MONEY IN SUMAC.—There is a steady market at present for the leaves of the wild sumac, the demand being greater than the suply. The leaves are much used in tanning morocco leather, for the manufacture of dyes, and other purposes. In some localities the gathering of sumac at this season of the year is an important industry. The branches of the sumac bushes are taken off, and after being cured, shipped to dealers in Philadelphia or Baltimore.

NEW FEE BILL FOR COUNTY OFFICERS.—The new fee bill for Sheriffs, prothonotaries, clerks of the several courts, registers and recorders passed at the recent session of the Legislature, applies to all counties having more than ten thousand and less than one hundred and fifty thousand inhabitants. It makes a universal reduction of the fees, and will lessen the value of several offices to a considerable extent. It will also have the effect of lessening the competition for those offices in the future campaigns. Its provisions do not affect present incumbents. The sheriff is allowed the [illegible] and the register and recorder the [illegible]. We see it stated that the collector of [illegible] fee bill he will be likely [illegible]

THE WORD "PICNIC."—This is a compound word which comes into use only once a year—picnic. We are indebted for it to the old French, and we find it in a dictionary of that language 1802—pique nique. It is not easy to find its derivation, the verb piquer signifies, with its derivations, a great many things, that which is bright, pleasant and agreeable, and as a substantive or adjective, spleen, envy, ill humor, and a hectoring temper, while nique, if it is a small coin, according to Webster, was only in general use to signify the act jesting at or slighting persons or things. The French, however, are not in the habit doing things with strict regard to consistency, and they have given us a term which has come to signify a pastoral jollification, where each participant contributes a share of the good things, and feels thereby independent. Picnic, as a name, is utterly indefensible in the English language, but as it has become a member of the family of words, and tells us at once of something pleasant, happy and rural, it must be excused. Every fence holds it out and every paper proclaims it. It will die with the summer; let us make the most of it while it lasts.

M. B. Holman.

The voters of Perry county, without respect to party, are intelligent and appreciate true merit in selecting their representatives. The Republicans have nominated M. B. Holman of Liverpool as their candidate for Assembly. His nomination, we are informed, was received with hearty approval and will be ratified at the polls in November. He is a gentleman of high moral character, excellent social qualities, unquestionable integrity and superior business qualifications. He represented Perry in the Legislature several years ago in a manner creditable to himself and an honor to his constituency. *His* past experience will enable him to discharge the duties of legislator with efficiency. His business relations with the people of this county have made him extensively known and he is highly esteemed for his many virtues.

A Good Yield.

McKees ½ Falls, Aug. 17, 1878.

I think Squire Rohrer of Chapman should have the premium for raising the largest amount of Wheat per acre in Snyder Co. He had 2½ acres of Foltz Wheat in one lot, and on the 12th, inst., he had it thrashed and it yielded 76 bushels, clean wheat and weighed 65 pounds per bushel, total by weight 82 bushels and 20 lbs., average per acre 32 4-5 Bushels. The squire has also 3 acres in tobacco on one of J. B. Hall's farms originally the Kremer farm which promises well, some of the largest leaves measure 36 inches in length and 24 in width, and averages favorably. The Squire knows how to cultivate tobacco by his long experience, and therefor is the champion for raising large and fine tobacco, he has several new varities of superior quality.

ALEXIS.

The Campmeeting held at this place under the auspices of the Evangelical association was a complete success. It is estimated that between five and six thousand persons were in attendance on Sunday last, and yet not withstanding the immense crowd the utmost sobriety and good behavior prevailed. In fact, in all our experience of camp meetings we never saw better order than was maintained during the progress of the meeting.

The association is entitled to the congratulations of the community for the perfect arrangements made, and the selections of such fine grounds for their Camp.

SHIPPENSBURG STATE NORMAL SCHOOL.—We are in receipt of the fifth annual catalogue of the State Normal School at Shippensburg. The attendance has been quite large, and the different departments of education are presided over by an efficient faculty. The Museum of Normal Sciences is equal to any in the State, and the supply of philosophical apparatus is unexcelled. The terms are exceedingly low, and students, wishing to prepare themselves for teaching, for college, or business, will find superior advantages at this School. For catalogues, &c., address Rev. I. N. Hays, Principal, Shippensburg, Pa.

Worms! Worms! Worms!

E. F. Kunkel's Worm Syrup never fails to remove all kinds of worms. Seat, Pin, and Stomach Worms are readily removed by Kunkel's Worm Syrup. Dr. Kunkel is the only successful Physician in the country for the removal of Tape Worms. He removes them in 2 or 3 hours, with head and all complete, alive, and no fee until head is passed.
