Vennor says of this month: "I cannot but think that August will be another month of storms and unusal rainfall, with one or two remarkably low curves of temperature. This race will be open to all companies in the country and a great time is anticipated. In the State race a prize of $200 will be offered, $100 to first, $60 to second, and $40 to third.

That Lewistown was selected as the site of the Military encampment which takes place August 5th next is largely due to the personal influence and efforts of W. M. Phillips, Esq., superintendent of the Sunbury & Lewistown Railroad. The indications are that the present will in every respect eclipse all previous encampments, and promises a bountiful harvest to that ancient borough the profits of which will be shared by all her citizens.

Superintendent Phillips is rightly esteemed and appreciated by the citizens of Lewistown; and not only by them, but by all the citizens along the line of the road. The new station at Selinsgrove is a model of architectural beauty, economy and skill. Notwithstanding the large amount of heavy freightage and the number of trains passing over this single-track road, the road-bed bridges, culverts, sidings, and main track are in such excellent condition as to attract the notice of the commonest observer. Mr. Phillips adapted to his high and responsible position by the peculiar gifts of nature, by education and training—possessed of a large amount of dash and energy a full measure of cautiousness gives it equipoise—progressive, energetic, capable, he is the right man in the right place.

Care-worn persons, students, weak and over-worked mothers will find in Brown's Iron Bitters a complete tonic, which gives strength and tone to the entire system.

A good medicinal tonic, with real merit, is Brown's Iron Bitters, so all druggists say.

The surviving members of the 110th and 125th Regt., Pa., Vols., will hold a reunion in Tyrone on the 16th of September. The members of the 84th regiment and 2d, 9th, and 12th cavalry have been invited to meet with them. If possible arrangements will be made for cheap excursion rates over the various railroads.

SHOT HIS GRANDFATHER.—Irwin Frank, an employe at the Newport Furnace, Monday last was arrested for emptying the contents of a shot gun underneath his grandfather Jacob Frank's coat-tail. The old gentleman lives in Howe township and had a little difficulty with his son, who told young Irvin to shoot him.—*Perry County Freeman.*

The Pennsylvania Company is now building all of its passenger coaches one foot narrower than the ordinary pattern, reducing the width by making the aisles narrower. The object is to make the car lighter, and to lessen the resistance. The pattern adopted reduces the weight 5 per cent. and the resistance fully 10 per cent., yet the coach is just as comfortable and rides just as easy as the ordinary wide coach.

Circulars are being sent to soldiers in different sections of the country by western parties, stating that for the sum of $10 one hundred and sixty acres of good land will be secured without the formality of occupying it for four years—less the time of service in the army, as provided by law. The land commissioner at Washington states that the law remains unchanged and that the circulars are for the purpose of deception. Soldiers will, therefore, take warning.

INTERESTING TO ANGLERS.—Of late there has been considerable discussion among the disciples of the great Izaak, concerning the existence of worms in black bass. A well known gentleman of Wilkesbarre says. That if any worms exist in fish, they are always to be found along the course of the backbone, immediately beneath the skin. If, then, any black bass fisher is desirous of finding out whether or not worms do exist in that fish, he can do so by carefully skinning them, and closely examining the back, along the course of the spinal column.

THE NEW RAILROAD BRIDGE.—Eleven of the thirteen cribs for the new railroad bridge over the river at this place have been sunk, and the work is progressing rapidly. The two last piers on the western side will be about 60 feet longer than the others, as the bridge will run in a curve line, northward, from that point. The masonry on the first five piers is now several feet above water. The stone used averaged about one and a half tons in weight. The structure which is of stone and iron, is to be finished by the 1st of December, and will be the finest on Susquehanna.—SUNBURY AMERICAN.

Last Monday night the hardware store of Mr. C. Dreisbach, in this place, was broken into and robbed of about $100 worth of goods. The front door was opened by a "jimmy" or some sort of a pry—in this way spreading the door so that the locks sprang loose. The thieves took a number of fine revolvers, pocket knives, two small clocks and about $1.50 in money. Some of the finest cutlery and silverware was lying in the cases with the articles stolen, but it seemed to be the object of the thieves to take nothing of that kind with them. Suspicion rests upon a party of tramps, who were making desultory inquiries in the store the day previous—pricing a number of things, and settling ultimately upon a paper of tacks as their entire purchase. They were also seen subsequently crossing the river on an oar stem, having with them a couple of bundles. The same night that the robbery occurred, Mr. Jos. M. Housel's chest of tools was broken open, and a hammer and cold chisel taken out—nothing else disturbed. No doubt these tools were wanted for the occasion.—LEWISBURG CHRONICLE.

The Encampment.

The circular of orders recently issued by Major General Hartranft will give our readers an idea of the work to be performed at the Lewistown camp. The drills will be as follows:

First Bridge—Saturday, August 5 from 4 to 6 p. m., battalion drill. Monday, August 7, from 4 to 6 p. m., brigade drill. At 6 p. m., review by the major general. Wednesday Aug. 9, from 9 to 11 a. m., battalion drill.

