In Tennessee a farmer's plowshare turned up some silver ore, and in Texas a negro plowed up a pot of gold. Young man, go South and plow!

Commercial failures decreased more than one third in number from the previous month. This is regarded as a steady recovery of the business interests of the country.

The following Representatives have been elected a Returning Board to count the votes for State Treasurer this fall: Republicans—Gatchell, Hill and Neal. Democrats—Bradford, Smith and Gentner, six in all.

TOPEKA, June 9.—A severe hail storm passed over this county this afternoon. A strip of country about a mile wide was traversed. Hogs and chickens were killed and crops badly damaged. At Wichita hail stones fell weighing from five to twelve ounces.

It is barely possible that any living person knows positively the fate or whereabouts of Charley Ross, and yet the sorrowful father of the boy daily receieves one or more letters from parties in all parts of the country, who claim to know something about him.

A contemporary says that Col. Thomas A. Scott's yearly income as president of seven lines, vice president of eleven, and director of thirty four, is over $100,000. With such a magnificent income he can afford to spend a year abroad without being cramped for means.

On Saturday afternoon a messenger of the Illinois Central Railroad Company was knocked down in the streets of Chicago and robbed of a package containing $10,000 in bills which he was taking to a bank. The robbers threw red pepper into the messenger's eyes. They made their escape.

A MONSTROUS TURTLE.—Captain Murphy, a well known resident of Philadelphia, while fishing with a shad net in the Delaware river below Fort Delaware, on Monday afternoon of last week, caught a turtle weighing 760 pounds, and measuring seven feet three inches in length, and twelve feet across the back.

Chairman Quay, it will be observed, has designated the 23d of July as the time for holding the Republican State Convention, which is just one week after the meeting of the Democrats to nominate a treasurer. His appeal to send good men to the convention should be heeded in every district, as the issues involved are of vital importance.

Several disastrous fires have lately occurred. The destruction of Pardee Hall, one of the Lafayette college buildings at Easton, Pa., which was erected a few years ago and donated by A. Pardee, is among the notable losses. It cost $225,000, and the fixtures $75,000 more. The loss is almost total. The insurance was $120,000. Why cannot public buildings, costing such enormous sums be made fire-proof? Or is there such a thing as a complete fire-proof building in existence in any part of the world.

In order to encourage trade with the United States Brazil consents to a general exhibition of American goods at Rio, and will admit them free of duty. American merchants and manufacturers will doubtless embrace this opportunity to place their goods and wares on exhibition in large numbers. Under the wise and liberal government of Dom Pedro, there is no reason why a profitable trade should not be built up with that country. England has monopolized it long enough.

Borbon Democrats are not pleased with the course of Speaker Randall in catering to the Greenback element, and suppressed growls are frequently heard emanating from the Democratic wigwam, which threaten to break out into a tempest of abuse at any moment. There is no disguising the fact any longer that there is imminent danger of a rupture in the Democratic party that will result in separating the hard and soft money elements, and arraying them against each other in deadly conflict.

In his parting address to the House, Speaker Long presented the following interesting statistics: There have been introduced into the House 863 bills, 671 having been read in place in the House and 192 presented from the Senate. All were reported upon by committees except 61. Of the 802 bills thus brought into the House 264 were passed finally, 8 are on third reading and 247 were left on second reading. The remaining 283 were negatived by committee or by the House. In addition to the bills, 20 concurrent resolutions have passed.

We can't say what proper business Congress is doing, or going to do. Thus far the called session has been frittered away without accomplishing anything, except adding to the expense of the national Treasury. The bills demanded by the interests of the people, and for the passage of which Congress was called, could easily have been passed in a couple of weeks, if not days, for they had all been carefully matured at the regular session.

We are not alarmed at the action of the Rebel Brigadiers, who are doing their best to procure legislation on the old Calhoun States Rights' platform, for the purpose of weakening the rights of the nation. They are trying to accomplish by legislation what they failed to maintain on the field of battle. They claim that the nation has no rights which the States are bound to respect; and when they want to nullify the laws, or attempt to secede, they want no interference on the part of the national authority; they want to be let alone, and sieze the Forts, ships and all the property of the Nation and convert it to their own use. That they have attempted to do this, is the historical record of the country. Although defeated in their attempt by the abitriment of the sword, they still nurse their wrath to keep it warm, and chant in tones of sorrow the refrain of their "Lost Cause."

It is well that the Rebel Brigadiers expose their scemes, and let the people know what they mean to do if they have the power. But they will not dare to carry out their programme to its fullest extent now. They will back down. They will not dare to starve the army, and they will pass the bill providing for its support. They will not dare much longer to lock up the money collected for the maintenance of the Government, whilst the revenues are collected in the usual manner. Such a financial storm as that would raise, would soon sweep them out of existence; and they know it. They are at the end of their tether, and have done their worst at the present session. They now are taking counsel of their fears.

According to the Salt Lake *Tribune*, a Gentile paper, the scene of the Mountain Meclow massacre is now the very picture of dessolation. Before the Mormons murdered one hundred and thirty-one innocent men, women and children there in 1877, the meadows were known far and wide as a paradise in the desert, with an abundance of grass, crystal streams, and ever-flowing springs. To-day the grass is gone, the water courses dried up, and nothing but a dreary waste marks the once beautiful spot. It is said that the earth is also sinking, and the bones which were collected after the massacre, though thrice buried, continue to re appear, while settlers in the vicinity shun the spot as haunted, and say that the winds from the Meadows bring piercing cries for help to their ears.

The nomination of Ewing and Rice for Governor and Lieutenant Governor of Ohio by the Democrats, necessarily makes the currency the prominent issue in the Ohio Campaign. The resumption of specie payments is already telling on the business prosperity of the country, and the advantages of a sound currency will be so manifest by October next, that there will scarcely be a grease spot left of the soft money ticket in Ohio. Foster and Hickenlooper to the front.

The St. Louis *Globe-Democrat* is charged with having declared in favor of Grant for a fourth term. It says: "This is not correct. We are for Grant in 1880. By the 4th of March, 1885, we hope the Confederates will have learned to behave themselves. If so, we shall conciliate them sufficiently to give Blaine for two terms—1865-73. This is as far as we care to be committed just at present.

Auctoneer.—George H. Hackenburg, of Middlecreek, P. O., would announce to the people of Snyder county, that he will cry sales for real and personal property, at short notice and on the most reasonable terms. He guarantees satisfaction. [Mar.15.77tf.

SPECIAL NOTICE. Many abuses have grown up under the old system of selling sewing machines through "Middlemen," whose cupidity has often led to misrepresentation and fraud.

For the protection of the public and ourselves we have *abandoned this whole pernicious system.* We have abolished the "middleman" and sell *directly through our own salaried agents*, whom we are able to control.

We can thus give to *every purchaser* of a Genuine Singer Sewing Machine the guaranty of a company of 25 years standing, that any machine sold by a "Singer" agent is exactly what it is represented.

The difference between such a guaranty, and the guaranty of an irresponsible, hungry canvasser, whom the purchaser has never seen before and may never see again, is too marked to require comment.

We Warrant Every Machine Sold by us.

The Singer Company have established an office in ULSH'S DRUG STORE, SELINSGROVE, Pa, Machines will be sold on the installment plan at reduced prices.
