"In 1875, Mr. Decker, of Centre county, found a grain of wheat in a package of coffee that he had bought at his village store. He planted that single grain and this fall he thrashed twenty-nine bushels. It is a white wheat, very large in the grain, and weighs sixty-six pounds to the bushel. Mr. Decker calls it the coffee wheat. He sowed sixteen acres this fall—all from a single grain in four years ago."

—— S. Weis of Selinsgrove, has just returned from New York and Philadelphia and has now filled his Store with the largest stock of Fancy Goods, Notions and dry goods, ever brought to this county. Everybody is invited to call and eXamine the goods and prices whether you purchase or not.

A Curious Fact.—The Harrisburg *Patriot* says:—A well-known Market street jeweller gives the following curious fact in reference to the use of tobacco: He does not use the weed, neither does one of his workmen. One of the employees of his store uses tobacco almost to excess. The former two can handle any polished tool in the shop and lay it aside again, without wiping it off, and no injury will follow, while on the other hand, if the employee who indulges in tobacco forgets to wipe off any of the tools of a fine finish, rust spots will invariably appear in a very short time.

——Hats & Caps in Large variety at Weis & Oppenheimers, Selinsgrove.

VERY SINGULAR.—The Duncannon *Record* says: Some three weeks ago there appeared, just under the right jaw of Arther Toland, son of our postmaster, a lump about the size of a shellbark, which the boy's parents supposed to be a boil, and which his mother began forthwith to poultice. The lump continued to increase in size till it became almost as large as a hen egg, and on Sunday when changing the poultice, Mrs. Toland saw what she supposed to be the core of the boil, [illegible] to be a hideous brown [illegible] inch in length, [illegible]

Last Friday night some persons entered G. C. Gutelius' Clothing store, Mr. G. is also express agent, and it is thought the object was to rob the express office as the papers and letters had been tampered with and where thrown about on the floor. Cal. was aroused from his slumbers, by a noise in the room below, made hast, revolver in hand, for the scene of disturbance and opened the door leading into the store just in time to see the midnight vistors pass out through a rear window where they had entered. There is nothing missing as the thieves, no doubt, were put to flight before they had finished their job.

RECAPITULATION OF VOTERS.—The assessors of the various districts of the county have returned their assessments for 1877, and the following we find to be the registry of each district as compared with that of 1876:

The lawful age for sending children to the public schools is that of six years, and any one can continue in the schools until twenty-one. The law has been changed of late years; formerly the age of five years was the earliest admittance to the schools. The reason for making a definite period for the commencement of an education is that the young mind should not be taxed with literary matters, but should rather be cultivated into a strong, healthy brain, and the confining of a child at such an early age is not only hurtful to its constitution and health, but has a tendency to mental enfeeblement. Another reason is that public schools are not intended as nurseries for children not able to take care of themselves. The State laws forbid the sending of children to school under six years of age.

A Word to Workingmen.—There is an old adage that 'Satan finds some mischief still for idle hands to do,' and we can assure the masses of honest workingmen in our midst that the agents of Satan will be very industrious from now until the close of the campaign in making you believe that your only permanent safety lies in doing just what they advise you to do. There is certainly not one in fifty of the honest artisans who cannot penetrate the thin disguises of these satanic ambassadors, and see the hoofs, horns and tails behind them. We tell the earnest workingmen to let the fellows alone. Don't place any faith at all in their promises, for they do not care a penny for you beyond the value of your vote. For once we ask you to take counsel of your better self. Look the field carefully over and wherever you find an honest man, do you help him to office. All this talk about aiding you to get your 'rights' and-so-forth, is nonsense. You know you can get your rights sooner by going at it in your own sensible way. If you don't believe it, try it and see.—*Ex.*

LAND FOR THE LANDLESS.—Under the United States homestead law any person twenty-one years of age or over, native or foreign born—married women excepted—may obtain one hundred and sixty acres of Government land on payment of $14 fees, and after a residence of five years on the land they can have a clear deed of it from the Government. After six months' residence, if it be preferred, they may get a deed on payment of $200, and no further residence will be required. Soldiers may deduct time spent in the service of the Union, not to exceed three years, from the five years. By the pre-emption act any person over twenty-one years—except a married woman—may take one hundred and sixty acres of Government land on the payment of $2 fees, and after residing on it six months, or for any time not exceeding three years and a half, may get a deed on payment of $200 and giving evidence of settlement and improvement. The timber law gives one hundred and sixty acres to any one planting one-fourth of it in trees and cultivating it for eight years; forty to eighty acres may be taken on like condition. The fees are the same as for homesteading.—*Ex.*

Valuable Recipes.

How to Cure a Sore Throat.—Let each one of our renders buy at any drug store one ounce of camphorated oil, and five cents worth of chlorate of pot. ash. Whenever any soreness appears in the throat, put the potash in a half tumbler of water, and with it gargle the throat thoroughly, then rub the neck thoroughly with the camphorated oil at night before going to bed, and also pin around the throat a strip of woolen flannel.—This is simple, cheap and a sure remedy.

To Remove Dandruff from the Head.—Dissolve a teaspoonful of pulverized refined borax in a teacupful of water; first brush the head well then wet a brush with the solution and apply it to the head. Do this everyday for a week or so, and then occasionally till the dandruff is removed. Refined borax can be obtained of any druggist.

To Remove Freckles.—Take equal parts of lemon juice and glycerine, and annoint the face at night before retiring; let the application dry. In the morning annoint again, gently rubbing; then bathe in tepid water, after which use very cold water and rub briskly. If persisted in this cannot fail to produce a beautiful complexion.

