For about eight years articles have appeared with more or less frequency in some newspapers in the Union, in which a contract for a number of cattle has been spoken of, made in 1847, in the City of Los Angelos, between Col Fremont and myself. The evident want of truth in the published versions of that business and simple nature of the contract made in this country under the circumstances then existing, seemed to me sufficient reasons for not taking the trouble to refute unfounded calumnies. I do not now propose to give an extensive statement of events, or to make known the want of resources under which California was conquered, because all those things are perfectly well known. The chiefs had no choice but to recur to their ownpersonal credit to feed their soldiers. The cattle which Col. Fremont contracted for were for that object. It was necessary to transport them from San Luis Obispo, and for that purpose Don A. Pico was appointed ; but when he arrived with the cattle Col. Fremont had lost his command. As a sum of money accompanied the contract, beside the heavy expenses paid on the way, I was not able to receive the cattle at Los Angeles, they vowed, in the quiet seclusion of their where I had no pasture-land, and therefore. Mr. Fremont, who was bound by the contract --as the new chiefs refused to receive the cattle-found himself obliged to deliver them in deposit to M, A. Stearns of Los Angeles; who sent them to his rancho of San Rafael. It is not true, as has been said, that Col.

Fremont gave a receipt before receiving the property. The contract was signed on the 3d of March, 1847, and the receipt or doen- gether by so many ties, memories and associations, finds itself subjected to no rupture ment which proves that I performed my part in the present struggle. We stand shoulder is dated April 26, the same year, when the to shoulder. With united ranks we advance total delivery had been made. against the venal ranks of the Administration. We see, therefore, that those who have

made this calumnious weapon against Col. it ought to be kept in mind, as a certain and stand together, as of old, leagued in the holy Fremont are very far from the truth. And indubitable fact, that Col. Fremont, in making provision for the future, rendered a real service to the United States, while I suffered to her plighted faith! \

nor for the expenses and damages, or for the money delivered in 1847. The public treas. ury, in reality, has come off the gainer; for the import duties on the cattle were collected in the custom house of San Diego, where they were transported from the valley of San Rafinel to the territory of Los Angeles, whence they had been brought.

This is the true history of that transaction : and the documents which prove it will be published in due time, if necessary for the object of my claim.

Very truly, your friend and humble servant. E. DE CELIS.

The above letter relates to the "six hundred cows," out of which Col. Fremont has been accused, in some of the baser Buchancer journals, of swindling, or trying to swindle, the Government, by buying them on its credit and converting them to his own use! We have already stated the fact that the Government never paid one cent for them, but we did not then know that it had actually made money on them, by subjecting them to duty at San Diego. M. de Celis's statement is evidently truthful, and he speaks of what he knows.-N. Y. Tribune.

Ten Cent Jimmy-Its Origin. On the 22d of January, 1840, Mr. Buchanan addressed an argument to the U.S. Senate, of which he was a member, in which among other things he said :-

"In Germany, where currency is purely metallic, the cost of everything is REDUCED TO A HARD MONEY STANDARD, a piece of broadcloth can be manufactured for fifty dollars, the manufacture of which in our country, from the expansion of paper currency, would cost one hundred dollars. ren, find you there! OF PRICES THROUGHOUT THE WORLD, AND YOU COVER OUR COUNTRY WITH BLESSINGS AND BENEFITS.

"The comparative LOW PRICES of France and Germany have offered such a stimulous to their manufactures that they are now rapidly extending themselves, and would obtain possession, in no small degree, even of the English home market, if it were not for their protecting duties." Lahos is the chief element of cost in man-

macturing, from the making of watchsprings up to a locomotive. The price of raw materi als is of small comparative consequence.

The next day Mr. Merrick of Maryland made a searching exhibit of the ruinous influence upon the workingmen of the United States of the adoption of the policy which Mr. Buchanan had so strongly urged. In the course of his speech Mr. Merrick said :

"Mr. President, as it has been argued in support of this bill that one of the good ef-OF LABOR IN THIS COUNTRY .-- meand important to inquire to what extent this, in its circulation, as well as to ousist in dereduction was to take place. Many persons express astonishment at the result in Maine. But they forget the great moral conviction of the popular heart, which rises superior to the wiles of politics; which arrives with unfailing accuracy at political

right; and which is not to be misled by the specious pretensions of factionists. Those who have not, during the last week, witnessed the deep devotion to principle in Maine, can have no idea of the fervor and sincerity which has determined the election. Men went from their knees, and from wrestling with their God, to the ballot-box. It was His cause; He had it under His own Right Arm, and they did not fear defeat. The cold-blooded gentlemen who write for the Courier may call this enthusiasm; they may call it fanaticism: they may call it what they please; but in their political calculations for the future, they will be obliged to estimate it and respect it. And now, Republicans of the Union, New

England sends you greeting! An infamous Coalition has been trodden into the dust. Overthrown in Maine, it will be overthrown in Massachusetts. We slisll present, in November next, an unbroken front. We shall give the gallant Rathfinder and the patriotic Dayton 100,000 votes! And as we do our duty we call upon you to do yours. We shall be in the thick of the battle; let us, brethren, find you there ! For Freedom, for Lib-
