To the Judges on Grain of the Surquehanna Co. Agricultural Societa. The undersigned respectfully submits the following

report of his Corn crop of the present year. The land is a dry ridge similar to most of the hard maple ridges of this vicinity. It was greensward, manured with twelve loads of barnyard manure to the acre, plowed once, in the Spring (the manure plowed in) harrowed and planted in the usual manner, plastered twice, and tilled with the Cultivator once and the Plow twice. was ninety-four bushels and three pecks per acre. The kind is twelve-rowed yellow Corn.

ROBERT MORE. Bridgewater, Oct. 22, 1855. We certify that we have examined and measured an nere of Corn, in the field of Robert More, in the following manner. We counted the hills and found the whole number on the acre to be three thousand Hance six bundred and ten. We then husked twenty-five In Great Bend, on the 31st ult., Mr. ALLEN Mchills, (which we think was a fair average of the acre,) INTOSH, aged 106 years. and shelled and measured the Corn, and found it to be twenty-one quarts, then by calculation we find the quantity on the acre to be ninety-four bushels and them noises relication fraction. ROBERT KENT. Bridgewater Oct. 22, 1855. To the Judger on Grain of the Sunquehound Co. Agricultural Society. The undersigned respectfully submits the following report of his Corn crop of the last season. It was grown on land similar to most of the dry ridges of the County-greensward, turned under some two or three weeks previous to planting. The Corn was planted about the middle of May, in rows, some less than three feet each way, with plaster in the hill,-after plastered twice-during the season. It was tilled with the Cultivator three times with but very little hoeing.

the following report. M. L. CATLIN. Bridgewater, Nov. 6, 1855. We certify that we have examined and measured an acre of Corn in the field of M. L. Catlin, in the following manner. We counted the bills and found the lowing manner. We counted the hills and found the whole number on the acre to be five thousand and whole number on the acre to be five thousand and ferry, we then husked twenty-five hills, (which we a new lot of Melodeons, Violins and Guitars. think were a fair average of the acre,) and shelled and measured the same, and found it to be twelve quarts shelled Corn. Then by calculation, we find the quantity on the acre to be seventy-five bushels and nineteen quarts JOHN HARRINGTON.
