Blackbirds in large flocks are moving south.

—— Ladies Cloaks in great variety at S. Weis', Selinsgrove.

Indian Summer we hope, will not give us the go-by.

—— Waterproof cloth and Dress Goods in great variety at S. Weis', Selinsgrove.

The farmers are engaged in posting notices to prevent trespassing, in view of the fact that the hunting season is about to open.

☞ Flannels, Ginghams and Shirtings in great variety at S. Weis', Selinsgrove.

Harrison Witmer, of Port Treverton, has taken possession of the 1st National Hotel, at Selinsgrove. Mr. W. will make a popular and accommodating landlord. Want of space compels us to cut short this notice.

——A Large Stock of Horse Blankets at Weis & Oppenheimers, Selinsgrove, just received.

Pull up your tomato vines before the frost kills them, and hang them in the cellar. The green tomatoes will ripen in the order that they would have ripened had they remained unremoved and not injured by frosts.

——Germantown wool and Zephyrs of all colors and shades at S. Weis', Selinsgrove.

It is never too late to use Dr. *Haas'* Expectorant as a cough cure, but it is best to have recourse to it in the early stages of pulmonary diseases, so as to secure immediate and permanent relief, and avoid danger. 25 and 50 cents a bottle.

——If you wish to buy any Clothing go to Weis & Oppenheimers, Selinsgrove. You will get the worth of your money and besides you will get a ticket which will entitle you to a chance in drawing a watch

SUMMER MINCE PIE.—Four crackers, one and one-half cups of sugar, one cup of molasses, one cup of cider, two-third of a cup of butter, one cup of chopped raisins, one half cup of currants, two eggs well beaten and stirred in, the last thing; spice to the taste.

——Felt Skirts, Alpacas and Shawls, in great variety, at S. Weis', Selinsgrove.

No household should be without a family newspaper. If the parents can not read, let it be gotten for the children. There is a remarkable difference in the general intelligence of children, whether they are raised in a family where a newspaper is a weekly visitor or not. It will create in their young minds a taste for general reading, which will grow in them as they grow in years.

—— Calicos and Muslins, in great variety at S. Weis', Selinsgrove.

SAUER KRAUT.—With the first good crisp frost comes the season for sauer kraut making, a period in the year looked forward to with more than usual interest by a certain class of our fellow citizens. There was a time when to acknowledge a fondness for this dish was to be horribly unfashionable. But times have changed, and now, not to eat sauer kraut is to be lacking in one of the most fashionable accomplishments of the day.

——Overcoats as low as $3 25 at Weis & Oppenheimers, Selinsgrove.

☞ BUSINESS OPPORTUNITY.—A rare chance to enter into the Mercantile business is now offered by T. J. Smith, Assignee of S. B. Schuck, who now offers to sell the entire Valuable Stock of General Merchandise of his Assignor [as a whole] at Private Sale. The store is located near the Middleburg Depot, and is an exceedingly good business stand and the stock saleable and in good condition. This offer open for 30 days. For further information &c. call on or address the assignee at Middleburg.

LOOKOUT FOR BURGLARS.—We caution our readers, both in town and country, to beware of burglars and robbers in all guises. The country is filled with these prowlers, who rove over it in couples, gangs and companies, committing all grades of crimes. We caution all who have money in their houses to be on their guard, and not become victims to the burglars' thieves or murderers. Do not trust too much to a dog. *Have* strong doors and plenty of bolts, and see every night that your house is locked and bolted at every door and window.

——People in need of Clothing should not fail to call at Weis & Oppenheimer's at Selinsgrove, and examine their Large Stock of Fall Clothing which they have just laid in. The assortment is now full and complete. Everybody is invited to call and eXamine the goods and prices whether they purchase or not.

An agricultural journal recommends the following receipe as a simple and invaluable remedy for rheumatism: Take a pint of spirits of turpantine, to which add half an ounce of camphor; let it stand till the camphor has dissolved; then rub it on the part affected, and it will never fail of removing the complaint. Flannel should be applied after the part is well fomented with turpentine. Repeat the application morning and evening. It is said to be equally available for burns, scalds, bruises and sprains, never failing of success.

THE FAIR.—The Fifth Annual Fair held at Selinsgrove, on the 11th, 12th and 13th inst., was a grand success. The display in many respects equalled, if not surpassed that of any previous exhibitions of the same society. The weather on the first two days was bad, but on Saturday it was all that we could desire. The sun came out beautifully, and the crowd in attendance was very large, nearly as many persons were in attendance as at any previous day of any of the other fairs. Everything passed off first-rate, and all who attended expressed themselves as very highly pleased with the entire affair.—*Tribune 18th inst.*

——Hats & Caps in Large variety at Weis & Oppenheimers, Selinsgrove.

