

THE POST. Middleburg, June 9, 1881. Local News, &c.

RYDER COUNTY COURTS.—The Courts of Snyder County are held on the fourth Monday of February, May, and September, and second Monday of December.

—All communications, business letters &c., for this office, to secure prompt attention should be addressed as follows: THE POST, Middleburg, Snyder County, Pa. Advertisements, communications &c. must be handed in by Monday noon, to secure insertion in next issue.

Committee Men. The following named gentlemen compose the standing committee of Snyder county for the ensuing year:

- Adams—J. E. Fetterolf, J. J. Shrader, Beaver—J. D. Conrad, S. J. Gundrum, Beaver W.—Wilson, H. Ush, P. H. Knapp, Centre—Chas. E. Sampsel, Chas. W. Sanders, Chapman—J. K. Peck, G. B. Wiser Jr. Franklin—Chas. Boyer, Lewis Miller, Jackson—S. Gross, H. Bouze, Middlebrook—J. P. Keeler, Harry Sholtz, Middleburg—G. A. Schoch, N. Seharbach, Monroe—T. P. Hummel, J. P. Wagner, Penns.—W. H. Boyer, W. W. Row, Perry—J. R. Arbogast, Geo. Brosius, Perry W.—S. Zimmerman, J. G. Graybill, Selingsgrove—A. W. Gemberling, A. J. Fritz, Union—J. N. Houser, E. M. Houser, Washington—P. B. Moyer, H. C. Fisher.

This is the month of roses. Venner has our entire confidence. The Band have built a new wagon. Salt fountains are raging in this vicinity.

There are ten normal school in Pennsylvania. "Mother may I go out to swim?" is the song of the small boy. Broken promises bring disrespect and want of confidence.

Corn plants are in great demand as cabbage plants. Monday evening, June 6th, was cold enough to call on the heavy coats. James Rothrock has taken possession of his new house, in Franklin.

William H. Snyder, Esq., has moved his Insurance Office to Selingsgrove. Many people think a baby is born only to swallow medicine for months. The snow is fully three feet deep yet in the ravines of the Allegheny mountains.

And now ice-water is said by some physicians to produce Bright's disease of the Kidneys. Miss Mand Arnold returned from Akron, Ohio, where she was attending school.

We saw a fellow, the other day, with a bundle on his back—he was carrying a county. The stabling belonging to the Washington House has been removed to adjoining lot.

The Industries Men's Association will postpone all initiations until after this cold snap. John Miller & Co., of Selingsgrove, frogs, captured 21 dozen of the critters up Middle Creek.

William Kohler and wife, of Port Royal, Juniata county, are visiting Middleburg relatives. We have often read of "unintelligent feasts," but never saw any mention of sauer kraut being served.

John Hoch and wife, Philadelphia, are visiting Albright Swineford particularly and friends generally. Michael Schoch and wife, two of our oldest inhabitants, are very ill. Mrs. S. is dangerously ill.

Now that the picnic season is here once more, the attendance at Sabbath schools is on the increase. Never allow matches to lay round unless you are anxious to have a general conflagration. No charge for this advice.

Henry Reninger is about to remove the building occupied as Furniture Rooms to the corner of his lot fronting Main Street, Franklin. Mosquitoes haven't near so much business on hand and, therefore, don't present their bills so frequently this June as other Junes.

Laborers' wages in Mexico, which were 19 cents per day, have now, under the influence of the railway boom, reached the high rate of 43 cents a day. Above Harrisburg the ague is called the "Junata jige," at Harrisburg the "Bosquehanna shakes," and down at Lock Haven the "West Bra. ch. twitches."

1,350 bushels of wheat was shipped from the Packer island farm one day last week. This is the largest shipment of grain ever made from this farm at one time. Old Mrs. Dunkleberger, of Perry county, has bought property near Liverpool, the proceeds of insurance policy premiums on her life, which is insured for about \$400,000.

