The Executive Committee in presenting the premiums for 1855, are gratified in offering to competitors the most liberal list that has been laid before them; and it is hoped the exhibition will be more extensive than at any former period. There never was a time when the Agricultural interest was so prominent in the county, and held out such inducements. It is trusted therefore, that an institution which has aided so essentially to develop the resources of the county will be liberally supported. Applicants for premiums on Grain and Potatoes are requested to give the mode of cultivation, and furnish the Society with complete proof of the quantity raised. Applicants for premiums on Milch Cows for Butter, will state the greatest quantity made in any one week during the season.

Persons presenting Agricultural implements, are requested to furnish a description of the article.

To enable the Committee to give an additional interest to the exhibition, it is earnestly requested that those who take an interest in the success of the Society, and who possess any thing that is ornamental or curious, will send it for inspection.

ALFRED BALDWIN,

☞ At a Meeting of the Susquehanna County Agricultural Society in Montrose, on Saturday, September 15, 1855, the following Preamble and Resolutions were unanimously adopted:

Whereas, The introduction of valuable Neat Stock and other domestic animals into this county, through the agency of members of the Agricultural Society, has contributed greatly to promote the interests of the farmer, and has manifested that our lands are admirably adapted to grazing and dairy purposes; and in order more fully to develope our resources, a healthful competition must be still further encouraged by the enlargement of the Premium List, and other inducements, in order that the Farmer may better appreciate the natural advantages of the soil. Therefore—

Resolved, That the Chairman of the Executive Committee be directed to correspond with non-resident land owners in New York and Philadelphia, or their representatives, soliciting contributions in aid of the objects of this Society, with an assurance that it will be appropriated so as to create among our Farmers a desire for improvement, and thus eventually tend to the promotion and advancement of the general agricultural interests of the county.

Resolved, That the grateful thanks of this Society are hereby tendered to Samuel C. Morton, Esq., of Philadelphia, for his liberal donation of one hundred dollars, and which the Society appreciates more highly, as evincing a desire so truly disinterested to further its objects.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Humors, Gout, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character as to forbid the suspicion of untruth. Among the eminent gentlemen who have testified in favor of these Pills, we may mention—

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts; H. J. GARDNER, Governor of Massachusetts; EMORY WASHBURN, Ex. Gov. of Massachusetts; SIMEON BROWN, Lieut. Gov. of Mass.; E. M. WRIGHT, Secretary of State of Mass.; JOHN B. FITZPATRICK, Cath Bishop of Boston; Prof. JOHN TORREY, of the College of Physicians and Surgeons, New York city; Dr. C. T. JACKSON, Geologist of the Public Lands of the United States; Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by Hon. W. L. MARCY, Secretary of State; WM. B. ASTOR, the richest man in America; S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be forwarded by mail at his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their regular action to health, and by correcting wherever they exist, such derangements as are the first origin of disease.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass. Price 25 cents per box. Five boxes for $1,00. Sold by ABEL TURRELL, Montrose; B. F. & R. H. EATON, Harford; CHURCH & PHINNEY, Dundaff, and by all dealers in medicines every where.
