Our Kansas Letter.

NEWTON, Nov. 6, 1878.

ED. POST:—We so often have inquiries made by parties wishing to emigrate to the great Arkansas Valley that I shall endeavor to give you a brief outline of Harvey County. From what I can gather from historical references, Coronado the noted Spanish explorer passed through this county on his way to the Missouri river in 1542. Earlier than this I am told there is not the least scrap to turn to. In 1857 the Chisholm cattle trade was established and passed through Newton, from the Red River country in Texas to and beyond Albieni in this State. The old Santa Fee trail is only 2 miles South of here, while the New *Mexico* trail is in the Northern part of the State. I crossed the last named trail west of Fort Larned. This Fort is in the centre of what used to be called the great American desert, and I doubt whether you will find a finer body of land than is the Pawnee Valley between Pawnee river and the Big Arkansas. You can easily tell any of these old trails by the peculiar grass which has grown up on them. Harvey county was established by an act of the Legislature approved Feb. 29, 1872 and was named after *Hon.* James M. Harvey at that time Governor of the State. In size Harvey county is one of the smallest counties in the State, it is 18 miles North and South and 30 miles East and West, containing 345,600 acres of as fine farming land as you wish to see. Face of country is 40 per cent bottom, 60 per cent upland, 1 per cent forest and 94 prarie. Population in 1871 was 2,000 and now is 8,713. This last year there were 41,741 acres in wheat and 20,813 in corn. There are 56 organized school districts in the county and 50 school houses, all of which are good, neat and commodious and furnished fully as well as farther East. I have not been in a single house that did not have goyd solid Patent desks. The aggregate value of these houses and property is about $55,000. The Newton *Public* School building is the largest and finest school building west of the State Normal College at Emporia. Teachers saleries average near $30 per month. This is certainly a healthy country as we are 1445 feet above the level of the sea, also 1345 miles from Middleburg. It naturally seems very strange to persons coming West to see all prarie and no forest, but it seems to be no drawback in settling up the country. Trees and shrubbery of all kinds grow very fast here. I can show your trees planted 6 years ago last spring from the seed, which to-day measure 20 inches in circumference. Cotton-wood, Black Walnut and Maple do best for shade. Fruit trees all do well. There are some very fine Brick and Stone houses in the towns but through the country they are mainly frame dwellings with occasionally a dug-out or sod house. As yet there is not the attention paid to horses and cattle that I had expected, but think here will be a great improvement in that line the next few years. You see more fine hogs raised through here than any place I have ever been, mostly the Berkshire and Poland China. The Texas Ponies are used here exclusively for riding and driving and noble beasts they are, providing they don't "Buck" with you. Ox teams are beginning to be scarce, as soon as a man gets his claim taken up he generally ships his oxen and gets either horses or mules.

Buffalo hunting is a failure this fall as the "injuns" are running things to suit themselves out on the Frontier, notwithstanding Gen. Sherman's statement that everything is lovely. Politics was lively here yesterday, and Greenbackers scarce on account of the Chairman of this county "turning" the day before the election. St. John Republican candidate for Governor received 850, Goodwin, Democrat, 286 and Mitchell, Greenbacker 252 votes. St. John is care of the State.

HARVEY.

The birds who delight only in tropical seasons are winging their way in flocks towards the sunny South. The skies have been filled this week with the airy troops, *en route* for the land where flowers bloom perennially, and where only warm winds disturb the music haunted woods. It would be interesting to know just exactly how the birds proceed when they desire to call together the wanderers for the annual pilgrimage. Some naturalists assert that birds have a peculiar language of their own, and if this be so we may readily presume that messengers are sent out days before the flocks move off, to notify itinerants when such an event is to take place.

Cook Books.

BY MRS. HENRY WARD BEECHER.

Among the many requests for advice or suggestions which are received from young housekeepers and are answered as fast as practicable is one desiring advice as to the best cook book that one just beginning housekeeping can select.

A few years ago this would have been a difficult question to answer, because we have always felt greatly dissatisfied with most books of that kind and object to each one for different reasons. The number of volumes which are before the public under the various titles of "Domestic Economy," "Model Cookery," "Hints to young Housekeepers," etc., etc., are past enumerating. Some of these are excellent; some are as nearly perfect in special department as is possible; some suitable only for the rich or those who delegate domestic care to hireling, employ foreign cooks, and eat what is set before them, asking no questions provided the table *looks genteel* and each course is served with appropriate embellishment and in fashionable order.

