# DRAFT OF

Taken from Official Report on Group 23, International Exhibition, Philadelphia

The question, which Mower or Reaper is the lightest? Is a great interest to farmers. To cottle the matter definitely and by reliable authority we give below the draft of the principal machines contesting, from the report of the judges (five American and five foreign) of the great Reaper and Mower trial that took place near Philadelphia, under the authors of the Centennial Commission. At that trial there were twenty different machines tested by the dynamometer. As several of the manufacturers of the machines there tested have since failed and gone into bankruptcy, we quote the

EXHIBITOR.	Distance Run	Heighth of	Width of	Total Draft.	Source Foot of Grans cut.	NAME OF MACHINE.