AUTUMN.—The change incident to the season are to be seen here and there among our gardens and in the changing tints of our forest foliage. The flowers are fading and, though a few of the late summer beauties linger still, they will soon pass from sight, and the living freshnds of garden and lawn, and meadow and grove, are being replaced by the crimson tints on the woods and hillside, and the faded herbage of the lower lands. There is no reason at this especial time for melancholy thoughts suggested by the change. Each season has its own especial beauties and advantages, and each enhances the other, and as in Spring we admire the brightening sunshine, the gentle breezes and the opening flowers, so in Summer we enjoy the full-grown beauty of tree and plant as they develop, gradually toward full fruition in Autumn. Winter, too, has its own peculiar charms, for then the comforts of home and the delights of the social circle become doubly precious, and we can conceive no higher happiness than that enjoyed by a well regulated family as they cluster around the fireside with music and song, and pleasant reading on a Winter evening when the snow lies deep, and the winds whistle mornfully among the trees.

Sure Cure for a Felon.—In a conversation last week with Dr. W. E Dunn, of Watertown, N. Y., he gave us the following 'sure method' of securing immediate relief from the pain of a felon: 'Wind a small string around the finger (or other member) above the felon, so that the latter shall be between the string and the extremity of the finger. This will prevent the blood from returning through the veins which are near the surface. As soon as the veins are distended (say a minute or two) remove the string and suddenly permit free circulation. After a few moments repeat the whole process, and continue to do so until there is entire relief—say from twenty to sixty minutes. The cure will be complete. Dr. Dunn tells us that he has never known a failure. The philosophy of the cure lies in the fact that when the obstructed blood reflows it carries away from the affected part a portion of the foreign matter which caused the felon. Thus, by damming up the stream repeatedly, and then giving the dammed up current free and rapid circulation, the whole offensive deposit will be carried off. This cures the felon.—*Rondout Courier.*

Narrow Escape from Death.—On Saturday Mr. Daniel Floury, of Oliver tp., was in the woods seeking after game, while a Mr. Rider was in the neighborhood of Mr. Fleury for the same purpose, but each were unacquainted with the other's whereabouts. Presently Mr. Rider, our informant states, leveled his gun, which was double barreled, at an object, some distance off, which he supposed was game, the woods being dense and the object partly hidden, and blazed away. But his supposed game neither dropped or run away, and just as he was sending off the second load of shot a man, who proved to be the other subject of this sketch, threw up his hands and shouted aloud not to shoot again, thereby thus narrowly saving his own life.—Upon examination it was found that a shot had struck *Mr.* Fleury's hat rim, another passed up his coat sleeve, while others lodged elsewhere in his coat, but none of the laden messengers penetrated his body.—*Newport News, 13th inst.*

Give the Children Sugar.—The newspapers tell us that a little girl taken from the Allegheny county poor house by the family of A. C. Haverstick died recently from eating salt, (which had been given to her as a punishment for stealing sugar,) and then taking an antimony emetic. This was a case of cruelty which is made punishable by law. But, apropos to the subject, we desire to say that the best way to cure children of a propensity for stealing sugar, is to permit them to take it whenever they desire it. *A* child's system requires sweetmeats, hence the appetite, which, if not satisfied, grows stronger and stronger, until theft follows. We have the warrant of able physicians for saying that where the children of a family are allowed free access to the sugar bowl two important benefits may be expected, viz: (1) there will be no sugar stolen, and (2) those children will never be troubled with worms. The latter result is sure to follow if the children eat plentifully of raw or brown sugar.

THE SCRAP BOOK.—Every one who takes a newspaper which he in the least degree appreciates, will often regret to see any one number which contains some interesting and important article thrown away for waste paper. A good way to preserve these is by use of a scrap book. One who has been accustomed thus to preserve short articles can hardly realize the pleasure it affords to sit down and turn over the pleasant familiar pages. Here a piece of poetry meets the eye, which you would have long since lost had it not been for your scrap book. There is a whitty anecdote—it does you good to laugh over it yet, although it may be for the twentieth time. Next is a valuable receipt you have almost forgotten, and which you have found just in time to save much perpleXity. Indeed you can hardly take up a single paper without re-perusing. Then hoard up with care the precious gems, and see at the end of the year what a rich reward you will have accumulated.

TO THE LADIES.

