Farm, Home &c.,

To clear Cistern Water.—To clear cistern water, add two ounces of powdered alum and two ounces of borax, to a twenty-barrel cistern of rain water that is blackened or oily, and in a few hours the sediment will settle, and the water be clarified and fit for washing, and even for cooking purposes.

Ingrowing Nails.—Pair the nail in the middle, then with a pin put as much cotton under the corners as you can. This will cause the nail to press out. Do this a few times and the difficulty will be remedied. Never pare the corners of the toe-nails; this only makes the matter worse.

Collect some soot from a chimney or stove where wood is used for fuel, put into an old pitcher and put hot water upon it. When cool use it to water your plants every few days. The effect upon plants is wonderful in producing a rapid growth of thrifty shoots, with large thick leaves and a great number of richly tinted roses.

Probably the very best way to protect wheat in the bins from the weevil is to thoroughly fumigate the bins with burning sulphur. This should be done before the grain is put into the bins, and repeated in the course of a month or so after the grain is stored. Some persons use lime and salt, but there is nothing better than the sulphur.

Buttermilk Pudding.—Take a cup of buttermilk and a teaspoonful of saleratus, and repeat it according to the size of your family; add a little salt, enough flour to thicken well, and a few raisins. Steam one hour. Serve with cream and sugar or a sauce made in the following way: One cup of water, one cup of sugar, one fouth cup of vinegar, thicken with flour, and add cinnamon or lemon.

Cheap and Good Vinegar.—To eight gallons of clear rain water add three quarts of molasses; turn the mixture into a clean, tight cask, shake well two or three times and add three spoonfuls of good yeast, or two or three yeast cakes. Let stand in a warm place, and in ten or fifteen days add a sheet of common wrapping paper, smeared with molasses and torn into narrow strips; the paper is necessary to form the "mother," or life of the vinegar. This recipe is from a subscriber, who highly recommends it.

Green corn for Cows.—The value of sweet corn as green food for cows cannot be overestimated. If the stalks are cut green after the ears have been pulled for table use there will be a very perceptible increase of milk, but if the ears are left on there is no other forage crop equal to it The cows will not only give more milk, but there will be more butter in the milk. A small patch will furnish as much as one cow can eat during August and September, when pasture is short. After the frost kills it, it loses its virtue for feed.

Health Maxims.—Nature is very much like a shiftless child, who, the more he is helped, the more he looks for it. The more medicine a man takes, the more he will have to take, whether it be anodyne, tonic or alterative.

The thinnest veil or silk handkerchief thrown over the face while riding or walking against a cold wind is a remarkably comfortable protection.

Never sit or stand with the wind blowing on you for a single moment, for it speedily produces a chill, to be followed with a fever, and then a bad cold.

A hearty meal taken while excessively fatigued has often destroyed life.

A sour look, an impatient gesture, a cross word at the breakfast table, is enough to make the best food indigestible, and spoil the day.

A good laugh is anti dyspeptic.

To spend two or three moments on rising and retiring, in rapid friction of the whole surface of the body with the hand is a more rational treatment of the skin, and a more health-promoting operation for most persons, than a daily cold-water bath.

If you can't get good wages, work for your board rather than do nothing, or go in debt, or live on the earnings or charity of another.

Acidity always arises either from having eaten too much food, or of a quantity which the stomach could not dissolve. The remedy is, eat less each meal until there is no acidity, then you know for yourself how much your stomach can manage! To eat the same amount and as regularly take something to correct the acidity, is certain to cause dyspepsia, or some other more serious form of disease.

Manhood: How Lost, How Restored!

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self indulgence or sexual extravagance, &c.

Price, in a sealed envelope, only six cents.

The celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and RADICALLY.

This Lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, *post-paid*, on receipt of six cents or two postage stamps.

YOU WILL BE SORRY

if you replace that old Pump with a new one and do not first carefully examine the

Buckeye Force Pump.

The Buckeye is the very latest improvement in Pumps. It is constructed with Airchambers which make it very easy to operate. Hose can be attached to the Buckeye Pump, and water can be thrown upon any building in case of fire. You can water your Garden and Yard, Wash Windows, Wash Buggies, and have a

FIRE ENGINE

ever ready on your own premises at no more cost than an ordinary pump. It