Hair Dressing.—Sage tea is one of the very best washings and dressings for the hair. The hair should be carefully brushed and braided in two firm braids, then the roots rubbed with a sponge dipped in luke-warm sage tea. After which the braids can be washed with a towel. This preserves the color of the hair and keeps the scalp clean.

Whitewash.—There is no more healthful modes of cleaning stables, and sheds, than to give them a coat of hot lime wash. An easy mode of doing this, is to make a barrel of the wash by slacking a bushel of fresh lime in a pork or other tight barrel, with only enough water to make a thick paste. When the lime is thoroughly slacked, fill up with boiling water, and let it stand six hours. Then take one of the Fountain Pumps described in the *American Agriculturist* for May, 1877, and spatter the walls with the wash until every corner is covered. The lime that falls upon the floor will not be wasted, it may help to sweeten the place.

To Pickle Tomatoes.—Always use those which are thoroughly ripe. The small round ones are decidedly the best. Let them lie in strong brine three or four days, then put them down in layers in your jars, mixing with them small onions and pieces of horse-radish; then pour on the vinegar (cold), which should be first spiced as for peppers; let there be a spice bag to throw into every pot. Cover them carefully, and

CHANGE OF AIR.—An occasional change of air may be said to be almost necessary to the well-being of every man. Every workman must leave his workshop, the student his library, and the lawyer his office, or sooner or later his health will pay the penalty; and, this no matter how great his temperance in eating and drinking; no matter how vigorously and regularly he uses his limbs; no matter how open and dry and free from impurity may be the air of the place in which he is employed. In the slightest cause of impaired health, the sleeping in the suburbs of the town in which the life is chiefly spent, or even spending a few hours of detached days in some accessible rural districts at a few miles distance from the dwelling, may suffice to restore the healthy balance of the bodily functions, and maintain the bodily machine in a fit state for its duties. Or in cases of somewhat more urgency or of somewhat more aggravated character, a few days once or twice a year may suffice to adjust or restore the due economy of the system.

CASH.—A good cash man in a community at this time is not only a novelty but a useful man. Let everybody strive to be cash as near as possible. Next to cherishing his religion, let him regard the matter of paying cash the prime object of life. If any community is to be redeemed from debt, trouble and dissatisfaction it is thro' all its members endeavoring to pay cash. Every farmer who owes a mechanic or farm hand, or anybody, a dollar, he should see that it is paid immediately. Every five dollars paid is sute to keep up a train of non-payments. Many a mechanic or poor man is discouraged by not getting his little own. Many an individual would be buoyed up to go forward in business and succeed, if he was not annoyed with a lot of customers who have degenerated into reluctant, unreliable debtors. Cash! It is a word of courage and has a charm in it when acted upon in sincerity and truth. It is the only specific for a community, a state or a nation diseased with debt. Unless cash becomes the rule we cannot hope to rise above the dull, prosy, crippled, disastrous mode of doing business which has characteriz d many communities from time immemorial.—*Ex.*

The Secretary was authorized to report ten members, (being all in good standing) willing to take, each one copy, of the "Transactions of the Medical Society of the State of Pennsylvania," upon which subscription the representation of our society is based.

R. ROTHROCK, M. D.
BY THE SECRETARY. President.

A Word to the Unemployed.

Our attention has been called to a new cooking utensil, recently invented, which makes baking a pleasure, instead of a dreaded necessity: the inventor of which has conferred an everlasting blessing upon every housekeeper. We refer to the Patent Centennial Cake and Bread Pan, with which, by simply raising a book, you can remove the sides of the pan from the cake instantly, without breaking or injuring it in the least, thus enabling you to ice and frost it while warm. To remove the tube in the center, insert a knife in the slot in the top of the tube, and simply give it a half turn, and it will drop out. It is also provided with a slide on the bottom, so that, when you remove the tube, you can close the hole, making a pan with plain bottom, for baking jelly and plain cakes, pudding, bread, etc., *thus practically giving you two pans for the price of one.*

The Centennial Cake Pan is highly recommended by the ladies as being the best and most convenient pan ever introduced. They are made of Russia iron, *are more durable, and will bake your cakes more evenly and a much nicer brown than you can bake them in the old fashioned tin cake pans.* These goods are sold exclusively through agents to familes, and every housekeeper should by all means have them. A splendid opportunity is offered to some reliable lady or gentleman canvasser of this county to secure the agency for a pleasant and profitable business. For terms, territory, etc., write to L. E. Brown & Co., Nos. 214 and 216 Elm Street, Cincinnati, Ohio. Sept. 27, 1877.4w.

A good domestic Sulphur bath can be instantly prepared by taking a cake of GLENN'S SULPHUR SOAP into the bath tub. Such an expedient will, to use a slang phrase, "knock the spots off" any victim of cutaneous blemishes. Sold by all druggists 25 cents

Hill's Hair and Whisker dye, black or brown 50 cents.

"EUREKA" is the sentiment of countless sufferers who find the balm of relief and the fountain of their health and strength, in AYER'S SARSAPARILLA. It is the most potent of all the alteratives to purify the system and cleanse the blood. It possesses invigorating qualities, so that it stimulates the faded vitalities and purges out the corruptions which mingle with the blood, promoting derangement and decay. We are assured by intelligent physicians that this medicine cures beyond all others of its kind, and we can fortify this statement by our own experience.—ATHOL (MASS.) WHITE FLAG.

HOW IT IS DONE.—The first object in life with the American people is to "get rich"; the second, how to regain good health. The first can be obtained by energy honestly, and saving; the second, (good health) by using GREEN'S AUGUST FLOWER. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver Complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Costiveness, Dizziness of the Head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Ayer's
Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.