If you want to know what the latest Fashions are, where they can be bought, and what they can be bought for, you can obtain a perfect mine of information on the subject at the very moderate outlay of only 15 cents. The Fall Number of "EMMONS' FASHION QUARTERLY" has reached our table, and examination proves it to realize the claim of its Publishers—viz., "that it is a sensible magazine for sensible women." Page after page of Ladies' and Children's Clothing, richly Illustrated, accurately described, with the price attached. Interspersed are numerous original articles, interesting and instructive to every housewife and, in fact, to every woman. We take pleasure in recommending this really valuable publication and trust that every one of our readers will test the truth of our complimentary notice by enclosing 15 cents to

Every person should know how to treat a flesh wound. Every one is liable to be placed in circumstances away from surgical and veterinary aid, while he may have to save his own life, the life of a friend, or a beast simply from the exercise of a little common sense. In the first place close the lids of the wound within the hands and hold them firmly together to check the flow of blood until several stitches can be taken and a bandage applied. Then bathe the wound for a long time in cold water. Should it be painful, take a pasful of burning coals and sprinkle upon them common brown sugar, and hold the wounded part in the smoke. In a minute or two the pain will be allayed, and the recovery proceeds rapidly.

The Lewistown TRUE DEMOCRAT of a recent date says a 40-acre field of growing wheat, belonging to Thaddeus Martain, in Derry township, is being destroyed by a small white worm, about half an inch in length, which seems to be the common grub. Every stalk is cut off close to the root, and in looking over the field large patches appear to be entirely bare. Upon examining the ground closely, thousands of these grubs are found. In an adjoining field, belonging to Samuel Mitchell, the ravages of this worm are also visible. How far this new enemy of growing wheat is going to spread himself is now the mooted question.

—— S. Weis of Selinsgrove, has just returned from New York and Philadelphia and has now filled his Store with the largest stock of Fancy Goods, Notions and dry goods, ever brought to this county. Everybody is invited to call and examine the goods and prices whether you purchase or not.

"THE BOYS IN BLUE."—This is the name of a bright 8 page monthly paper published at the National Capitol and devoted to pensions, bounties, claims, patents, and army and navy. It is published by Nathan W. Fitzgerald, at the remarkably low price of twenty-five cents per annum. The general reading matter is most excellent, and the department devoted especially to the interest of soldiers and their representatives is very valuable. We advise every ex-soldier to send twenty-five cts., to Nathan W. Fitzgerald, Washington D C., and receive THE BOYS IN BLUE for one year.—STORM LAKE PILOT, (Iowa.)

STOLEN HORSE RECOVERED.—The favorite horse stolen from the stable of Zeno Fees, near this place, on the night of the 23d March last, was recovered last week in Duff's livery stable, Philadelphia. From intimations which had been thrown out to Sheriff Fleming, he was induced to believe the stolen animal was in the city, and having gone down with Col. Rhodes' excursion party he made it his business further to inquire into the matter, and soon became satisfied that his information was correct. Mr. Fees was then telegraphed to come down, and upon his arrival a warrrant was procured, the horse taken possession of, and after considerable delay before the magistrate identified, and we are glad to say 'Billy' is now in his old quarters as happy over his feed as his master is in getting him back again. There are also some tracks of the buggy which may lead to its recovery, and as several parties seem to have had a hand in the transfer of the horse it is possible some of the confederates of this gang may yet come to grief.

There is some reason to believe that another stolen horse, highly valued by the owner, is also down below.

Fees' horse it appears was in Philadelphia the third night after being taken, which would indicate that there is a regular route through the lower part of Snyder county to the Susquehanna, and thence by by-roads to Philadelphia. We are of opinion that a sharp detective could unear h a widespread combination.—*Lewistown Gazette, Oct.* 17.

A POWDER WAGON BLOWN UP.—On Wednesday morning last, Noah Pressler, teamster for A. S. Speese's powder mill, in little Mahanoy township, had seventy-five kegs of powder on his wagon which he intended to deliver at *Hunter* station, on the Philadelphia & Reading railroad. He arrived at the house of Isaac D. Baker, Esq., about one-fourth of a mile from the station about 7 o'clock, and stopped to get a drink, of water, and conversed a while with Raker's family. After starting, and having passed on the road about 200 yards, the powder on the wagon exploded, and in an instant the wagon, team and driver were scattered in every direction. The windows in the house of Mr. Raker were broken, brick knocked off the chimneys and fire scattered over the meadows in the vicinity. The driver, Mr Pressler, was found 90 feet from the scene in a meadow with his clothing nearly burned off his body. His watch was found a short distance from him which had not ceased running. He was taken to Mr. Speese's house and Doctors Newbaker and Haas sent for. His injuries are such that there is little hope of his recovery. The horses hitched to the wagon received serious injuries and were killed to relieve them of their suffering. After removing debris one keg of powder was found underneath which had not exploded. Mr. Pressler is a young married man, having been married but a week or two, as will be seen by the marriage notice in this paper. He is a fine young man, and has the sympathy of all that know him.—*Sunbury American October 19th. inst.*

The Columbia Dam Question—The Columbia *Herald* of yesterday throws light upon the subject of the contemplated removal of the Columbia Dam as follows:

