CARD DODGE.—A neighboring journal says, complaints have reached us from many sections that persons who have sent off money for cheap visiting cards so freely Advertised by a number of eastern firms, cannot hear from their cards or their money. The plan seems to have been to fill the first order sent from a locality, and then, by offering extraordinary inducements to agents, a large list is secured and the money is sent on, and that is the last of it. The printed cards are offered by these firms at less prices than any legitimate establishment can furnish them for, and the *American Agriculturist* says it has been discovered that the object is to secure lists of names to be used in mailing circulars for obscene books, lotteries, &c. Parents who have allowed their children to send for the cards, should keep a supervision over the mail matter received by them, and if they must have cards, patronize your home office where a good job will be done at as low prices as can be afforded.

DEATH OF AN AGED CITIZEN.—By the death of Mr. Samuel Feehrer, an event which took place on last Sabbath, our town was deprived of one of its oldest native born citizens, destroying another of the links which binds the past with the present. *He* was born October 16th, 1795, in the old log house which stood on the ground now occupied by the Susquehanna College. At the time of his birth there were but ten houses in town and there were but 65 of a population. Thus truly may it be said, "he grew up with the town." He was a member of the first Sabbath School organized by Mrs. Governor Snyder and Miss Ann Ketarrah, (who at present resides in this place with her neice, Miss Mary K. Snyder) and was also a member of the first Council of the New Lutheran Church. The deceased has resided in this place all the days of his life and breathed his last breath but a short distance from the spot he was born, surrounded by loving children and affectionate Grandchildren at the ripe age of 80 years, 6 months, and 10 days. Two weeks ago his sister, Mrs. Albert, was buried, also having reached the advanced age of 82 years and 7 months. The deceased was a worthy citizen and highly respected citizen. Peace be to his ashes.—*Tribune, 10th inst.*

**Ayer's
Cherry Pectoral**

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

Manhood: How Lost, How Restored.

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of Spermatorrhœa or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Inapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance, &c.

Price, in a sealed envelope, only six cents

The celebrated author, in this Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

This Lecture should be in the hands of every youth and every man in the land.
