

Farm, Home &c.

Potatoes.—Dig the early crop as soon as the vines wither and the downy mildew comes, as they may contain the potato-rot fungus.

Soot falling on the carpet from open chimneys, or from carelessly handled stove-pipes, if covered thickly with salt, can be brushed up with out damage to the carpet.

To clean oilcloths, wash always with warm milk. Once in six months scrub with hot soap-suds, dry thoroughly, and lay a coat of varnish. They will last a long time.

To Clean Bottles.—Muddy bottles or jars may be cleaned with lye or dissolved soda. Let either remain in them a short time, then dry and seal out. Salt will keep off must, if placed in jars or bottles.

When carpets are well cleaned, sprinkle with salt and fold, when laid, strew with slightly moistened bran before sweeping; this, with the salt, will freshen them wonderfully.

Early Peas require still greater care, as they ripen and decay so rapidly. They should be picked before they are at all mellow. Early Peas like the late sorts, are better if ripened in the house.

Fences around the nursery and orchard should be kept in good order; stray cattle may cause much destruction when they once get among the young trees, or even older ones when loaded with fruit.

Clover Seed.—Clover that was mown early for hay may be ready to cut for seed this month. If cut early, the seed may be prepared for wheat. A clover sod after the seed has been taken off furnishes rich soil for a wheat crop.

Horses.—A run at pasture at night will be useful for a team, but either the pasture should be good or the horses should receive a feed of grain before being turned out; pasture alone will not be sufficient for a tired horse that is kept at work every day.

French Pancakes.—Take half a pint of sour milk, one egg, pinch of salt, small half teaspoonful soda, flour to make thin batter; bake in large cakes, spread with butter and currant jelly, and roll them up closely to serve; sprinkle sugar over it if you choose.

Fall Fertilizing.—Experience proves, every season, the wisdom of plowing as much as possible, for spring sowing. Early fall plowing, as the benefit of fallowing for movement, and the earlier it is begun, the more advantages are derived from it; it is more beneficial on heavy land than on light, but light land cannot fail to be improved by it.

PAPER HANGING.

J. W. M. Chamberlain, offers his services to the citizens of Snyder County, Pa. He is a practical paper hanger and decorator, and has had many years experience in his line.