George Steiler's team of horses made Beavertown lively on Monday morning. The horse became frightened, reared, and brought up in Mrs. Murray's show-window.

Brain Cradles for sale by Simonton, Barber & Co. Destroy the caterpillars—the earlier the easier. The baby carriage now monopolizes the sidewalk.

Do not hitch your horses to the shade trees. Chambersburg has numerous boot-blacks making from 75 cents to \$1 a day.

Do not fall to call and see the elegant stock of lawns just opened by Simonton, Barber & Co. Advertising is like fishing—the more lines you put out the more fish you catch.

We are progressing as a nation. The wheelbarrow is now called the unicycle. Another lot of those elegant Mackerel and Lake Herring just received by Simonton, Barber & Co.

Boys who jump on moving trains continue to be ground up on the railroads at the rate of three or four a week. The oldest inhabitant can't remember a year when corn was so destructive to the corn as this year—fence-nice, red ants, cut-worms, black-birds, crows and various other varmints too numerous to mention!

Ayer's Ague Cure has saved thousands of lives in the malarial districts of this and other countries. It is warranted a certain and speedy remedy, and free from all harmful ingredients.

SOME WORM.—There is no doubt but Mr. Jesse Clouser of this place feels relieved. It is natural that he should, for Dr. Strickler on Saturday succeeded in taking from him a tape worm over twenty-nine feet in length. The worm was alive when it came out, and lived over an hour.—Bloomfield Times.

The Beavertown Mutual Fire Insurance Company insured more than \$100,000, worth of property during the month of May. No local company in the state, or elsewhere, with no greater territory can show a healthier condition.

The plans of the company are wise and sound—the officers are men of business qualifications and integrity, and its agent, A. A. Ush is particularly adapted and qualified for the business.

LIGHTNING IN MILTON.—THE MILTONIAN says: During the storm of Tuesday evening, the lightning struck the house of Thomas Brooks, on Lincoln street, Upper Milton. The electric fluid went in at a window, run along the floor to a stove, and then through the floor, setting fire to the same before going to the cellar. The blaze was extinguished, and no further damage done, although one of Mr. Brooks' children was sitting close to the stove when the lightning struck.

Always keep a lamp full of oil. Never allow it to get more than half empty as the space above fills with gas, which is easily ignited, especially if the oil is not thoroughly rectified. Turn the flame down by hand as far as you can, then give a quick, strong puff down the chimney, instantly extinguishing the small remainder of the flame. Never blow a full flame down the chimney, as it may be blown amongst the gas in the lamp and cause an explosion.

SCIENTIFIC SOPHISMS. A review of current theories concerning atoms, apes, and men. By Rev. S. Wainwright, D. D. No. 22 of the HUMBOLDT LIBRARY OF SCIENCE. Price 15 cents. J. Fitzgerald & Co., Publishers, 143 4th Ave., N. Y.

This work will commend itself both to the skeptical scientist and to the firm believer in Divine Revelation—to the former by the eminent fairness with which the doctrines of the modern scientific philosophers are weighed before they are condemned; to the latter by the forcefulness of the criticism to which it subjects the generalizations of rationalistic Science, and the vast wealth of learning with which the author maintains his positions. The work is the latest, as it is also the strongest defense of Revealed Religion against the assaults of Agnosticism. Files of the Library for sale by A. K. GIFT.

Always New. Ehrlich's Fashion Quarterly is one of those publications of which the ladies (Heaven bless them!) never tire. Season after season it comes to tell its readers in which direction the weather vane of Fashion points—what stuffs and patterns are likely to be most in vogue—what styles are likely to worn—and what prices are ruling in the great Metropolitan retail marts. Its practical utility is unquestionable. Most Fashion periodicals are simply promoters of extravagance; but the Fashion Quarterly suggests economy on every page. Instead of the usual reprints of the designs of Parisian couturiers, it gives its readers illustrations of solid, serviceable articles of wear for every day use, drawn from actual garments of American make, with a description of the materials of each, and a statement of the prices at which they can be furnished.

