# Only Remedy for Hard Times.

**Change Your Surroundings.**

All wanting FRUIT FARMS, especially adapted to the growth of the VINE, where it is an established success and pays LARGE PROFIT. The land is also adapted to the growth of Peaches, Pears, Apples and small fruits; also, Grain, Grass, and Vegetables.

Many hundreds of excellent VINEYARDS, ORCHARDS and FARMS can now be seen.

THE LOCATION is only 34 miles south of Philadelphia, by Railroad, in a mild, delightful climate, and at the very doors of the New York and Philadelphia Markets. Another Railroad runs direct to New York.

THE PLACE is already Large, Successful and Prosperous. Churches, Schools and other privileges are already established. Also, manufactories of Shoes, Clothing Glass, Straw Goods and other things, at which different members of a family can procure employment.

It has been a HEALTHY RESORT for some years past for people suffering from pulmonary affections, Asthma, Catarrh, Ague, and debility; many thousands have entirely recovered.

A new Brick Hotel has just been completed, 100 feet front, with bank buildings, four stories high, including French roof, and all modern improvements for the accommodation of visitors.

Price of FARM LAND $25.00 per Acre, payable by installments, within the period of four years, in this climate planted out in vines, 40 acres of land will count fully as much as 100 acres further north.

Persons unacquainted with Fruit Growing, can become familiar with it in a short time on account of surroundings.

Five Acres One Acre, and Town Lots in the towns of Landisville and Vineland, also for sale.

Whilst visiting the Centennial Exhibition, Vineland can be visited at small expense.

A paper containing full information will be sent upon application to CHARLES K. LANDIS, Vineland, N. J., free of cost.

The following is an extract from a description of Vineland, published in the New York Tribune, by the well known Agriculturist, Solon Robinson:

All the farmers were of the "well to do" sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayey, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of peat or muck are stored, sufficient to fertilize the whole upland surface after it has been exhausted of its natural fertility.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calureous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the former desires to cultivate. **Mark Twain's Tribute to Women.**

At an annual banquet of the Washington Correspondent's Club, the following toast was read:

"Woman—the pride of the professions and the jewel of ours."

To which Mark Twain responded as follows:

"Human intelligence cannot estimate which we owe to women, sir. She sews on buttons, she ropes us in at the church fairs, she confides in us, tells us whatever she can find out about the private affairs of her neighbors, she gives us a piece of her mind sometimes, and sometimes all of it. In all relations of life, sir, it is a just and grateful tribute to say of her, 'she is a brick.'

Wherever you place women, sir, in whatever position or estate, she is an ornament to the world. Look at the women of history! Look at mother Eve! I repeat, sir, look at the illustrious names of history! Look at Elisabeth Cady Stanton! Look at George Francis Train! And, sir, I say with bowed head and veneration look at the mother of Washington! She raised a boy that could not lie, because he never had a chance.

"It might have been different if he had belonged to a newspaper correspondent's club."

Mark looked around placidly upon his excited audience and resumed:

"I repeat, sir, that in whatever position you put a women, she is an ornament to society, and a treasure to the world. As a sweetheart she has few equals and no superiors. As a wealthy grand mother with an incureble temper, she is generous. What, sir, would the people of earth be without woman? They would be scarce, sir, almighty scarce! Then let us give our support, our sympathy—ourselves, if we get a chance.

"But, jesting, aside Mr. President woman is most lovable, gracious kind of heart, beautiful, worthy of respect, of all esteem, of all deference. No one here will refuse to drink her health right cordially, for each and everyone of us has personally known, loved and honored the best of them all,—*his own mother.*

HISTORY OF THE COLORADO BEETLE.—A correspondent of the *Massachusetts Ploughman* gives the following account of the Colorado Potato Beetle, its history and habits:

"In the year 1824 it was found in Upper Missouri; from then to the year 1859 it had spread eastward and reached a point one hundred miles west of Omaha City in Nebraska. In 1861 it invaded Iowa: gradually, in the next three or four years, spreading eastward over the State. In 1864 and 1865 it crossed the Mississippi, invading Illinois, and pushing eastward at the rate of about fifty miles a year. In 1869 its presence was reported in Ohio. Early in the summer of 1874 it had made its apperance on the Atlantic seaboard, and was reported during the year, from several parts of Connecticut New Jersey New York Pennsylvania, Delaware, Maryland and Virgina. Its spread, however over the populous portion of the country, is not to be attributed to its powers of flight alone. It undoubtedly avails itself, to no inconsiderable extent, of every means of transportation afforded to other travelers, and often got a lift on eastern bound trains, and most probably crossed the more barren plains bordering its native confines through man's direct agency, *i. e.*, by being carried.

MENTAL ACTIVITY.—If the water runneth, it holdeth clear, sweet and fresh; but stagnation turneth it into a noisome puddle. If the air be fanned by the winds it is pure and wholesome, but from being shut up its groweth thick and putrid. If metals be employed, they abide smooth and splendid; put them up and they soon contract dust. If the earth be labored with culture it yieldeth corn; but lying neglected, it will be overgrown with bushes and thistles, and the better the soil is the ranker the weeds it will produce. All nature is upheld in its being, or ded and shape by constant agitation, every creature is incessantly employed in action conformable to its designed use. **Is Your Hair Falling Out**

OR TURNING GRAY!

**If So Do Not Fail To Use**

LONDON HAIR COLOR RESTORER.

*The Great Reputation*

Which it has attained and the large number of testimonials which are constantly being received are conclusive proof of its great value.

*Proof Positive—A New Suit of Hair. Natural Color and Beauty Restored.*

Dr. Swayne & Son—Some six years ago, I began to loose my hair, and continued to do so until the scalp became as bare as the palm of my hand, troubled also with a disagreeable itching fever, great heat and dandruff. small pustules would form, quite sore to the touch, and the remaining portion of the hair, on the side and back of the head, became quite gray. After using a number of Restoratives, (so called), without success, and my head nearly destitute of hair, I reluctantly commenced using the

*"London Hair Color Restorer and Dressing."*

Now, through its use, candor and justice compel me to say to all that I now possess a new and beautiful growth of hair, completely restored to its original dark and glossy appearance, and I venture the assertion, the world furnishes no preparation equal to this; and I do conscientiously say to all who are gray or bald, hair dry and harsh or falling, to use at once this cleanly and delightfully perfumed article.

ISAAC N. MARSHALL,

Gunner, U. S. N., 830 Leonard street, Phila.

Dr. Dalton of Philadelphia, says of it: The London Hair Color Restorer is used very extensively among my patients and friends, as well as by myself; I therefore speak from experience.
