

The Post. Middleburg, Aug. 14, 1879. J. CROUSE, Editor & Proprietor.

The Fever Still Spreading. Alarming Aug. 10.—The new cases reported to the Health Board today included the eighteen cases reported last night, and which were reported to-day, and twelve additional cases inside the city limits and five outside. Three colored persons are included in the new cases. The cases of death reported to the Health Board up to 10 o'clock to-day were 8.

Bad News, If True. To a pamphlet recently published by the author, Prof. Grinnor, asserts: "From 1830 to 1887 will be one of universal carnage of death. Asia will be depopulated, Europe nearly so. America will lose fifteen million people. Besides the waves, mountains are to lose their heads through the chaotic valleys, navigators will be lost by thousands owing to the mysterious delinquency of the magnetic needle, and islands will appear and disappear in mid-ocean. All the human kind will be swept off the globe by plague in an earthly two years of time—from 1880 to 1897—will come with fury in every part of the globe. In 1897, the 'Star of Bethlehem' will reappear in 'Cassiopeia's Chair,' the immediate result being universal war and pestilence. North America is again to be involved in civil war, unless a Napoleon rises to quell it. During those terrible days the Pacific States will be a veritable Paradise of Peace compared to the blood-streets that will be sowing throughout the world. The few people who may manage to survive till 1897 will have reason to be thankful. All this is at least as probable as the fact that the sun will rise to-morrow. It is a prophecy of the world's destruction, but our mortal perils are so often full, and so large that Prof. Grinnor's but the nightmare when he penned the above.

Doughy & Co's Advertisements. JOIN OUR COLONY. ENLARGED MAY 24, 1879. Price \$100.00.