The Summer number, just received, fully sustains the record of its predecessors. Briefly, we heartily commend the Fashion Quarterly to our lady readers. Its price is only 50 cents a year, or 15 cents a copy, and its publishers are Ehrlich Brothers, Eighth Avenue, New York.

Communicated. Editor Post: One of my neighbors called my attention to an article in the last issue of the Selingsgrove Times intimating that you had paid me for advertising the Mercantile Appraisers List in your paper. Now, I do not know who that lunatic is that wrote that correspondence but am told that he also signs "Green Boy" occasionally. He must be either "green" or a downright fool having for his sole object the eking out an inward ire against you. I deem it but just in your behalf as one of my best friends to refute any such charges, as for myself I pass it with the consideration of the source of its origin, if suspicion proves well founded.

Allow me, therefore, to say, through the columns of your paper, to your readers that all the conversation that ever occurred between us in reference to this matter was your asking me for the printing, whereupon I replied, "you shall have it and I would have given it to you if you had not asked for it." My reason for this is simply because you have always extended to me the open hand of charity when I stood most in need of help, and I would consider myself very ungrateful if I would not remember you whom I have tried, and regard as one of my firmest friends. If "occasional" has nothing better to say of his neighbors he had better lay down his pen and attend to the cultivation of his land which was bought from money received from employment furnished by you. If my inquiry as to who that correspondent is has led to the proper person, and I think it is pretty near the mark, it is not to be wondered at why he finds fault with what I have done, his own ungratefulness to you leads him to think that every body else should stoop as low and become as small as he has shown himself. When I say in the outstare that my neighbors informed me of this, it may at once be inferred that I am not a subscriber to the Times, nor have I been, since the editor of that paper treated my old friend Jack Cummings like "occasional" treats you.

DANIEL GARMAN, FREEBURG, June 6, 1881. The following articles we copy from the Perry county ADVOCATE & PRESS. SUDDEN DEATH.—We are sorry to learn of the death of Mr. William S. Mitchell, a prominent citizen of Oliver township, which occurred on last Monday forenoon about 11 o'clock. Mr. Mitchell was helping at his shad fishery, and was standing on the shore holding one of the ropes of the seine, when he suddenly dropped to the ground and died in a few minutes. The cause of his death was pronounced heart disease. He was about 56 years of age.

ANOTHER SUDDEN DEATH.—We are sorry to record the sudden death of Mr. Adam Small, a well known and highly respected citizen of Centre township, which occurred about one o'clock on last Monday. Mr. Small and a man named Klinepeter were in the saw and chopping mill. Some corn and oats had been placed in the hopper, and Mr. Small started to go down the steps quickly to adjust the burrs, when it is supposed he was seized with vertigo and fell down the steps. When first picked up he was insensible, but recovered enough to answer a couple of questions. He was taken to the house and Dr. Strickler present for, who soon saw that the old gentleman was beyond help. The accident occurred about 10 o'clock and Mr. Small continued to sink until 1 o'clock, when death came to his relief. He was in the 76th year of his age. That morning he sent money with a neighbor to pay for the coffin of his wife, who died about two weeks before him.

A TERRIBLE ACCIDENT.—A most terrible accident occurred on last Thursday afternoon at the raising of foot log at Briner's (or Morrow's) fording across Sherman's Creek in Tyrone township, resulting in the almost instant death of John W. Wormley. About 35 men were engaged in pushing up a large log forty-five feet in length, and when the log was up and ready to drop in its place on the frame work, the men at one end, among whom was Mr. Wormley, suggested that their end of the log should be fastened, as they foresaw the danger, but in the usual hurry and excitement incident on such occasions, the log was immediately thrown on the frame and being too short it in some way rolled off and fell back among the men who were standing in the water below. In its fall it struck the unfortunate man on the head and neck, crushing him down under the water. The men went quickly to his aid, and found the log lying across his breast. When taken out from under the water it was found that his side and breast was terribly bruised, beside the injury on his head and neck. He was taken home and lived until about 5 o'clock—about 2½ hours after the accident. Sad as the accident was the great wonder is that there were not more persons hurt, as the log coming down so unexpectedly and the water being knee-deep there was but little chance and less time to get out of the way. This should be a warning to those engaged in such dangerous work, as most such accidents occur through excitement of the men regardless of the danger of the work.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Pueris or Leprosy, of twenty years' standing, by the CURCURA RESOLVENT internally, and CURCURA and CURCURA SOAP externally. The most wonderful case on record. June 2, 1881. 4w.