Second Brigade—Monday, August 7, from 9 to 11 a. m., battalion drill. Tuesday, Aug. 8, from 4 to 6 p. m., brigade drill. At 6 p. m., review by the major general. Thursday, Aug. 10, from 9 to 11 a. m., battalion drill.

Third Brigade—Tuesday, August 8, from 9 to 11 a. m., battalion drill. Wednesday, Aug. 9, from 4 to 6 p. m., brigade drill. At 6 p. m. review by the major general. Thursday, August 10, from 4 to 6 p. m battalion drill.

The artillery will drill every day from 2 to 4 p. m., and on Friday, the 11th, from 9 to 11 a. m., as directed by the artillery battalion commander. Other drills may be ordered by the brigade commanders and the artillery battalion commander at such times and places as will not interfere with this order. There will be no drills on Sunday. The regular Sunday morning inspection will be held in all the commands, beginning at 9.30 a. m. Camping parties will be detailed from each organization in sufficient numbers to erect tents, etc., and who will carry with them cooked rations. No sutlers, peddlers or hawkers will be allowed entrance or be permitted to ply their vocation within the limits of the camp except the duly licensed sutler and newspaper corps who have been appointed and officially announced by them headquarters. Reports of the division will be in camp [illegible] August 5 to August 12.

Peter Herdic has organized a coach company in London with a capital of £100,000, in £1 shares.

Extra Trains During Encampment.

In addition to the regular trains on Lewistown Division, the following extra trains will be run daily from August 5th to August 12th inclusive:

SUNBURY AND LEWISTOWN RAILROAD.

Eastward—Accommodation leaves Lewistown Junction at 7.30 p. m.; Main street, 7.03; Lewistown, 7.00; Maitland, 7.22; Painter, 7.31; Shindle, 7.42; Wagner, 7.48; McClure, 8.05; Middleburg, 9.02; Selinsgrove, 9.35; arriving at Selinsgrove Junction at 9.45; p. m. and stopping at all stations.

Westward—Accommodation leaves Sunbury at 6.25, a. m., Selinsgrove, 6.42, Middleburg, 7.10, Mettlers, 7.18, Wagner, 7.28, Shindle, 7.33, Painter, 7.41, Maitland, 8.17, Lewistown, 8.30, Main street, 8.32, Junction, 8.35, a. m. This train to substituted for Mixed west, leaving Sunbury on the same time, but making fourteen passenger schedule instead of second class mixed.

Trains connect at Sunbury with trains on Northern Central, Philadelphia and Erie, and Sunbury, Hazelton and Wilkesbarre railroads.

A new engine, intended for the mail train, was run out on the S. L. road yesterday afternoon with Sup. Phillips and Mr. Cramer of Patterson in a special car, which came into collision with the former train at the siding beyond Wagner, resulting in the disabling of both engines and a detention of nearly two hours. The instructions were to pass each other at this point and the mail train duly arrived and stopped, when the special came thundering around the curve, and before it could be stopped brought the two boilers into contact. Fultz's train was sent out to bring the passengers and cars in. An old man received a cut on his cheek, another got a cut on the nose, a little girl was somewhat hurt, and other passengers shaken up. Master Machinist Paxson, who was acting as engineer of the new engine, stuck to his post and was pretty severely injured, having a few broken ribs. Of course the passengers lost all connections on the main line. It was another demonstration that two trains cannot pass each other on a single track.—*Lewistown Gazette, July 28th.*

Serious Accident.

On last Thursday night Sheriff James R. Kelly, while returning home in his sulky from a trip to the lower end of the county, met with a serious accident when about a mile from town, which might have proved instantly fatal and whose effects he may and doubtless will feel during the whole balance of his life. His horse was coming down the hill beyond A. J. Meiser's, when he blundered and fell throwing the Sheriff out upon the road on his head and shoulders, where he was found sitting in a half unconscious condition by W. H. Moore, about 8.30 o'clock, as that gentleman was returning to his buggy from a meeting of *D. H. Wilson Post, G. A. R.*, in this place, who immediately transferred him to his buggy and brought him to his home and summoned Dr. Eiler. All of Saturday night, Sunday and Sunday night Sheriff K. suffered terribly from severe pain in the head and shoulders, partial blindness and at times spat blood, but we are glad to say that these alarming symptoms have to a great extent left him, and he is now rapidly convalescing, and will soon, we hope, be again "on duty." The Sheriff can't tell much about the accident, hence we infer that he must have been dozing at the time, as the first thing he says he remembers is the sudden shock he received on striking the ground. He says he felt terribly stunned but at once sprang up, but immediately again fell, being unable to stand, in which condition he remained until found by Mr. Moore, which couldn't have been very long thereafter. The horse was found standing quietly in the road close to Sheriff K. with marks upon his knees of the fall and the sulky in the road with the shafts broken. It is fortunate that the accident has terminated so well. If it only results in driving that murderous vehicle, the sulky, out of use it may not have been in vain. *Juniata Herald.*
