Communicated.

Dear Editor, and Readers of the Post. After a number of years' experience in connection with the Public Schools, it is our humble opinion that the County Superintendent is a worse than useless appendage to the Public School System, and ought to be done away with as speedily as possible while the money now expended in its maintenance, should be applied to a better purpose.

In some of the western states, each county is provided with a Board of Examiners consisting of at least three gentlemen of some years and experience in teaching, whose duty it is to hold Teachers' Examinations at stated times, and who are paid by the day for their services. By such an arrangement, teachers may not only be examined and licensed at about one-fifth of the cost now incurred in Snyder County but the abilities and attainments of the several teachers, are generally ascertained and set forth with more fairness, than is the case where all authority is vested in an ignorant, small-brained, selfish little individual.

The laws of our Commonwealth, however, make it necessary for us to tolerate the "County Superintendent," and such being the case, it should be rendered as endurable as possible, but, to the disgrace of Snyder County, the office, useless and expensive as it is, has been rendered odious, by certain would-be-politicians, who have appropriated it, and employed it as a means for the advancement of their own selfish interests, and one of the results of their iniquity is, that a person totally incompetent and unfit, is now enjoying the emoluments, and pretending to exercise the functions of this office.

Behold the youth who now proclaims himself "Co. Supt.," and mark the strange effects produced by his transition from his former condition, to this the highest, grandest pinnacle of terrestrial glory. A peculiar conglomeration of opinions as to who, or what he is, now seems to exist somewhere beneath his hat, all shrouded in the mists of uncertainty.

See him at times assuming the airs of a proud steed, as he prances with beauty and dignity along the sidewalk. See him at other times assuming the wisdom and authority of the ancient, hoary patriarch, as he "superintends" the small boys of thirty or forty, in the management of their schools, and again behold him as he ascends the throne in awful majesty, and the "small fry," fearing and trembling, approach the terrible presence, to receive his astute decision as to their "professional competency."

Let us see if we know who, or what he is. At a period in the past, to which the memory of man runneth back, this same identical Billy Scharf, set himself up as a lawyer in Selingsgrove, Pa, but owing to the smallness of his intellectual caliber, and his inferior standing, his legal career soon came to grief, and persons desirous of employing an errand-boy, a hostler, or a man-of-all-work, were naturally attracted toward "that boy of Scharf's." But brother-in-law Lombard saw \$3000, and he thought well of it; so after putting Billy through a hasty process of metamorphosis, with an ineffectual effort to relieve him of his straddling garments, this natural stable-boy and bar-tender was, at all events, set up a brand new "Co. Supt.," and the thing was done, and, inasmuch as William has been largely "tickled" by the Selingsgrove Normal School, he now turns around and "tickles" the Normal School, and those young people who have a few dollars to invest in Normal tuition pretty generally receive very nice certificates, while some of your sons who have attended said Normal schools, and have received good certificates from superior authorities receive very poor certificates and can't teach because Billy Scharf says so, and then for these services, you compensate him with \$1000, per annum; and so it must continue, while he remains in office, because his egotism, and self-esteem, together with his imperfect powers of discernment, and his ignorance in the branches of learning, render him incapable to decide intelligently and fairly upon the attainments and abilities of teachers generally, but especially so of those who are his superiors; and if any doubts are entertained as to his ignorance and incapacity, let him be required to appear before the writer for a public examination, and then you shall see if he does not fail to answer as large a percentage of questions, as some other "ignorant teachers." The public will soon be bombarded with a shower of recommendations and testimonials in his behalf, from certain "Professors" in Selingsgrove and elsewhere, but we caution all against these "Professional" gentlemen, because they are bound by self interest or something else, to support him, and we hope that the honest citizens of Snyder County, will acquaint themselves thoroughly with all the circumstances connected with this creature's accession to the Superintendentcy, so that they may properly estimate the value of smooth statements no matter where they come from. Some of the facts are, that when vacancy was about to occur in the Superintendentcy, Scharf was not eligible thereto, and after having been examined at a certain time and place in order that he might become eligible, he was rejected on account of his ignorance and utter incompetency, whereupon, brother-in-law made fervent prayer that Scharf be rendered eligible regardless of his ascertained ignorance and of the declarations of some of the best authorities in the state, that

was utterly unqualified and incompetent to discharge the duties of Co. Supt.

But what are the other facts in this matter. How did these characters get hold of the office? Understand it Readers, desire could no longer be held in subjection, and a ruse was made.

Now Citizens of Snyder County, are you content and satisfied with the manner in which the Selingsgrove ringsters have all along manipulated the political interests of Snyder County? Do you not remember the times a few ways without number, in which your wishes have been disregarded and yourselves trampled upon, so that these petty politicians might have a good fat time to themselves? And have not all your Snyder County newspapers, excepting the unclean product of Lombard, shown you and pointed out to you, over and over again the insults and indignities which have been heaped upon you? Are you willing that your officers of trust and responsibility shall be trucked and trafficked as commodities of trade, and yourselves bought and sold like sheep in the shambles? If you are not, then why endure it? In your own hands lies the power for its discontinuance. Use your power. Don't stand around like many putty heads, each looking at the other, and all waiting on some one else to make a move in the right direction, but let each voter go to work at once with all his might to destroy the cause of the many black stains upon the page of your county's recent history, and let the home of honest old Governor Snyder, be again proverbial for the honesty of its political management, as well as for the thrift and integrity of its sturdy yeomanry. In conclusion, we would say that Lombard & Co. having been already reworded with \$3000, for their dirty jobbery in the matter of the County Superintendentcy, they now desire to have their reward doubled. They desire to pocket not only \$3000, but \$6000, of the people's money. But will you permit this, Citizens of Snyder County? No. Down with the Selingsgrove ring. The wishes and interests of other portions of the County shall be heard hereafter and Selingsgrove shall have a wholesome little season for penitence and "reconstruction."
