Farm, Home &c.

(From the American Agriculturist for May 1.)

May is a very busy month, and there is so much work crowded into it that a farmer is in danger of being in a hurry. Every hour of work should be so planned that it will tell most effectually, and this requires considerable thought in order to do the most urgent and important work first, and leave undone those things which may be done almost as well bye and bye. As we sow so do we reap, and as this is the month of sowing, the work now will in great measure determine what the harvest of the year shall be. Keep pushing on, but with a plan.

Meadows.—Pick up any stones that may have been raised above the surface from the action of frost. The roller may be used to bring the surface into good shape for the mower. Meadows are frequently injured by the tread of cattle before the ground is fairly settled. The grazing of meadows in spring is at the expense of the hay crop. It is better to keep cattle in the barn until the pastures are ready to furnish them a full ration.

Beans.—Plant the bush sorts in drills 18 inches apart, as soon as there is no danger of frost. The Limas are not to go in until the cold rains are over and the ground well warmed. Set the poles 4 feet apart, and afterwards plant four or five beans to each pole, thrusting the seeds into the soil with the eye downward. See that the poles are firmly set.

Egg Plants.—Nothing is gained by setting plants in open ground until warm weather sets in. Push them with a good supply of rich manure. Liquid manure may be used, and with very good results.

Peppers.—Set out plants when the weather has become settled. A few should be in every garden.

Washing Sheep.—A deduction of about ½ is made by the wool buyers for all unwashed fleeces, and this is right if the washing is properly done. Take it all in it is best to wash the sheep, though there may be cases where it is not convenient, expedient, or even safe.

Curculio of the plum stings the fruit while it is quite small. The trees should be jarred in early morning, beginning when they are just passing out of flower, and the sluggish beetles caught on a sheet opened beneath the tree for the purpose. After wards these caught on the sheet should be burned.

Potatoes Cut to Single Eyes.—A Pennsylvania farmer, writing to an exchange, says: "I must give my experience in favor of cutting to single eyes, having practiced it for number of years, and I know whereof I speak. Two years ago I had early rose yield at the rate of 488 bushels per acre by cutting to single eyes, planted in a moist, sandy loam, three inches deep, and not hilled up. Last year I got two Japlume triumph potatoes from Mr. Tillinghast, with a package of other seeds, and cut them to single eyes. There were only twenty-two eyes in the two. I planted them in hills, three feet apart, a single eye in a hill, and obtained a very large bushel of large potatoes. In several instances I found three tubers as long and broad as my hand, and about two inches thick, all fastened to one stem, coming from one eye. The potatoes were excellent—better than the early rose—whiter and more mealy when grown side by side."

Fresh Grass and Salt.—Cows in spring time, when first turned out to pasture, require salt more frequently than at any other season, but in the hurry of spring work they are very likely to be neglected. The best way to insure a supply is to put a box under cover, or when the animals can at all times reach it without assistance. In this way all danger from neglect through carelessness of laborers will be avoided.

Saturating ashes with kerosene and applying a handful in a hill, will keep the striped bugs from cucumbers. It is not the bugs who recommend the receipt, but the people who have tried it. It is said to be more effective than a Legislative enactment.

Charcoal pulverized and mixed with water is highly recommended for relieving cattle suffering from any derangement of the stomach, such as bloat, hoven, etc.

Oats supply more more nourishment and flesh-making material to horses than any other food, but oats alone are not conducive to the best results. Mixed food is best.

Live Stock.—The coat now changes and good brushing or carding helps the shedding of the old hair by stimulating the skin.

CATARRH.

LIMA, O., Oct. 18, 1878.

C. B. LITTLEFIELD & Co.:—My son Horace has suffered for years from Catarrh in its most aggravated form, and, after trying numerous remedies, was induced to try CONSTITUTIONAL CATARRH REMEDY. After using three bottles he is effectually cured; although exposed nightly to cold and wet in his capacity of city lamplighter. Yours truly,
ALEX. MASON.

I have sold your CONSTITUTIONAL CATARRH REMEDY for two years, and there has been a general universal expression of satisfaction with it. I am a physician of the old school, and am very cautious of recommending articles of which I do not know the contents; but from my observation of the good effects of the medicine, I feel that I can conscientiously recommend it.

BEST IN THE WORLD!

ARM AND HAMMER BRAND.

ABSOLUTELY AND CHEMICALLY PURE.

CHURCH & CO'S BI-CARB SODA.

AND

SALERATUS

Which is the same thing.

Impure Bi-Carb Soda or Saleratus which is the same thing is of a slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "ARM AND HAMMER" BRAND will show the difference.

See that your Saleratus and Baking Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food.

Housekeepers who prefer bread made with yeast, will improve its quality, make it rise better and prevent it from souring, by adding one-half teaspoonful of Church & Co.'s Soda or Saleratus. Be sure and not use too much. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.

See one pound package for valuable information and read carefully.

SHOW THIS TO YOUR GROCER.

YOU WILL BE SORRY

if you replace that old Pump with a new one and do not first carefully examine the

Buckeye Force Pump.

The Buckeye is the very latest improvement in Pumps. It is constructed with air-chambers which make it very easy to operate. Hose can be attached to the Buckeye Pump, and water can be thrown upon any building in case of fire. You can water your Garden and Yard, Wash Windows, Wash Buggies, and have a
