Doctor Shinde went to Elias Hummel's in Franklin township, to see a patient, on Saturday afternoon. He hitched his horse to a post and went into the house. As for that it was the horse's name, slipped off the bridle and came up to town at a rapid rate. Philip Zorp was sitting in Gift's Store and seeing him pass ran after and captured him before he reached the Dock Store. The horse brought the buck-wagon home safe, sound and fearfully muddled. Shiff B. went after the Doctor.

What to put in the Garden, of the many hundreds of sorts of Peas, Beans, Cabbages, Corn, Sweet Corn, Lettuce, Potatoes, Tomatoes, Beets, Carrots, Cucumbers, Malons, Radishes, Cereals, Onions, etc., etc. (each variety praised by its seller), is an important question. A right choice of kinds will return many dollars worth more for the same labor and expense, even in a small garden. To help all in deciding, Peter Henderson, the highest authority in such matters, has tested, side by side, over 800 varieties of the above garden products, and he gives the results in the American Agriculturist for March 1st. This number has much other practical, seasonal information, illustrated with over 100 engravings, and is alone worth the cost of a whole year's subscription, which is only \$1.50, and copies for \$5. Orange Juice Company, New York, are the Publishers.
