Farm, Home &c.

What to Do in Certain cases and How to Do it.

1. Child two years old has an attack of croup at night. Doctor at a distance. What is to be done?

The child should be from thirty undressed, and put in a warm bath. Then give an emetic composed of one part of antimony wine to two of ipecac. The dose is a teaspoonful. If the antimony is not at hand use warm water, or any other simple emetic; dry the child and wrap it carefully in a warm blanket.

2. Head girl scratched her knee violently.

First bathe in warm water, then put the white of an egg in a saucer, stir with a piece of alum the size of a walnut until it is in a thick jelly; place a portion of it on a piece of lint or tow large enough to cover the sprain, straighten it as it seems warm or less; the limb is to be kept in a horizontal position by placing it on a chair.

3. Boy swarm and the man who hives them gets severely stung in the face.

The sting of a bee is hollow and barbed, and as it contains poison, the first thing to be done is to remove it. The part stung should then be bathed in warm water, and a little ammonia be rubbed in it.

4. Some one's nose bleeds and cannot be stopped.

Take a plug of lint moisten in equal part of powdered alum and gumarabic; and insert in the nose. Bathe the forehead in cold water.

5. The child eats a piece of bread on which arsenic has been placed for killing rats.

Give plenty of warm water, new milk in large quantities, gruel, linseed tea, foment the bowels. Scrape iron rust off anything, mix with water, and give in large draught frequently. Never give large draught of fluid until those given before have been vomited, because the stomach will not contract properly if filled and the object is to get rid of the poison as quickly as possible.

6. Young lady sits in draught, and comes home with a bad sore throat.

Wrap flannel around the throat, keep out of draughts and sudden changes of atmosphere, and every half hour take a pinch of chlorate of potash, place it on the tongue and allow it to dissolve in the mouth.

7. Nate suffers from a whitlow on her finger.

Place the whitlow in water as hot as can be borne, then poultice with linseed meal, taking care to mix a little grease with the poultice, to prevent it from growing hard. Bath and poultice morning and evening.

8. Child falls backward against a tub of boiling water, and is much scalded.

Carefully undress the child, lay it on a bed on its breast as the back is scalded, be sure all draughts are excluded, then dust over the parts scalded bi-carbonate of soda, lay muslin over it to make a test, by placing two boxes with a board over them in the bed, to prevent the covering from pressing on the scald; cover up warm.

9. Mower cuts driver's legs as he is thrown from the seat.

Put a tight bandage around the limb above the cut, slip a cork under it, in the direction of a line drawn from the inner part of the knee to a little on side of the groin. Draw the edges of the cut together with sticking plaster.

10. Child has a bad ear ache.

Dip a plug of cotton wool in olive oil, warm it and place it in the ear. Wrap up the head and keep out of the draught.

11. Young goes to skate, falls into an air-hole; brought home insensible.

Strip the body and rub it dry; then rub with a warm blanket and place in a warm room. Cleanse away froth and mucus from the nose and mouth. Apply warm bottles, bricks, &c., to the armpits, between the thighs and the soles of the feet. Rub the surface of the body with the hand incased in a warm, dry, worsted sock; to restore breathing, close nostrils and breath steadily into the mouth; inflate the lungs till the breast be raised a little, then set the nostrils free and press gently on the breast until signs of life appear. Then give a warm drink and put to bed. Do not give up all hope for at least three hours after the accident.

12. Child gets sand in his eyes.

Place your forefinger on the cheek-bone, having the child before you; then draw up your finger and you will probably remove it; but if you cant get at the sand in this way, repeat the operation while you have a knitting needle laid against the eyelids; this will turn the lids inside out and then the sand may be removed with a silk handkerchief. Bathe in cold water and exclude the light for a day.

BEST IN THE WORLD!

ABSOLUTELY AND CHEMICALLY PURE

ARM AND HAMMER BRAND

CHURCH & CO'S BI-CARB. SODA.

AND

SALERATUS

Which is the same thing.

Impure Bi-Carb Soda or Saleratus (which is the same thing) is often slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "ARM AND HAMMER" BRAND will show the difference.

See that your Saleratus and Baking Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food.

Housekeepers who prefer bread made with yeast, will improve its quality, make it rise better and prevent it from souring, by adding one-half teaspoonful of Church & Co's Soda or Saleratus. Be sure and not use too much. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.

Send 2c stamp for package for valuable information and read carefully.

CATARRH.

BROCKVILLE.

C. B. LITCHFIELD & Co., —DEAR SIR:— I have been troubled with Catarrh in all its forms for 20 years, and have used all remedies recommended to cure, but received little or no benefit, until I tried the CONSTITUTIONAL CATARRH REMEDY. I have only used one bottle and a half and I am so much better that I can say it has cured me. My daughter-in-law has also been afflicted for the last four years—she is now using the remedy with the same result. I can truly say it is a wonderful medicine, as I know from experience that it will cure any case of Catarrh. I formerly lived at Napanee, Ont. Hoping that you will introduce the medicine through the Dominion thoroughly, so that my fellow sufferers may have an opportunity of getting cured of this disease.

Yours respectfully,
NELSON SHOREY.

N. B.—I have always been subject to headache; since taking the Constitutional I have not been troubled in the least. It will cure headache in two or three hours. June 8, 1880-2m. N. SHOREY.

YOU WILL BE SORRY
if you replace that old Pump with a new one and do not first carefully examine the
Buckeye Force Pump,
The Buckeye is the very latest improvement in Pumps. It is constructed with air-chambers which do make it very easy to operate. Hose can be attached to the Buckeye Pump, and water can be thrown upon any building in case of fire. You can water your Garden and Yard, Wash Windows, Wash Buggies, and have a
FIRE ENGINE
ever ready on your own premises at no more cost than an ordinary pump. It

in cold weather. Durable beyond a doubt. The very pump for deep wells. The working parts are inside or underground and valves within a porcelain lined chamber. Nothing to decay about it at all.
Iron Turbine Wind Engine
is also a great improvement in Wind Engines. Call and see these pumps in operation, or for particulars address
