The Road to Success

What shall I do to advance my self ; is a question asked by many young men when first entering upon their business curver. Foo many are apt to answer it by supp ming that some brilliant muster stroke is the tailsman that is to open the pathway of success before them. Brilliant masterstrokes, however, always carry with them great risks. as a rule, the advancement made by present effort is the safest, surest and most easy of attainment. In choosing a profession or a trade, it is of the utmost importance to select one that is congeniel to the taste : and having chosen one to stick to it, for there is a wonderful element of success in the stamins that enables men to stick.