"Of book making there is no end." This certainly is true in domestic and household literature. The number of cook books and domestic cyclopedias are rapidly multiplying and of a character differing greatly from those which, until a few years, were the standard guides for housekeepers. The great difficulty with our earlier cook books was that they presented a style of cookery so unlike that which could be of much service in common every day life, that only here and there could one select a recipe that was satisfactory. Nearly all were either too rich or too far above the comprehension of a young and inexperienced house-keeper.

In the HOME COOK BOOK we find good, sensible suggestions and advice, and most excellent and reliable recipes contributed by some of the best house-keepers our country supplies.

The directions are simple, concise and easily understood, not above the most inexperienced nor beneath the notice of those who are experts in the art of cooking.

The HOME COOK BOOK offers a great variety of dishes, the simplest, as well as those dishes which are sure to find favor in the most elegant entertainment. Yet all are easily understood, and especially reliable, coming as they do endorsed by name, by many of the most experienced housekeepers.

A cook with any degree of skill or with good common sense, may be safely trusted to cater for a family, in the absence of the mistress, if guided by the counsels of the HOME COOK BOOK.

Wright's Beard, Scalp and Imperial Compound forces heavy Mustache or Beard on the smoothest face in from 20 to 30 days. It never fails. No possible injury to the skin. Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper. W. W. Sherar, 149 Power's Block. Rochester, New York. 4 w.

N. P. HAIR,
sept. 12,'78. Administrator.

This standard article is compounded with the greatest care.

Its effects are as wonderful and as satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing, nothing has been found so effectual or desirable.

A. A. Hayes, M. D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Price, One Dollar.

Buckingham's Dye
FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color, which will neither rub nor wash off.

Manhood: How Lost. How Restored.

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of Spermatorrhœa or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance, &c.

Price, in a sealed envelope, only six cents

The celebrated author, in this Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

This Lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any adress, *post-paid*, on receipt of six cents or two postage stamps.

THE CINCINNATI
$1
WEEKLY STAR

Is the largest and best DOLLAR WEEKLY PAPER printed in the country.

It is the paper that meets the wants of the farm and the fireside more fully than any other, as will be seen by a careful examination of the following facts, and a comparison of the paper with any other of the city weeklies:

The STAR is handsomely printed on pure white paper from clear and type, that makes it easily read, even by a poor light. Broader and open print is a gift to all our readers.

The STAR is free from political bias, and gives all the news with fairness and honesty, so as to enable its readers to form a correct judgment on whatever is passing; and it discusses questions without prejudice, but always in the interest of the producing classes.

It is in no sense sectional or contracted in its news or opinions, and can be read with the same real pleasure and interest from Texas to Maine, and from California to Delaware. Its sources are thrilling; its news late, comprehensive, and correct; its market reports reliable; and all its departments are fully up to the requirements of first-class journalism.

We give no chromos, hand-books, or almanacs with the STAR, believing that the greatest inducement we can offer is to make a FIRST-CLASS NEWSPAPER, putting the money which such things would cost to the better use of improving the paper, and leaving the chromo business in the hands of picture dealers, where it properly belongs.

We, however, fully appreciate the energetic work done by club agents, and reward them liberally, as will be seen by reference to our "list of premiums for discounts to agents," which is sent on application. Agents' outfit free of charge. Get up a good club for the STAR.

Benson's Capcine Porus Plaster.
A WONDERFUL REMEDY.

There is no comparison between it and the common slow acting porus plaster. It is in every way superior to all other external remedies including liniments and the so-called electric appliances. It contains new medicinal elements which in combination with rubber, possess the most extraordinary pain relieving, strengthening and curative properties. Any Physician in your own locality will endorse the above statement. For LAME BACK, Rheumatism, Female Weakness, Stitches and Neglected Colds and Coughs, diseased Kidneys, Whooping Cough, Affections of the heart, and all ills for which porous plasters are used, it is almost the best known remedy. Toes Protruding

Through Ragged Holes need no longer offend the eye or children's costly Shoes be thrown away on that account, when otherwise but little worn. THE AMERICAN SHOE TIP CO. have saved

MILLIONS OF DOLLARS

annually to Parents in this country, by the introduction of the

Copper and Silver Tips,

and they are applied chiefly to children's heavy Shoes, many Parents objecting to the looks of Metal Tips on

TINE SHOES.

All such will be happy to know that this company have at last perfected a

BLACK TIP

which adds to the beauty of the finest Shoe, the two remaining neat until the shoe is worn out. These Tips are

Stamped A. S. T. Co.

The more costly the Shoe the more important the Tip, as it at least doubles the wearing value of the shoe.

PARENTS! buy no Children's Shoes without the Metal or Nice Black Tips, and thus reduce your Shoe bills more than one-half.
