How does Grant and Blaine stand as a Presidential ticket for 1880?

The term for the newly elected Governor of Maine will be for two years.

Every mill in the country loses orders for more than it can produce up to the end of the year.

The Hon. M. S. Quay, Secretary of State, has sold his home at Beaver county, and settled permanently in Philadelphia.

A Deputy U. S. Marshall on Saturday captured Charles Schwartz and his moonshine distillery in full blast at Glen Falls, Luzerne county.

The Republican party was never more solid than it is to-day. The skies are brilliant in New York and Ohio, and in Pennsylvania things are perfectly lovely.

The yellow fever is still spreading in the South. The people are needing donations. Jay Gould sent them \$5,000 on Saturday. The distress cannot be told.

Gen. Benjamin F. Butler, was nominated for Governor and Wendell Phillips for Lieutenant Governor by the National Greenback Party of Massachusetts, on Friday last.

A dispatch from Cincinnati says: It is stated positively that Ewing and the Democratic managers have abandoned the hope of electing the State Electors on Saturday. Efforts are being made to concentrate all effort upon the Legislature. Posters are everywhere conceded and every indication points to a large majority.

Hon. Alexander H. Stephens has been talking on the subject of the next Presidency, and declares in the most positive terms that he will not support Mr. Tilden if he is nominated. There are not many Democrats with the independence and courage to make a similar declaration.

The Ohio election takes place on the 14th of October, a little over two weeks from to-day. The campaign is increasing in vigor and warmth, but the Democrats have evidently discovered that the nomination of Ewing was a mistake. Mr. Ewing is occupying most of the time now in securing the people that Democratic success would not mean the very thing which, until a few months ago, he said it would mean—opposition to re-emption. The Democrats, he says, have no idea of repealing the re-emption act. Perhaps not, but to be sure about it the people will give Foster a very large majority.

Hearney threatens to burn Grant in effigy in the Sand Lots on his arrival in San Francisco. A telegram says that the statement has created intense excitement in the city, and public sentiment is so outraged that if Hearney dares to attempt the effigy business he speaks of, he himself will be hanged or drawn to pieces. It is thought he has gone too far in his bragging, and now everybody wants the blindest drayman to attempt the execution of the effigy business. He would not live an hour, as there is fight in the air. General Grant's arrival there will be everything that a great State can present to an honored citizen.

It is announced from the Treasury Department at Washington that the loss to the Government from the reduction of the tobacco tax by a Democratic Congress at the demand of the Democrats of Virginia, has already amounted to more than three-quarters of a million dollars a month. The total loss for the year will probably reach the sum of ten millions of dollars which will nearly offset the annual saving of fourteen millions of interest by the refunding operations of the Republican administration. The tobacco tax lost to the Government has gone into the pockets of the Virginia planters. It has conferred no benefit of any kind upon consumers or upon the country.

An underground river, cool but shallow, flows beneath Ripon, Wis.

The average size of the farms in this country is 154 acres.

The border counties of the State of Maryland complain of the horde of tramps swarming there to escape Pennsylvania's tramp law.

The mayor of Reading fined two young men three dollars and a half each for using blasphemous language on the streets.

Paterson, N. J., has fifty-five silk mills, twenty-six of them being engaged in the manufacture of dress silk. Another is in process of erection.

Detectives are on the track of the Mardis gang of counterfeiters, who have been operating extensively in Georgia, Cleveland, Blair, Indiana, and other counties.

It is a fact creditable to the public school system of the State that graduates of our normal schools are now superintendents of public schools in other States.

A heavy frost visited the northern and western districts of Pike county, Pa., on Friday night. The buck wheat and corn crops were considerably injured. Ice formed in several places.

America raises wheat two thousand miles from her ports of export, conveys it by rail to the points of shipment, transports and sails it at a building a bushel less than it costs the English to grow it.

Andy Green don't know yet know yet whether he is a Congressman elect or a Congressman kicked. It was the saddest mistake in the life of the old war Governor when he played hands with Governor, and so one regrets it more than he.

Philadelphia is rejoicing over the return of good times. A paper published in that city says that the streets are again thronged with every description of drays and wagons for the transportation of commodities from one point to another en route to the interior. The army of idle men and women is decreasing in numbers, and almost all of the mills and factories have resumed operation. The outlook is promising, many of the manufacturing firms having orders on hand that will keep them busy until late next spring.

Potatoes are only 20 cents a bushel at Lock Haven.

The Republicans of Philadelphia have nominated Enoch Taylor for Sheriff, Willam Marshall Taylor for Register of Wills, and Joseph J. Morton for City Treasurer. The ticket is highly spoken of by nearly all the newspapers. We never saw greater unanimity over any ticket.

The Pittsburg steel casting company have just made three large spur wheels for the Cambria iron company, each wheel seven feet in diameter and fifteen inches face, and weighing over 6,000 pounds. These are the largest steel castings ever made in the country. They were made entirely of crucible steel, with one pound of cast iron in the mixture.

Billy the butcher is a Savannah negro, so called because of his butchering capabilities. His common feat is to break an inch board by running his head against it. Therefore, when he is charged angrily at Mr. Howard with his head down, Mr. Howard naturally thought his life was in danger, and hastily fired with a pistol. Probably his fear was well founded, for the bullet glanced off the negro's hard skull, simply stunning him.

A Pittsburg man, who had lived thirty years in this world, wood, and won a maiden of sixty-five. One glass eye and a scarcity of teeth and hair did not cool his passion for the lady, especially as she had a snug income, and they were well. Not happily, as he spent too much money, and she had a temper that was not the least backward in asserting itself. At the end of three weeks and a honeymoon in Philadelphia the young husband was, in the slang of the day, "bounced" by the bride, and she thinks what an old fool she was to have ever married.

Thomas Keller, a farmer, living in Plainfield township, Lehigh county, while engaged in hauling logs on Saturday last on the wagon with him a two year old daughter. By a sudden jolt the child was thrown from a log under the wheels of the wagon and the head of the infant was almost severed from the body, causing instant death. The child did not utter any sound and the wagon moved on about a rod before Mr. Keller noticed what had happened. He turned by chance to look after the child and saw it lying still in the road. Stopping his team the farmer went back and discovered that his child had been killed.

T. A. Scott, President of the Pennsylvania railroad company, who has been summing in Europe, Asia and Africa arrived in Philadelphia on Wednesday, in the steamship "Ohio." Mr. Scott left Philadelphia on his tour abroad November 4, 1878, and during the winter he spent most of his time at Nice, in the south of France. His departure was caused principally in consequence of ill-health, brought on by a want of relaxation from business. During his absence he made the grand European tour, and also went up the Nile. He returns with his health greatly improved, and in a few days will resume control of the road, which duty has devolved upon Vice President Roberts during his absence.
