I am called upon by a sense of justice to mysclf I am called upon by a sense of justice to myself and the public to expose the intrigue of the leaders of a certain Clique, which I shall call the Blacksmith League, in the first place for attaching my name to certain handbills that are in circulation, the object of which, seems to be to inform the public that all the blacksmiths in this County have raised their prices for work some twenty-five per cent. As my name stands connected with others upon the above named handbills, I only wish to inform the public that it was placed there without my consent. Being in the 'em-th ing of the Blacksmith League which was at their is hop, of course I was present. The meeting was held ploy of Messrs. Hawley and Jenrs at the nrst meet-ing of the Blacksmith League which was at their shop, of course I was present. The meeting was held than the chespest. Call and see. B. R. LYONS & CO. for the purpose of forming resolutions with regard to raising prices of work &c., but as there were but few Smiths present, it was carried that they adjourn until the 28th of November; during this interval between meetings it became the duty of every one to notify all the brother chips he could, to attend the notify all the brother entrys he could, to attend the meeting on the 28th. According to appointment as I understand, a very large number of Smiths were present at Bloomer Hall, organized a society, elected A. J. Brewster President, A. E. Hawley Treasurerfixed the prices of work, and all obligated themselves to prove true to each other. I understand that the reasurer has reported that I was the first one that suggested the idea of forming a Society, and was the most active in fixing the prices, which I deny and can prove is false. I was, not present at the organiration, though solicited strongly to go, by some of the members. I sent word by my brother, who attended the meeting, that I wholly refused to become a mem-

ber of their society. Every intelligent mind can see at a glance the ob ject of this scheme. Look at the source from which it springs. Monopoly is the object. The Treasurer, in order better to carry out his designs, has reported, as I understand; that I am no workman and in the habit of slighting my work. Perhaps he would be understood to say that I have something of a tact to turn off work fast and easy. Let this be as it may, he was very anxious to keep me in his employ at the axpense of \$1,75 per day. As far as my workman-ship is concerned I leave the public to judge. I must confess, however, that I am unacquainted with
