TONICS WON'T DO. IMEY never did do more than give temporary reliet, and they never will. It is because they don't touch the cause of the disease. The cause oall ague and bilious diseases is the atmospheric poi son called Miasma or Malaria. Neutralize this poi-son by its NATURAL ANTIPOTE, and all disease caused by it disappears at once. Rhode's Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on Dumb Ague, which never allows a person to feel perfectly well for a single gle moment. In illustration of these truths I annex some extracts just received from a physician:

Three persons took your "Cure," all of which were cases of "Quinine Intermittent Fever" of many weeks standing. They had tried Quinine and other remedies, occasionally missing a chill, but it was (as in all such cases) slowly wearing them out and laving the foundation of other and severer maladies. I did succeed, in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonich had been used, and would, as before stated break the thill, but after a period or two had elapsed

it would return. I think there will be no difficulty now in giving