The Fourth of July occurs on Monday this year.

Some one stole J. W. Orwig's cabbage plants. There is a man in Tunton, Mass., to whom his life has been pretty much like going through a threshing machine. He has been shipwrecked, was shot in the neck at Gettysburg, narrowly escaped being burned to death in a railroad accident, was confined in Libby prison, fell overboard from a whaler and had two of his fingers bitten off by a shark before he was rescued, was twice drafted in the army, had his arm broken in two places, had a halter around his neck, and came near being hanged in Alabama at the beginning of the war, was crushed by a falling building in California and had nothing to eat or drink for fifty hours, and once came very near being lynched through mistake. If that man isn't a little careful he'll get hurt yet before he is done with it.

The Greatest Blessing. A simple, pure, harmless remedy, that cures every time, and prevents disease by keeping the blood pure, stomach regular, kidneys and liver active, is the greatest blessing ever conferred upon man. Hop Bitters is that remedy, and its proprietors are being blessed by thousands who have been saved and cured by it. Will you try it. See another column.—Eagle.

It will pay every body to examine the immense Stock of Furniture for sale by the Popular Furniture man W. H. FELLIX Lewistown Pa.

The hens are preparing for Easter laying for it, so speak, SOMERSET HERALD. The only objection we have to them is that they do not meet it squarely. They go at it in a kind of round (about) way; but we are of the opinion that this could be remedied to a certain extent by the use of M. B. ROBERT'S POULTRY POWDER, for it makes the hens act "on the square" by laying double-yolked eggs. She went to the play of "Olivette." And near an open window she sat, And by so doing she there met The fate of all who rashly get So imprudent.

She saw a notice in the weekly STAR, "To Cure a Cold—Use SIXES' SYRUP OF TAR." So she went to her druggist, and then Invested with a single quarter In the article.

Now if you only have occasion to see, How earnest and vehement she be when telling show quickly and entirely. She was cured of the cold, caught on and she'll surprise you.

It is said that there is only one thing in the world that is sure, namely—death. We can now add another sure thing—SIXES' SYRUP OF TAR. Its sure to cure a Cough or Cold.

A promising young horse has been named Dr. Finner in hopes that it will make him fast. EXHAUSTION THAT might do for some horses; but we had rather take our chance on a package of M. B. ROBERT'S HOUSE POWDERS, as they guarantee a healthy and vigorous constitution, which is essential for any horses speed and endurance.

"Of all sad words of tongue or pen The saddest are these, 'It might have been.'" The above question was forcibly brought to mind the other day by hearing a young lady remark that she would not now be dying with Consumption, if she had taken SIXES' SYRUP OF TAR, WILD CHERRY AND HORSERADISH, in November last and cured her cold, as a friend of hers did.

We understand that all the farmers' horses in this section that are given M. B. ROBERT'S HOUSE POWDERS are able to plough from one third to one half more acres per day than those that are given any other, owing to their invigorated, tonic, and purifying qualities. We advise all those that have not used them to do so. They are not adulterated with bran or cake meal and sold by the pound, but are put up in neat packages from pure drugs and sold for 25 cents by all druggists.

SPRING CLOTHING CHEAPER THAN EVER! THE PUBLIC IS CORDIALLY INVITED TO CALL AT Suits for Men as Low as \$3.00. You can buy better clothing at lower figures than at any clothing house in Central Pennsylvania.