"There is a project on foot which indicates some disturbance to the Columbia dam in the sweet bye and bye. For the past two or three weeks a party has been engaged surveying a route across the river from Chickies, and it is thought by some confident Marietians that Columbia must lose her much prized dam. At the point where the survey is being made, the river is thirty feet deep at low water—thence to Wrightsville there is a fall of fifteen feet. The water therefore will always be deep enough to "tow boats across without a dam. All that is therefore necessary is to build a "wing wall" into the river some distance to supply the canal on the York county side. It is thought the Reading road will attempt to get a charter and perhaps an appropriation to build a new dam from some point near Chickies accross the river. The H. J. & S. R. R., is interested in this change and hope to have the coal shutes removed from Columbia. The reason they are not repaired, is the possibility of their removal. Those interested in the removal of the dam, hope to work upon the feelings of the Western men, who think the present dam prevents the fish from ascending the river. It is not certain what the Pennsylvania railroad will do in case the above project should be put in operation. That something of importance is contemplated by the survey now being made is evident, but what may become of it time will show. At all events we should not be caught napping."

A Word to the Unemployed.

Our attention has been called to a new cooking utensil, recently invented, which makes baking a pleasure, instead of a dreaded necessity: the inventor of which has conferred an everlasting blessing upon every housekeeper. We refer to the Patent Centennial Cake and Bread Pan, with which, by simply raising a book, you can remove the sides of the pan from the cake instantly, without breaking or injuring it in the least, thus enabling you to ice and frost it while warm. To remove the tube in the center, insert a knife in the slot in the top of the tube, and simply give it a half turn, and it will drop out. It is also provided with a slide on the bottom, so that, when you remove the tube, you can close the hole, making a pan with plain bottom, for baking jelly and plain cakes, pudding, bread, etc., *thus practically giving you two pans for the price of one.*

The Centennial Cake Pan is highly recommended by the ladies as being the best and most convenient pan ever introduced. They are made of Russia iron, *are more durable, and will bake your cakes more evenly and a much nicer brown than you can bake them in the old fashioned tin cake pans.* These goods are sold exclusively through agents to families, and every housekeeper should by all means have them. A splendid opportunity is offered to some reliable lady or gentleman canvasser of this county to secure the agency for a pleasant and profitable business. For terms, territory, etc., write to L. E. BROWN & Co., Nos. 214 and 216 Elm Street, Cincinnati, Ohio. Sept. 27, 1877.4w.

A good domestic Sulphur bath can be instantly prepared by taking a cake of CRUSH'S SULPHUR SOAP into the bath tub. Such an expedient will, to use a homely phrase, "knock the spots off" any victim of cutaneous blemishes. Sold by all druggists 25 cents.

HISCOX Hair and Whisker dye, black or brown 50 cents.

"EUREKA" is the sentiment of countless sufferers who find the balm of relief and the fountain of their health and strength, in AYER'S SARSAPARILLA. It is the most potent of all the alteratives to purify the system and cleanse the blood. It possesses invigorating qualities, so that it stimulates the faded vitalities and purges out the corruptions which mingle with the blood, promoting derangement and decay. We are assured by intelligent physicians that this medicine cures beyond all others of its kind, and we can fortify this statement by our own experience.—ATHOL (MASS.) WHITE FLAG.

PRIVATE SALE.—The heirs of Samuel Smith deceased, offer at Private Sale, a Valuable tract of Limestone Land, containing about 20 acres, and two Lots of Ground, with House, Barn and other improvements, very cheap, and on reasonable terms. The property is all in the Borough limits. For particulars call on or address GEORGE W. SMITH, Middleburg, Snyder County, Pa. Aug. 16,77tf.

Auctioneer.—George H. Hackenburg, of Middlecreek, P. O., would announce to the people of Snyder county, that he will cry sales for real and personal property, at short notice and on the most reasonable terms. He guarantees satisfaction. [Mar.15,77tf.

HOW IT IS DONE.—The first object in life with the American people is to "get rich"; the second, how to regain good health. The first can be obtained by energy honesty, and saving; the second, (good health) by using GREEN'S AUGUST FLOWER. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver Complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Costiveness, Dizziness of the Head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Two doses of August Flower will relieve you at once. Sample Bottles 10 cents. Regular size 75 cents. Positively sold by all first-class Druggists in the U. S. Oct. 5'76.

Ayer's Cathartic Pills,

For all the purposes of a Family Physic; and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Rheumatism, Eruptions and Skin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralgia; as a Dinner Pill, for purifying the Blood,

Are the most effective and congenial purgative ever discovered. They are mild, but effectual in their operation, moving the bowels surely and without pain. Although gentle in their operation, they are still the most thorough and searching cathartic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.
